## Headmaster's Message

Not for many years has a school year at St. Andrew's opened with such excitement and enthusiasm. After fifteen months of construction, the three major building projects, Rogers Hall, The Wirth Art Centre and the Gallery were all completed just prior to opening day. All students, old and new, were greeted by a shiny glass and steel building nestled in the hollow where the old Tuck Shop used to be. The fabulous new Yuill Family Gym shares the site and provides S.A.C. students with another indoor facility for volleyball, basketball and badminton. The new Gallery situated between the old Dunlap Gym and Coulter Hall provides faculty and students with a meeting space in the heart of the campus. As the year has unfolded, more boys are using this space for relaxation or to catch up on an assignment. The newly located Campus Shop in the Gallery has also been a huge success.

Quite aside from the new buildings, the year will be remembered as the first for our wireless laptop program. All students received a D-series

Dell computer at the start of the year; it has become a major ingredient in their daily lives. Visitors to St. Andrew's notice immediately that leading-edge technology is at the heart of the school's curriculum.

Throughout the pages of this magnificent publication, you will read more about the school's new buildings and programs. More importantly, you will read about the activities and accomplishments of our students. They are a talented group and I for one am extremely proud of them. It is a truly unique community! TS.

## The Review

For those involved, it's perhaps one of the most demanding and yet unheralded aspects of the school year. Documenting, gathering information, photographing students, staff, faculty, events, etc. or in short, creating the Review. Only those who have been involved understand the time and commitment needed to produce this document. Only those who know what goes on behind the scenes appreciate the hard work, long hours and dedication needed to complete this publication which has grown into one of the largest yearbooks in Canada.

This year's Review was created, styled, designed and completed more by the Review course than at any time previous. This class had a core of very talented and dedicated students who brainstormed, worked and re-worked ideas and created a yearbook with a professional style and look. Lead by Calvin Lam, Mike Genin, along with Jonathan Adamo, Ryan Marek, Robert Iaccino, Roy Hui and the rest of the class, these lads each produced eight two-page spreads – or at least that was the plan. In the end, Calvin and Michael took inventory of what was complete and incomplete

and spent a week of their summer, fixing, creating and re-creating all the pages that were missing or not up to standard. Thanks guys, you did an amazing job.

The class was helped by input from Rahim Damji who focused on the Grad section, gathering and editing comments and Jeremy Slessor who provided excellent photographic support.

Mrs. Berman took over the Middle School section and attempted to have Middle School students contribute to and design sections. Future desk top publishers are being developed as a result, as well as a Middle School section with it's own style and flair.

Overall, I expect most will be pleased with this book. it is decidedly different than previous publications. Thanks to all those who helped make the process of creating the Review a little easier, by submitting articles and pictures, identifying people and generally co-operating when asked. Enjoy! SK

The prefects of the class of 2004 had a year that was truly memorable. Under the expert tutelage of Courtenay Shrimpton "C Shrimp" and David Josselyn "J" the prefects managed to successfully go through the year meeting all of their objectives and burning memories into the minds of all the students at SAC. The highlight of their year was prefect weekend, the Animal Protection agency and of course Formal 2004 (unmatchable). They would like to thank everyone that helped them meet their goals this year and they hope that their work was appreciated.

FALL TERM

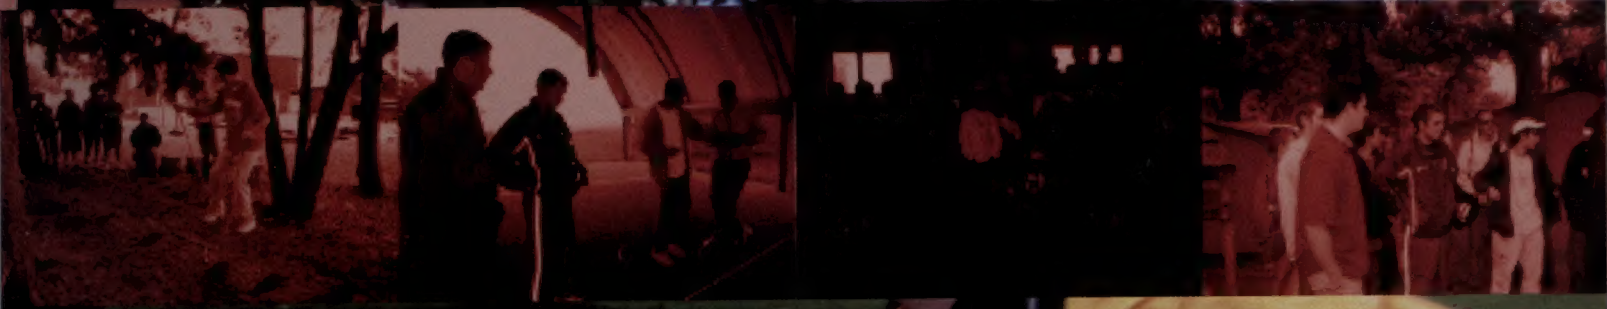

This year's version of the leadership camp was exclusive to grade 12 and grade 8, while the weather did not co-operate with the Robin Hood Camp, the boys were involved in hard work and enjoyed solving problems presented to them. Welcome leaders of 2003-2004.

Homecoming day dawned cold and wet, with storm clouds emptying in excess of four inches of rain onto the sodden turf of the St. Andrew's playing fields. While some students were a little down in the mouth, **Michael Carney, Matt McIntosh and Sohaib Siddiqui** took the unexpected opportunity to practice their canoeing skills. However, despite the cancellations of U12, U13, U14, U15 and JV Soccer, as well as most of the Ladies' Guild events, and the loss of the six lower fields, the Andrean community retained a bright and cheerful outlook, showing great flexibility and determination as they rallied in the pouring rain to prepare the three remaining fields for games. Many thanks to Stu Bundy, Jon Butcher, Christina Fogg, Ron O'Hare, Ben Kitagawa, Karin Ossenkopp, Tara, Bob and Ann Perrier, Greg Reid and Graydon Robson for their community spirit.

Behind the scenes, Edna Collins, Jane Bedard and Carolina Bolefski did a fantastic job communicating all the game changes to our constituents and visiting teams. And a tremendous thanks to the Dining Hall staff for all their efforts, and to the Grounds team who worked many long wet hours! It was greatly appreciated by the coaches, athletes, parents and Alumni. The games were on!

## HOMECOMING

## Cross Country Run • Homecoming • Henry V • Fall Term Sports

First Volleyball, U16 Volleyball and U14 Volleyball each won their games against Holy Trinity School, 3-1, 3-1, and 3-2 respectively. First Football triumphed in a 31-7 victory against Ridley College. Also against Ridley, First Soccer and U16 Football made the best of 0-1 and 2-3 losses respectively and U16 Soccer slid their way to a 3-1 win.

Old Boys, visiting parents and guests were treated to a complimentary luncheon buffet in the Great Hall. A barbeque lunch was also served at noon for the teams and coaches under the overhang outside McLaughlin Hall, while a stilt-walking juggler entertained the throngs and the sun peered shyly through scudding clouds. Later in the afternoon, pianists **Kent Fu** and **Benjamin Si** entertained guests in the Gallery.

Approximately \$1000 was raised for the Terry Fox Foundation through the sale of baked goods and refreshments during the day as well as at the Homecoming Dance. Many thanks to Ladies' Guild volunteers for staffing the tables and for the organizing prowess of **Ryan Bryce, Jordan Cyr, Mark Hanson, Tomi Jun, Jared Leslie, Nick Leslie, Ryan Luther, Adel Ratansi, Matt Suddaby** and **Taylor Walker**, all members of the Outreach Committee.

With the haunting strains of *Scotland the Brave* and the *Irish Guards Welcome to Toronto* played by piper **Nick Leslie** reverberating throughout the Gallery, *Braveheart*, a gift from the class of 2003, Headmaster Ted Staunton and the Board Chair **Brian Armstrong '61** officially opened the new facilities: Rogers Hall, named for our generous benefactor **D. M. Rogers '59**, the Yuill Family gymnasium, Wirth Art Centre and the Gallery. Tours of the new facilities were orchestrated by **Ken Ryan**, and the many Old Boys, parents and friends were most impressed with the ambitious Phase I of the Campus Master Plan. Tour guides were **Carlo Caro, Felipe Gonzalez, Jonathan MacKenzie, Devon Mok, Spencer Powell, Joshua Si, Luc Swenker, Wes Tiller** and **Brett Wilson**.

The day after, the office received a message from Captain **John Stewart '78**, a member of the Canadian Military operation serving in Afghanistan. He writes, "as an Old Boy serving with the Army, I was very sad about not being at Homecoming for only the third time since I started at S.A.C. in 1973, [but] your teams made my heart glad! It was a combination of wins and losses of course, but...Homecoming means a lot to me, as it does to every Andrean... I was thinking about how great S.A.C. athletics are, and how they are one of the vital rallying points for spirit at the school. Twenty-six years after graduating, I am still excited about the great feelings that we all experience from the athletic program at S.A.C."

## 2004 Cross Country Winner Jonathon Thomson

**E**very year at St. Andrew's College every student in the school has to participate in the Cross Country Run. Each year there is an award given to the winner of the race, very suprisingly Jonathon Thomson, a new boy in grade 9 won this year. The run was over 5 km long and the route was around the campus.

Arguably one of the most exciting events of Fall was our Annual Halloween Festivities. The costumes were very entertaining and it was evident a lot of thought was put into them. This year it seems the Middle School was quite obviously the "Best Dressed". It was also entertaining to see nearly all of the staff in costume.

# Mr. Gregory Dominato

If you split one atom you will find in it one sun and some planets which revolve within themselves and also around it, the sun.

Jalaluddin Rumi.

Experience is an atom whose inner quality is intensely personal, a world of a sun and planets whose quiet relations must be encountered through the wholeness of one's moment, one's presence, one's self witnessing. We express the inner character of our experience through the gifts that we each receive and which we squander by not working on them. Something of the inner character of our life does not get spent in the telling of it and flows between each of us and represents in some way our possibility to truly share the substance of our lives with each other.

Within my experience here at this very unlikely place, a place in many ways set aside, on the brink of a hill atop the

prow of which sits a chapel that pushes it self up in a spire above the pines and into the sky of all the many days, I have had such days as when we gathered as a school on the quad to plant an oak tree in celebration of the school's 100<sup>th</sup> year. The awkward sound of a backhoe, the rising thought in hundreds of heads all at once that there was a certain quantity of confusion about.

Of course, there is the need I have discovered in myself to have and enjoy a certain amount of uncertainty in the actions of life. It seems to provoke a wakefulness that is creative and worthwhile, despite the pain of having to listen to the voice inside that would rather that it just all be worked out perfectly.

The backhoe stops and in the rush of difference, all come silent. Moving instinctively, the nascent lines of bodies are now tendrils of a plant growing outward from the center. A circle is formed with beautiful symmetry around the tree. Some words are spoken and the theme for the year is shared, the first of the themes which have, it seems, become part of our fabric. Maybe 10 breaths of quiet and perfection, then the circle is broken and the schedule moves us along.

the alumni database has left a most important legacy for the College.

As well, her strong English language skills have made a terrific contribution to *The Andrean* magazine which Headmaster Staunton refers to as "the finest alumni publication in Canada."

Sandra has been a most important member of the Andrean community, a community that she helped build and foster over the past two decades. We shall miss her.

### VALETES

# Ms. Marie-Ange Habib

Words to describe Marie: Beautiful, quiet, competent. We have been very fortunate to have had Marie with us for the past 10 months working as a co-op student

in our help desk. Everyone who knows Marie has come to appreciate her quiet manner. This competent young Egyptian woman, daughter of an architect and teacher, who speaks English so fluently she had to remind me she had only been in Canada for three years. What is hard to fathom is that Marie was not part of a formal co-op program but with determination and hard work she made her own program. She is planning to complete her Information Technology and Business degree within 5 years while working full time. What determination.

Marie's talents and contributions this year have outstretched her Help Desk responsibilities. Marie has been a great help with special projects such as mining the Track-IT laptop database for patterns of student use and abuse of their machines and helping to organize the CESI National Technology Project visit and next week helping to organize a group of middle school students who will be presenting to faculty during our PD.

Marie does all that is asked of her and more. I had witnessed another school who asked that all members of faculty and staff keep their doors open and make an effort to connect with any boy who seeks them out. I asked those working at our newly established helpdesks to extend this sort of welcome to the boys. Marie embraced this idea with the little guys of the middle school. She was never angry, never frustrated, always trusting and looking for the good in the boys who made the Help Desk there place to hangout during breaks. So thanks Marie for fixing all those broken motherboards, screens and keyboards, but thanks just as much for your simple kindness. Best of luck in your wonderful life that awaits you.

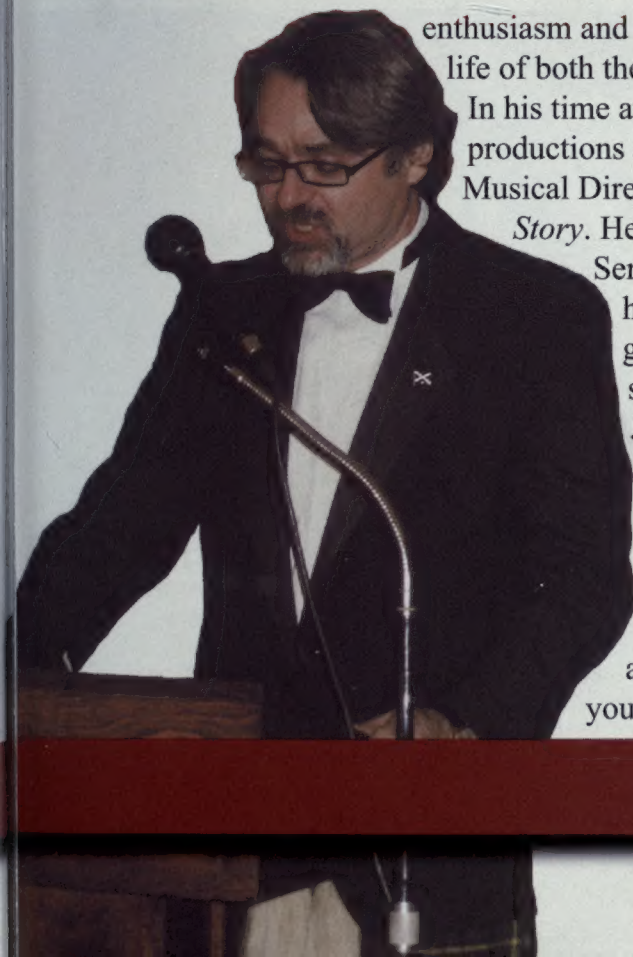

# Mr. Jeffrey McGee

An exuberant and well known faculty member, Jeffrey McGee leaves us after 10 years with the music department. Jeff came to St. Andrew's by way of Trinity College and Albert College. His infectious enthusiasm and vast knowledge has made him a valuable contributor to the musical life of both the Middle and Upper Schools.

In his time at St. Andrew's, Jeffrey has been involved in several stage productions as a musician and an actor; highlighted by his superior work as Musical Director for the S.A.C. Drama Society's 2000 production of *West Side Story*. He has led the Middle School Band, Cadet Band, the Wind and Carol Service Ensembles, resurrected the Jazz Band, founded the incredibly hard working S.A.C. "Pep Band!" along with forming a number of groups of various shapes and sizes for recitals, FOCUS and other special events.

Jeff has coached numerous school sports over the past decade. An experienced marathon runner, his forte has been the Cross-Country Team where his charges would always have a lot of fun and enjoy great success!

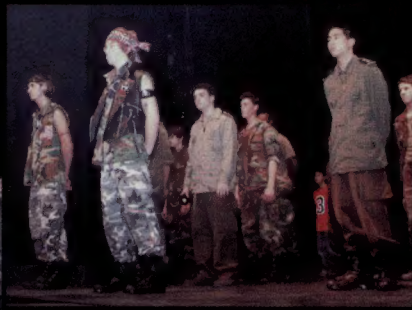

Jeff's friendly manner and bellowing "Go Saints!" will certainly be missed but I am sure that we will see him often as he has accepted a similar position just down the road at Holy Trinity School. Thank you Mr. McGee for your dedication to everything here at St. Andrew's.

# 2003 Undefeated CISAA Champions 2003 Golden Horseshoe Bowl Champions

Football is pure emotion. Played by people who care about the game and for each other. As coaches we always talk to the players about etching permanent memories, about appreciating the game now, not just once they have stopped playing. The success of the football program can be marked by the 32 and 2 record over the past four years or by the two Provincial Championships. However, this years edition of Saints Football believed in the concept of team and they stuck by each other all season. Every member of the team grew as a player and more importantly as a person. Everyone associated with the team will agree that the greatest indicator of success of this program is the character of the boys who graduate from the program and the recognition that memories and camaraderie are more important than the wins and losses. We wish all our graduating players the greatest success in life beyond the gates. The returning players carry the burden of past achievement and character but I know they will be up to it!

## DEJA TWO!

Saints Football Go Undefeated Again

In 2001 the school, 43 players and five coaches went on a magical journey in a football season that was never to be repeated again. Many labeled it "A Dream Season". Undefeated, Skydome finish, superstars galore!

In so many ways Louis Armstrong put it best when he sang "Fairy tales can come true, they can happen to you, if you're young at heart." Isn't it fitting that one of the four pillars of the school is Heart, and even more than back in 2001, this team bared its heart and won it all. Ten wins zero losses, Skydome start and finish, 48 players and five coaches.

The year began with a jamboree against Markham and Lorne Park and wasn't it prophetic that we would play our first downs of the year against the Markham Marauders. Following the opening scrimmage the team went on tour playing in two C.F.L. stadiums (Frank Clair in Ottawa and The Skydome) in a five day span. After a rocky, penalty filled first league game victory against TCS, the team exploded over the next five weeks finishing undefeated and relatively unchallenged in the regular season. An easy first round playoff victory against TCS set the Saints up for the Championship against arch rival U.C.C. The coaches nervously prepared the team leading into the championship game, fearful of a letdown in the big game. The potential let down turned rapidly to jubilation as the Saints ran up a 31-6 halftime lead and cruised to C.I.S.A.A. victory. The memories from that game were particularly sweet.

The next phase of our journey was a match-up with Durham region and Paul Dwyer. The team prepared well and played a fabulous game taking it to another "team in blue" 41-0 in the Provincial semi-final.

For the second time in three years the Saints were returning to the Dome where a large, exuberant crowd of alumni, parents and students cheered their hearts out from the opening kickoff to the end. In 2001 the story of the game was an explosive offense that couldn't be stopped and a big play defense. In 2003 the tables were turned.

On offence, despite having a stellar season and scoring an average of over 30 points a game, the team met a fierce defense who shut the Saints down. An early touchdown run by Billy Burke was called back and shortly after the star tailback went down injured and didn't return. The game was in the hands of the defense who slugged it out with a smash mouth Markham offence that kept on coming. It was a war. After a scoreless half, Markham put the first points on the board with a field goal in the waning seconds of the third quarter, only to have their spirit crushed by a 101 yard kickoff return by Anton Bennett immediately after. The final quarter was a battle of wills between Markham's offence and the Saints D. After one further Markham Field Goal the gun sounded and the Saints collapsed in joy and exhaustion with a 7-6 victory.

The Dome has become a place of familiarity and wonderful memories for the team and the school, our home away from home. Let's hope that we can keep this streak going into the 2004 season.

**T**his **U16 Football** season was Canadian football at its best – or worst – depending on how you look at it. Despite having no trouble dismissing Trinity 27-8 in the season opener, all but one of our other games were 1 point matches.

Ridley took advantage of a windy homecoming game on the slope and, after shutting down our offense, managed to kick a field goal for a 3-2 win.

Week 3 saw us control UCC, but have it come down to the wire for a 21-20 squeaker on the scoreboard if not on the field. St. Mikes was a somewhat predictable 31-14 loss, but this in fact is the closest score we've ever had against them, and got us excited that we just might have a chance against them in the finals...

Unfortunately to get to the finals you have to get past the semi-finals – which was Ridley:

And our otherwise superb defense were still on the bus for the first series. Ridley scored on their opening drive... and then, we shut down almost completely, until the last minute of the game by the spectacular hitting an pursuit of Paul Ross, Julien "Both ways" Benheim, Justin Lemieux-Riel, Matt Eton-Kent, Tyler Hurst, Mike Greco and the rest of our usually spectacular defense.

Thanks to the running of Joey Burke, Taylor Campbell and Dean Hamman backed by Scotty Johnstone and the very respectable O-line your Saints were up 14-7 with a minute left on the clock...

And despite a concussion earning heroic tackle by Chris Vigmond, Ridley managed to break open an end-around and score with just seconds left - to force **overtime**: CFL style.

Each offense is awarded possession on the 35 yard line and keeps possession until they score or turn the ball over. Ridley went first and came up empty. Your Saints went next and were 3 and out. Ridley managed to get a first down on their next possession and go just close enough that they could just punt the ball through the endzone for the ultimate Canadian scoring weapon – the single point rouse. And that was the game and the end of our season. Three one point matches and a relatively close score against St. Mikes show that the CISAA league is both competitive and a high quality league... and although not finalists this year, our boys can be very proud of what we achieved.

We were a young team with more rookie starters than at any time in the past 4 years so it is fair to say that development was the key to our successes this year.

Our 2003 **MIP** award goes to an individual who not only changed from defense to offense, but went from being second string to being in the running for the MVP award. Scoring nearly half our touchdowns this season and making significant improvements in his own game and outlook, this year's Most Improved Player is **Joey Burke**. The 2003 **MVP** award goes to a young man who was also in line for the MIP award... showing a fantastic improvement in attitude and sportsmanship, and becoming the de-facto leader of one of the best defenses in the league, this hard hitting, never say die athlete was the heart and soul of the defense, and a sometime member of the offense, the 2003 MVP is **Paul Ross**.

Our record was 4-3-3. We didn't even make the play-offs this year. CDS beat us.

It's true the expectations of this team have almost become a given; have a banner season and then pair off with Ridley in the Championship final. Play regulation time with us ahead, have Ridley steal a goal in the final seconds and proceed to penalty shots. Soccer Gods flip coin and winner is chosen...not this year.

**4-3-3. Doesn't look too good.** Forget that we had built this team with only two returning players; that a 4-3-3 record meant only three games out of 10 were lost; that each of those losses was by 1 goal; that we lost to the Championship Winner 1-0 in regular season play -forget all that!

Both Mr. Marshall and I had a good feeling at the end of this season. Stripped of the 'hardware' we saw the essence of what First Soccer is because, while we did not have the season we might have wished for, the spirit of First Soccer was as vibrant and healthy as ever! Every practice was a World Cup - whether it be Canada vs Sweden; Korea vs Serbia or the Rest-of-the-World against Indonesia! The hard work that is First Soccer; the camaraderie that is First Soccer; the fun that is First Soccer; the spirit that is First Soccer is alive and well. And just watch us next year!

The expectations were high again this year for U16 soccer, coming into the 2003 season as defending U16 as well as U15 CISAA champions. Right from the start, it was obvious from this talented bunch of players possessed all the qualities of champions; an excellent overall skill set, teamwork and camaraderie, effort and most importantly the "Fire" or determination necessary to accept nothing but the best from themselves and each other.

Our season, however, was uncharacteristically inconsistent. Defeating some of the stronger teams like TCS and CDS, we fell victim to weaker teams such as Holy Trinity and Appleby. Unfortunately this put us at a disadvantage heading into the final tournament since our third place standing forced us to play two qualifying games against Hillfield and Appleby. This proved not to be a hurdle however, as the boys finally worked to their potential easily defeating both teams to advance to the championship round.

Our Semi-final match pitted us against St. Mikes, a team that amassed a perfect 9-0 record during the season with only 2 goals scored against them. Outmatched and out sized, we fearlessly battled our opponents playing some of the finest soccer that I have ever seen at this level. Unfortunately, we narrowly lost 2-1 eliminating us from the tournament and advancing St. Mikes to the finals where they went on to crush UCC to ultimately win the championship.

Congratulations to this year's MIP - GONZALO MARTIN. Nominated by every player on the team is this year's MVP - ALONSO GOROZPE.

With only three returning players, this year's first volleyball team had very little idea of

what to expect in league play.

However, right from the beginning of pre-season training camp, it

was apparent that we had a group of athletes who were committed to the sport and were sure to gel as a cohesive unit. We went 4-0 early in the season

including a very strong showing at Homecoming

vs. Holy Trinity School. It was great for the guys

to play with the pressure of a large audience, but

we hope as well, that we demonstrated to everyone

how entertaining the game of volleyball can be and

how talented our players are.

One of the highlights of our season was the 1<sup>st</sup> Annual

CAIS volleyball tournament hosted at Strathcona-

Tweedsmuir School in Calgary. We attended a

University of Calgary men's varsity volleyball match

versus UCLA. Over the next two days, we played

eight matches of incredibly competitive volleyball.

We finished the tournament with the Bronze medal.

However, in what was likely our best volleyball of

the season, we won our round-robin match against

Calgary Christian School who went on to win the

whole tournament.

We finished our CIS season with an overall record of

36 wins and 26 losses. We were third place in league

play and matched up against St. Mike's in the CIS

semi-finals. We took them to five games in this best

three out of five match. St. Mike's went on to beat

UCC in the league finals.

We would to thank the entire team for their hustle

and commitment, but particularly graduating players

Kalev Hess, Cody Biggings, Justin Lyons, Bryn Fell

and David Oram.

I would like to thank the coaches, Mr. Mc Gee, Mr. Wenk, and Mr. Perrier, for their continued support and dedication to the middle and senior school cross country programs. The senior school program went through a rebuilding year where by new faces entered the program to fill the voids left by last years graduates. These first timers were led by CO-Captains Kevin Dong and Greg Willmot. I am happy to have coached, transported, and watched the team compete this year. Fortunately, none of the current members are graduating so we can build upon this years advances.

This year's highlights include three championships, CISAA, York Region, and OFSAA. At the CISAA Championships the senior team finished 4<sup>th</sup>. At the York region Championships the midget team finished 5<sup>th</sup> and the senior team was 9<sup>th</sup>. It was also at these championships that Jon Thomson finished 5<sup>th</sup> in midget boys race and this earned him a berth to the OFSAA Championships in Renfrew. At those Championships Jon finished 74<sup>th</sup> of 150 competitors. A solid first time performance.

**P**erhaps some of you will remember Kurt Schmick who was here a few years ago. Kurt was an avid fencer, graduated to Carleton University, joined the Carleton University Fencing Team, and has progressed so far in the sport that he has just been listed the No. 2 fencer in the province. He has also been named to the Canadian National Team, and will doubtless represent Canada in the Olympics in fencing in due course. So we are doing something right in our fencing programme here at SAC.

Alex Douglas—Nick Wong

Five times a week we train out of the limelight, unnoticed and unheralded in the musty bowels of Dunlap Hall. Eleven students have made up the training team this year. Unlike other athletic teams in the school, we do not compete in an independent school league, but rather participate in the Ontario Fencing Association Open Circuit Competitions, or OCCs. Fencers in OCCs are pooled according to weapon, not age, so our fencers inevitably have to compete against seasoned veterans of the circuit, as well as National Team members. The competition is very tough, and one learns very quickly under these circumstances.

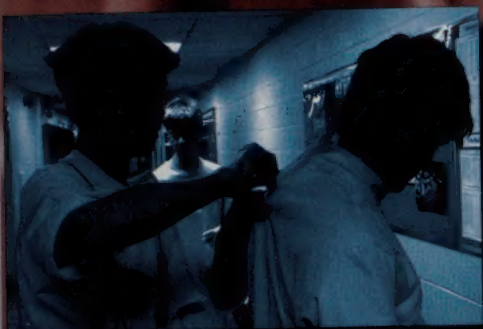

This year we entered the Newmarket OCC in October, the Fred Wach Memorial Tournament at Ryerson University in November, the Kitchener OCC in December, a second OCC tournament in Newmarket in January, and two of our best fencers, Alex Douglas and Nick Wong, were selected by the OFA Executive to take part in the Ontario Winter Games in March. At the Games competition Alex and Nick were very unfortunately eliminated from the 'Individuals' early on because of equipment failure, but the next day bounced back to win Bronze Medals each in the 'Team Event.' Congratulations to both of them for

this considerable achievement.

Throughout, it was a good year. All of our players improved dramatically, but I think special mention should be made of Jerry Guo. An enthusiastic latecomer to the team, Jerry is going to make a superb fencer in time. But without doubt our Most Improved Player this year was Nick Wong; our stalwart MVP was Alex Douglas.

## St. Andrew's Night Dinner

**E**ach year we have two St. Andrew's Night dinners, where both teacher and students come together to experience the Scottish Tradition that the school holds. This is another one of our old traditions we still practice. At this dinner all the boys arrive at the Great Hall, and sit according to their house/clans.

The boys come together to experience a night of music, Scottish traditions, good food, and of course haggis. At the dinner the bag pipers of the school astonish us with their talent. Guest speakers also come and grace our evenings with their words.

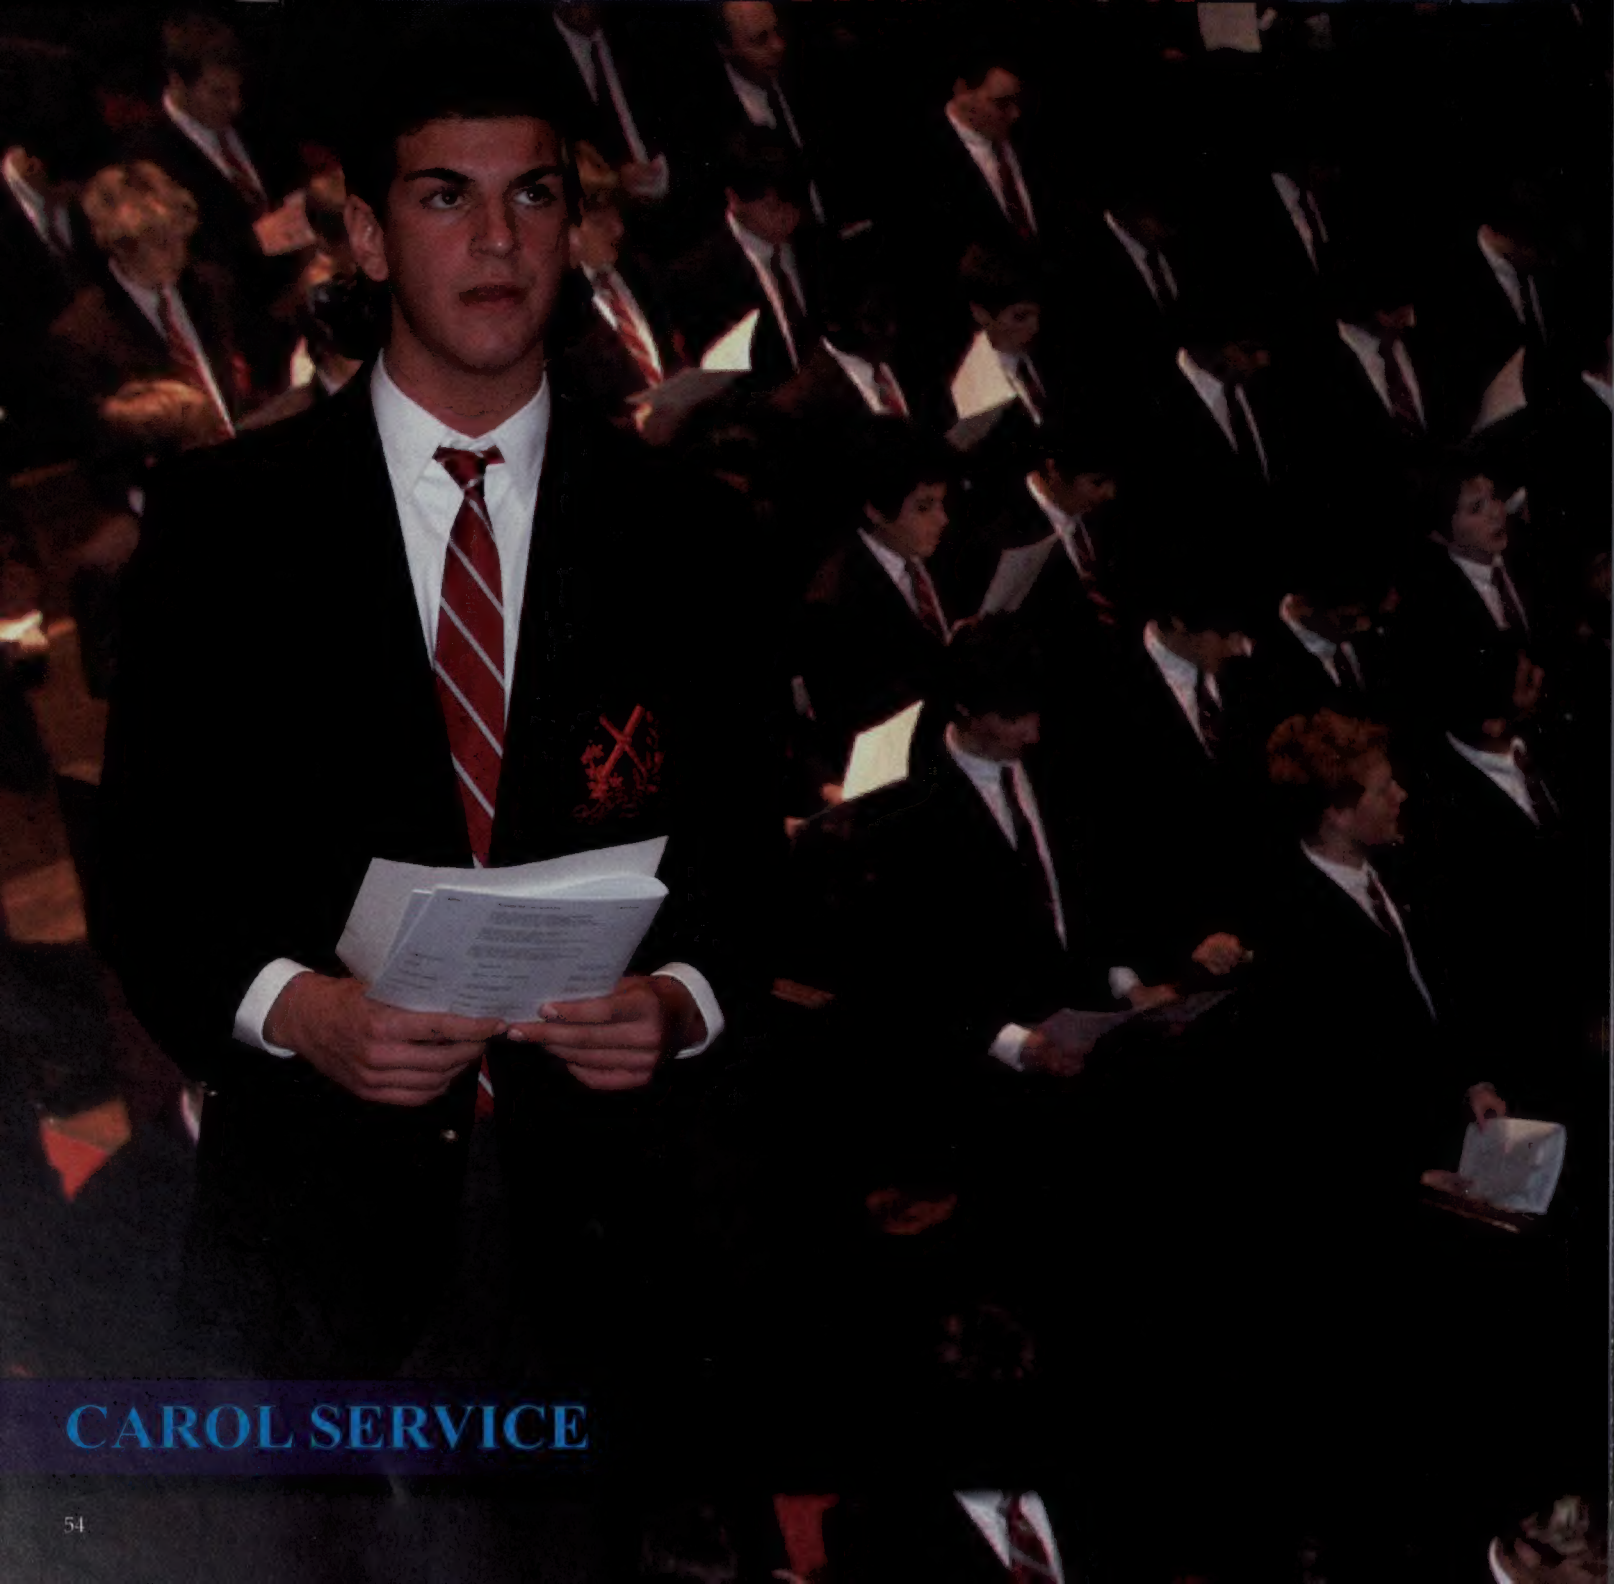

Lastly, like always we have our clan awards ceremony, where boys who have contributed to the school in academics, sports and extracurricular activities. The dinner, awards, tradition, and recognition of students accomplishments made this night one to remember.

The 21<sup>st</sup> annual MacPherson Hockey Tournament lived up to its billing as a top showcase for Prep school hockey. American entries Gilmour Academy, National Sports Academy, St. Francis High School and Shady Side Academy duelled with Canadian squads S.A.C., Grand River Collegiate, King's-Edgehill School and Upper Canada College. After a very competitive round-robin the tournament was drawn to four semi-finalists. By virtue of a first place finish in their pool S.A.C. played National Sports Academy in their cross-over. Despite a stellar effort S.A.C. fell 4-3 to a deserving and decidedly bigger NSA squad. In the other semi a depleted King's-Edgehill team provided little resistance against tournament favourite UCC losing by a 10-2 score.

The final pitted NSA against UCC. This game did not disappoint. Both teams played a hard-hitting, fast-paced and disciplined game. The depth of UCC ultimately proved advantageous as they opened a two goal lead in the 2<sup>nd</sup> period. NSA showed great poise and grit tying the match with two unanswered goals in the 3<sup>rd</sup> sending the game to overtime. A costly turnover at the NSA blue-line led to the winning goal by UCC capping a third straight championship for the Varsity Blues. S.A.C. edged King's-Edgehill to win the bronze medal going 4-1 in the tournament.

MACPHERSON

Third term can be a very stressful time. Final projects, final tests, final exams. As students, we need some fun time. We need something to escape reality. We need something that helps us get away from it all, and help us forget about that stressful time that we are currently in. We need one last Coffee House!

Well, as they say, ask and you shall receive. The Dining Hall was set that night on Thursday, April 15. The stage was set, literally. The bands were pumped, and you could sense the adrenaline running through all the singers. This was not just any other Coffee House, however. This time we, as a school, were playing host to the delegates of the Leadership Conference.

Of course, there were many highlights this evening, too many to fit on paper. Mike Ferguson and No Leaf Clover showed us once again that you can never be too young to make beautiful music. Before he graduated, Morgan Lin showed us one last time, with his smooth and gentle voice, that it's not a crime when he's in the spotlight writing his own music and to be, as Matt Donko clearly stated, PIMP!

Jon Adamo brought his suit-and-tie Ground Zero back to the show, and re-did his song Seasons, and a few other songs. They were up to par as usual, and did an insane rendition of the Terminator intro song. Next year, "They'll be back."

We can all agree again that The Houstons took the show by storm, as usual, with Jonathan Mackenzie as the lead guitarist, Devon Daniell as the bass guitarist, Erik Sodonis on the drums, and Brock Buckley on the vocals. It was a stellar performance by these Andreans, who will most certainly steal the shows next year. Hopefully nothing will be "Rearranged," or taken to the "Other Side." As the way things stand, this band is bound for success.

Brooks and George did one heck of a rendition of Baby Boy. If I closed my eyes I wouldn't be able to tell George's voice from a Grammy Award-winning hip hop female artist. Killing Me Softly, one of my favourites, gave me a better appreciation of the song, with Z-Bo's beat box and George and Elizabeth's voices.

COFFEE HOUSE

Second-lastly, newcomer Emily McCullough did Dashboard proud with her guitar and her voice.

As this was the final Coffee House for some, this night, we witnessed the end of the Judicious Goombas. The end was not pretty either. As we watched Stairway to Heaven unfold, there were looks of questionability in the audience. However, Brandon Hussey saved the show with his insane guitar solo at the end that brought everyone's jaws on the ground and butts off the seat. Trust me, it was mad.

This was a night of escape for us Andreans. This was a night of beginnings, and a night of ends. For some, this was a night in the spotlight. For others, this was a night of entertainment. For all, this was Coffee House.

## Battlefield Tour 2004

For the second time in as many years, a group of St. Andrew's students travelled to France and Belgium to learn about both the First and Second World War and pay tribute to those who fought and died in both wars.

Accompanied by Mr. David Stewart and his wife Natascia, Mr. Brian McCue, and Mr. Jamie Inglis and his wife Jane, 25 students visited the historical and moving sites of both wars. We travelled the entire route of the Normandy beaches, visiting both the American, British, and Canadian beaches, and gazed into the channel from the remains of German bunkers and 88mm gun emplacements. Most memorably, we paid our respects to the Canadians who died in the Normandy campaign and are buried at the Beny-sur-Mer Canadian War Cemetery. As Tyler King remarked, "How can we thank these people who paid the ultimate sacrifice?"

We then drove to Belgium and visited the medieval city of Ypres. There, we were able to rummage around in a First World War excavation site (where we found ammunition clips, bullets, a Mills bomb, and a shrapnel shell) and walk through the trenches of Sanctuary Wood. Also, three Andreans (Jared Leslie, Sinclair Bean, and Tyler King) laid a wreath at the Menin Gate during the Saturday night memorial service while approximately 1000 looked on. Certainly a memorable event.

From there, we returned to France and the Somme River Valley. We walked the same trenches that the Newfoundlanders walked in July 1, 1916 and visited a Casualty Clearing Station where stretcher bearers tended to wounded men eighty years ago. On our final day, we visited the Canadian Memorial at Vimy Ridge. Jared Leslie called the monument "breathtaking", while David Kanhai said it was "awe-inspiring". It was a wonderful way to end our journey.

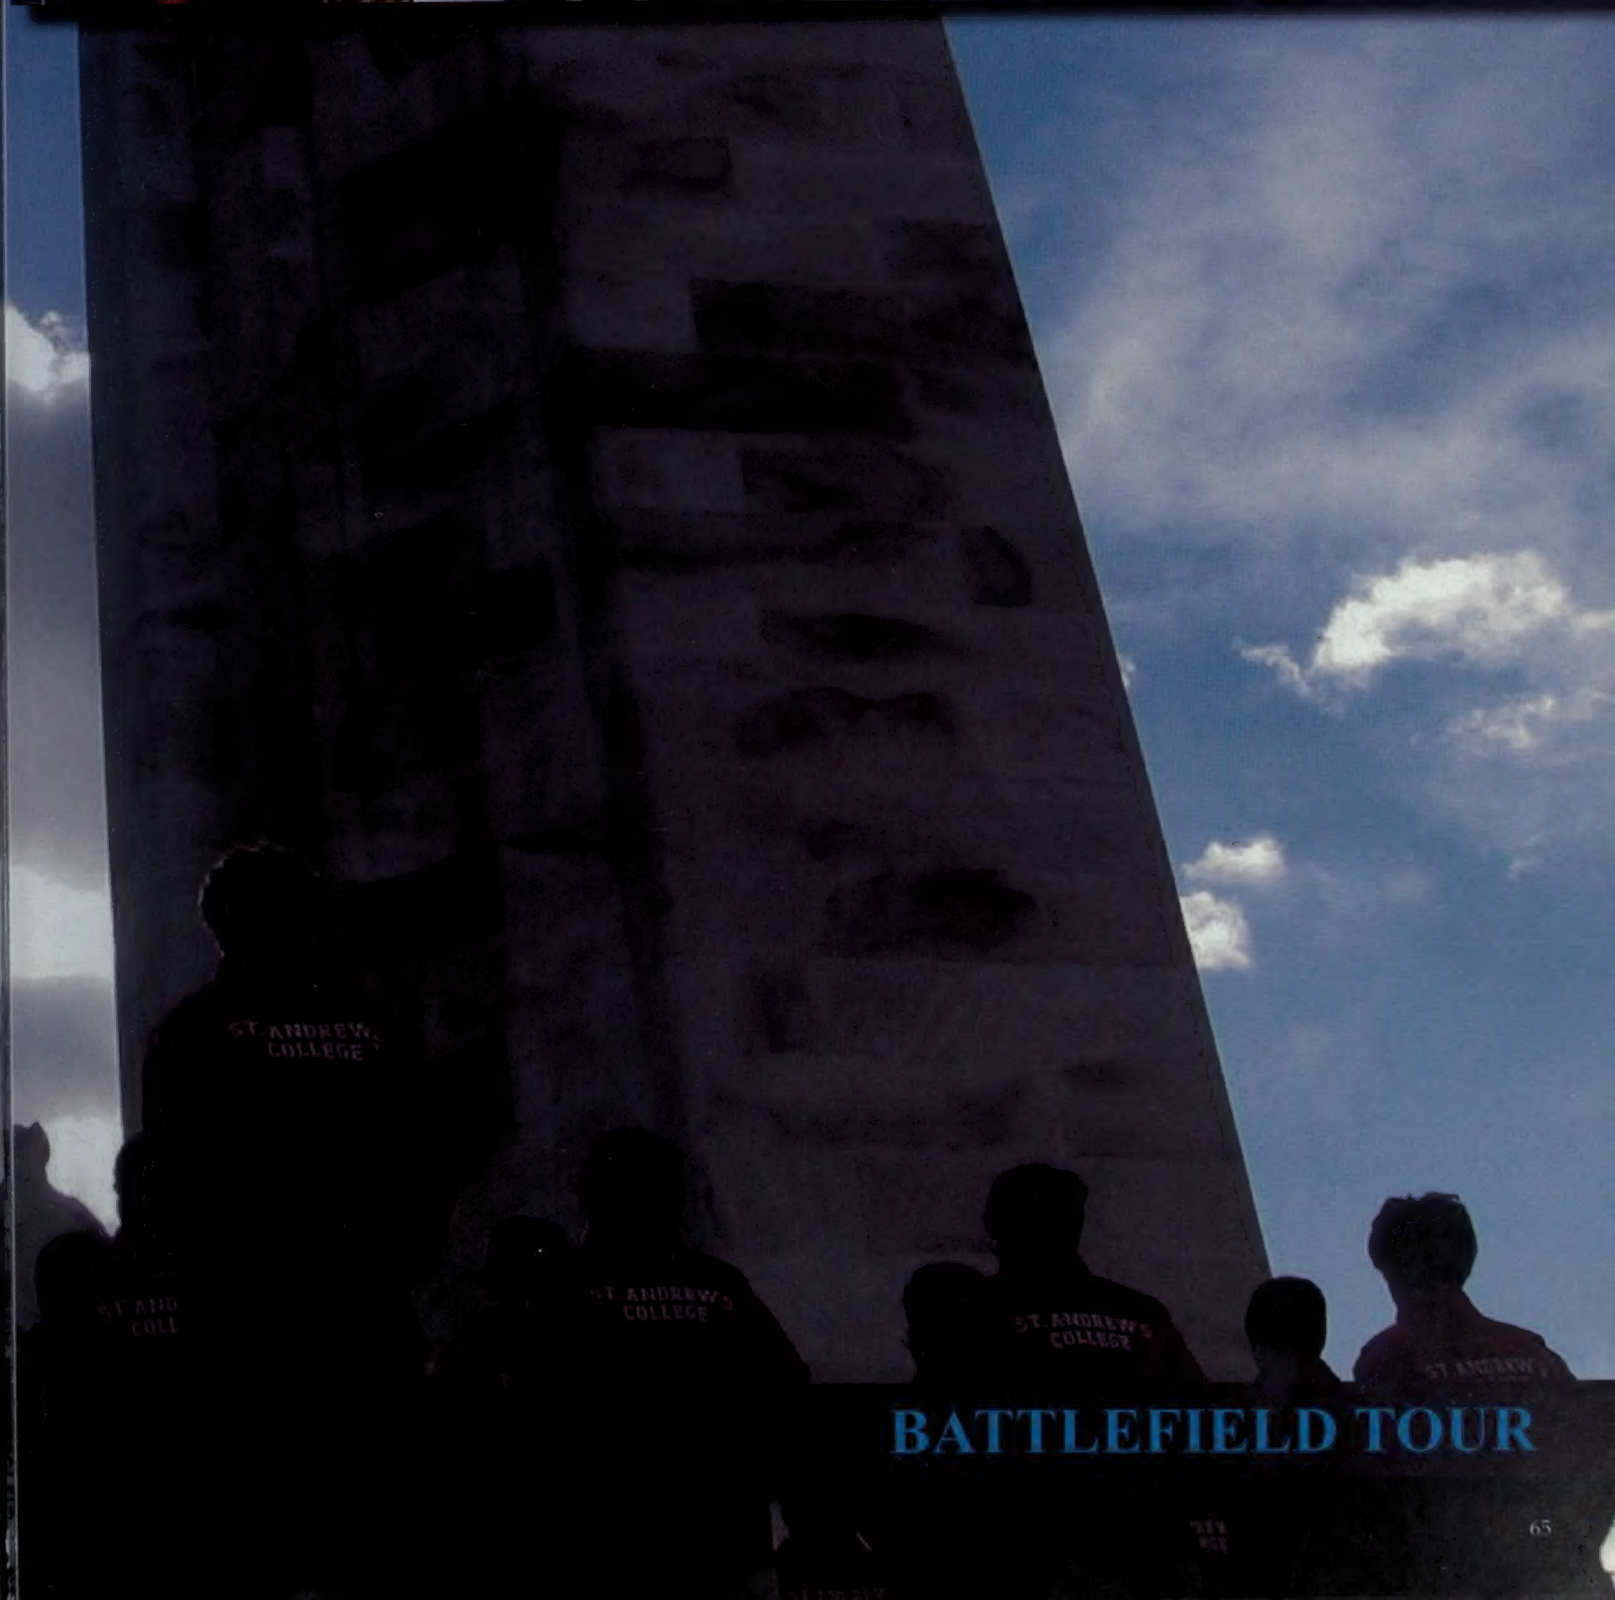

There is no question that the Battlefield Tour is a unique and important trip. As Chris Simpson explains, "This trip was an unbelievable experience." We will return to France and Belgium for as many years as possible as it is vital for the Andrean community to never forget the sacrifice of so many that came before us. "We will remember them".

David D. Stewart.

This year's team which was essentially an U16 squad playing in the JV loop, and they may have been one of the most talented groups either Mr. Dunford or myself have seen at this level in many years. We had solid goaltending with Healy and Grioux, a mobile defense with Thompson, Burke and Leslie, and an offensively talented group of forwards with Reninger, Johnstone and Card leading the way. After a solid tournament win at the UCC JV tournament thoughts of a CISAA championship danced in our heads. Unfortunately, the keys to improving as a team - practice and commitment - were forgotten and in the end, talent alone wasn't enough as we dropped a winnable game to Ridley in the quarter finals.

The coaches want to thank Ricky for his solid leadership, on and off the ice. He was a true captain in every sense of the word. Dunf, as always it's been a learning experience and a pleasure.

**I**n terms of wins and losses it was certainly a long season as we managed only one victory in 17 games. We were young and inexperienced and we quickly realized we had to pay a price for being a developing team in a league where 7 of 10 schools fielded first teams. Despite this being an uphill struggle I was pleased with our effort, our commitment, and with the way we progressed.

Looking ahead there are several reasons to be optimistic. We lose only Sang Ho Yoon to graduation and most of our returning players demonstrated the desire and work ethic to improve their skills.

For the MIP award several received votes. Third was our Yao Ming, Ping Hsu, who finished the season with an improved scoring touch around the basket. Second came Andrew Conrad who showed flashes of considerable promise with his hustle and improved team play. The award is going to the player who never yielded an inch and though not the tallest on the floor he came up with most of our rebounds and points in the low post. This year's MIP winner is Sang Chul Yoon.

Our MVP was pretty clearcut. He seldom came off the floor, he was our principal ball handler, he was our top point getter, and he was our most skilled player at both ends of the floor. This year's MVP winner is Erik Lebar.

This year's team had four returning players, two of whom were starters. Tim Birkett and Adam Ford assured us of another successful season. The addition of an exceptional grade 9 starting point guard, Jameson Tipping, only made us that much more exciting. When the football season finally ended and 9 of our 12 players were able to concentrate on basketball, we got on quite a roll. We were able to win 21 of 25 games and came up a little short losing in the finals for the second year in a row.

One of the highlights this year was a very successful trip to the Bahamas where the Higgs, McCartney, Whiteland and Maura families were our hosts. Another memorable occasion came when Tim Birkett scored 38 points in the first half against St. Georges.

Our MIP this year was Thane Carter who will be back next year along with the likes of Rob Mackay, Stephan Rykov and Karl McCartney. They should assure us of another successful season next year.

Our MVP, Adam Ford, will be sorely missed as he was an extremely valuable person on and off the court. He will be remembered as one of the best players ever to come out of St. Andrew's.

I would like to take this opportunity to congratulate the members of the U16 Basketball team on a fine season that saw them improve significantly over the course of the season. Each player had aspects of the game that needed work and measurable progress could be seen – whether it was James' finely tuned set shot or Matt and Blake's 3 point or Mike's foul shooting prowess there was much to celebrate. In fact, when we did go out for dinner to celebrate, Benheim showed that he was not only the king of boards but also king of the buffet. We played 26 games this season, highlights include reaching the consolation championship at our own tournament, playing before a packed gymnasium in St. Catherines and almost pulling off an upset, and reaching the playoffs as a very competitive team. By the selection of their teammates – the MIP was a tough choice from Jeffrey Lau, James Porter, David Jang and Jason Ng. Each of whom showed great progress throughout the year and were serious contenders for the award. But, the award goes to the guy who never stopped working, was always willing to try new things (even if it meant that he would stretch his comfort zone) and by the end of the year put in some really big games for us - Murray Kay is this year's award winner. Our team MVP selection was between three players, Julien Benheim, Anton Bennett and Michael Greco. But Michael Greco was the runaway choice amongst the players. He was our quarterback. He was our leading scorer and had the most assists. He could weave his way through a defense to lay the ball in a teammate's hand. He developed into a much better decision maker as the season wore on and he will make an impact on the first team next year.

This year's U15 team finished the season and the playoffs in third place. The highlight of the year was a trip to Montreal for a tournament at Lower Canada College. Including the LCC tournament the team played six games against U16 teams his year. It was a team full of surprises. Each player seemed to be able to find an opportunity for himself where he could make a major contribution. In addition to that, one of the main reasons for the good season was the great team spirit and the respect and admiration players had for one another. There was a keen competitive atmosphere both in practices and in games, but players were genuinely supportive of each other. One thing which gathered a great deal of attention from other teams and coaches alike, was the bench cheering squad, which was always positive and very entertaining. Team members should be proud of their improvements as their coaches were. Special thanks to the captains Adel Ratansi, Dan Corazzola and Taylor Walker for their leadership and to statistician Andrew Baer and manager Ryan Kesteris for their dedication.

**T**he U16 swim team was largely inexperienced this year, but made up for it with guts and enthusiasm. These swimmers were determined to try new events, even if it meant swimming a 200 freestyle against swimmers who were 4 years older, a foot taller and at least 80 pounds heavier!

**I**n the end, their perseverance in the pool paid off as they placed 2<sup>nd</sup> in the junior combined division at the York Region championships and second at the CISAA championships.

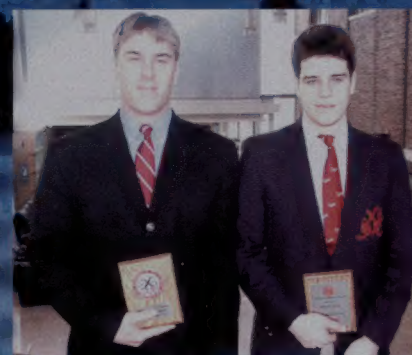

**T**he 2003-2004 swimming season started off as a rebuilding year. After graduating 4 of our top swimmers last year, it seemed as though we were in for a tough battle to repeat as York Region and CISAA Champions. The returning swimmers were eager to learn and to train hard. I must admit that they were much more confident than I in the early days of the season!

**B**y the end of January, the team looked great. Our swimmers were placing consistently in the top 5 in both York Region and CISAA events. In February, the 1<sup>st</sup> team finished off the season by winning both the York Region Senior Boys and Overall Team championships and placing a close second to a strong team from TCS at the CISAA championships.

SAC squash is on the rise! Both Varsity and JV gave strong performances throughout the season as well as in the final tournaments, with JV narrowly missing a berth in the finals and the Varsity team placing 3<sup>rd</sup>. Intramural Leagues were run during all three terms to keep the veteran Squashers active while introducing newcomers to this fine sport. Competitiveness was the hallmark of the season. Whether it was our Monday intramural league or provincial tournaments or CIS league games, SAC players were determined to hit the courts hard.

Special thanks to:

Jesen Tanadi, for his great artwork on the Intramural T-Shirt and the silver tournament website. Will Mulock, our manager, for his patience in scheduling our matches and filming us on court. Vince, for his help in organizing the silver tournament held here and enthusiasm for the sport. Drew, runner up for MIP, for his determined effort. Mike Way, professional squash coach, for taking time out of his busy schedule to coach us before a game against Appleby. Coach Rush, for putting so much effort into the squash program. Tim Hortons, for those sweet, sweet Timbits that hit the spot on the bus rides home after every away game. And for the important lesson that soup in a bread bowl is best suited to stationary consumption. The Canadian Winter, for the 3 hours of quality time we spent together cooped up in a small bus in the middle of traffic with nothing to do but contemplate Bucci's hair. It truly made us a team.

We were confident we could do well this year. We had a very successful season and based on these results we were ranked #1 for the championship tournament. Although seeding does not make much difference in the championship tournament itself (since every team plays every other team in a round-robin format) it established the St Andrew's team as the point of reference, the team to beat. We were scheduled to play six rounds of squash in the preliminary round. The top two teams would then qualify to play in the final to decide the championship. In the very first round we played the #2 ranked team from Appleby College. It was a rough start. Two players in particular played poorly and below their usual standard, and somehow we lost to them 4-3. However that was our only mistake for the day. In the next matches we played solid squash and beat every other team to eventually finish the preliminary round in a well-deserved first place. Having qualified for the finals we had to wait and see who the opponents would be. To no one's surprise it proved to be Appleby. As the other teams packed-up and left, we had a few minutes to get organized. Although we were very confident, it was clear that a lot of the players were feeling the stress of the effort so far. When the finals got under way, all the players were on the court at the same time. Results started to trickle in. The first scores to come in were in our favor. We won the first match, they won the second. We won the third they won the fourth. It was going to be tight. We went on to win the third match. If we could win just one more we would win. Which we did.

- With the score at 4-2, and our championship title assured, we all gathered to watch the last remaining match, a match between the #2 seeds. Our player was Devon Bean. Devon may seem small and frail but on the court he is fierce and tenacious like few others.

- With the match tied at one game each, and the score for the deciding game tied at 14-14 he played a marvelous match-point to win, and give St Andrew's a final score of 5 to 2 and the GOLD MEDAL against Appleby.

MVP Diego Cortina and MIP Devon Bean.

Our 29 member alpine ski team is actually divided into five sub teams, consisting of boys from grade 6 to grade 12. Two of these five member teams are identified as 1st level teams. For the first time in our schools history, both first teams won the CIS Championship and York Region Championship, earning a deserving their spot at OFSAA, the provincial high school championship. Both teams made outstanding efforts, however our level 1 team managed to do the impossible and win both race events, winning the overall provincial title.

It was an unforgettable year with unbelievable achievements. Congratulations CIS and OFSAA Champs! Thank you to all members of the team for their commitment and dedication. You all made this a very special year that we will never forget.

Special goodbye to our grads: Teja, Irving, Oram, Lucking, Kaptyn and Vogt- Peace out.

K-dawg and Mista Day

Individual recognition must go to the following students:

OFSAA Second place GS – Tristan Vogt  
OFSAA Second place Slalom- Dylan Edminson  
OFSAA Third place Slalom- Richard Oosthuizen  
CIS 2<sup>nd</sup> place Level 2 – David Oram  
CIS 3<sup>rd</sup> place Level 2 – Trevor Jackson  
CIS 1<sup>st</sup> place Level 1- Greg Willmot  
CIS 3<sup>rd</sup> place Level 1 – Tristan Vogt

Choosing one MIP and MVP for this multi level diverse team is a challenge. While there were a number of well deserving nomination, one members name topped the votes. He was a quiet leader who was able to pass down his racing knowledge of the sport in subtle, but meaningful ways. He was fast on the hills, always in the top of his division, however it was his consistency that made him our level 2 teams rock. His team mates knew they could count on him to finish the race and finish it extremely well. Our MVP for the Alpine ski team is David Oram.

Our MIP is a racer who doesn't lack in confidence. At the beginning of the year, we placed him on the B team because he was just shy of the top five finishers in time trials. I recall a conversation after the team was picked. He said with no hesitation, "Ill show you Kowaltschuk". My response was simple and to the point "Then show me". After the first race he earned his spot on the 1<sup>st</sup> team. He finished the season as the number one skier in all of the CIS level schools in his division. You could say, he showed me. Our MIP is Greg Willmot

# YORK REGION CHAMPIONS

**Back Row:** Colin Murphy, Matt McIntosh, Richard Oosthuizen

**Front Row:** Mr. Kowaltschuk, Esq., Igor Kastelyanets, Jordan Ekers, Alvaro Castillo, Mr. McCue, Esq.

Missing: Keith Ramon esq.

This years ski season was a resounding success. We started the season with an incredible 9 new members (thanks to our senior recruiting agent Mrs. Kowaltschuk), but after 2 trips to the trails and an endurance sport reality check 5 of those new members decided they would train for football and rugby elsewhere. So we were left with 4 new members all of whom are looking forward to continuing to improve their skills next winter. Mr. McCue and I were fortunate to have Mr. Ramon doing some cross training with us and keeping the energy high all season. While we did not take any team or individual victories this season, many of our members showed incredible progress. In their first season with us were, Alvaro Castillo, Colin Murphy, Igor Kastelyanets, and Jordan Ekers. At the York regional 4\*5K relay Jordan wore his plaid Pajama pants under his ski suit, Opponents were heard to remark, "that guy's a tank, Look at him go", high praise for a rookie skier. The highlight of the season was the CIS final with a road trip and overnight in Haliburton.

I believe that this year's MIP and MVP were born with skis on. Many of you will know these gentlemen as two of the fittest athletes in the School. Both of them ski with Alpine and Nordic and are highly accomplished in both sports.

This years MIP is Matt Macintosh, Matt trained with the both ski teams as well as the weight training club. He pushed himself further and harder than any other member of our team and at the end of the season proved himself as a true endurance athlete in the 25K Fischer Marathon at Hardwood Hills.

Our MVP this year demonstrated incredible ability in Nordic and Alpine skiing. He dedicated his life to skiing this winter and missed more class than any student I know, yet I saw him standing as a scholar in last weeks academic assembly. I know he was disappointed with his 10<sup>th</sup> place finish at the CIS final but I felt nothing but admiration for him all season. Congratulations Richard Oosthuizen, this years MVP.

This year the church parade was in danger of being abbreviated as there was a large rainstorm over Toronto on the day we had chosen. Luckily the weather cleared up just after we got there and we managed to make it to St. Pauls. After a wonderful sermon we couldn't march back as it had begun to rain torrentially it was all in all an excellent Church Parade.

The 99th Annual Headmaster's parade was met with sunny blue sky and pleasant temperature's - fitting for the final rehearsal of the Inspection which would follow later in the week. Lt. Col. Wong, Maj. Attard, Maj. Si and RSM Reninger led their cadets to another near flawless demonstration of their precision drill, while the Pipe's and Drums and the newly formed Marching Military Band awed the spectators with their performances. It turned out to be an excellent event, impressing the spectators as well as the reviewing party including our Headmaster Mr. Staunton and guest Reviewing Officer, John Vaughan.

# FOCUS

There is just something more to FOCUS. Isn't there? People you've never seen before come out and have a good time. S.A.C. guys who are now University scholars are there. Teachers who you thought were stiff, out there in the raunchiest plays on the bill. And best of all, the sun is shining and the girls are out and looking FINE. The best part of FOCUS, for me, is seeing everyone out and about. The great plays are always the one's that don't have friends playing together, because that's when the best chemistry happens. When you play with your friends, justice to the plays, and justice to the stage do not happen, only if two people are truly passionate about upholding these two things, do these things hold true. The final Cabaret of this year was an example of people who weren't necessarily friends, but who brought something that was good to St. Andrew's College. Chris Milnes, Alex Kaptyn, Colin Lowe, Brock Buckley, and Arnold. As a group, they are not usually the best of friends, but when they brought their collective musical energies together they created a special moment in the S.L.H. that many will remember for years to come. This year, the plays that exemplified these qualities the best, were plays like Deceptions (featuring Mark Hanson, Taylor Campbell) Tom and Jerry (featuring Robert Iaccino, Peter Welff, and Tristan Benson), and Philadelphia (Starring Jeremy King and Darryl Stock). These plays gave off a different energy. They weren't necessarily the best performances, but they gave off the best energy because of the chemistry of the performers. Only those actors could've played the roles they were in, and they performed them admirably. At this year's FOCUS there was a different feeling, maybe it was the one bad day of weather or maybe it was the new buildings that created it, but there was definitely something in the air, and I cannot wait until next year.

## SPRING TERM SPORTS

Back row: Stephen Rykov, Matt Donko, Mike Greco, Matt Michell, Eric Tozzi, Tristan Benson, Nick Laveau, Jeremy King, Jordan Ekers.

Middle row: Mr. Butcher, Esq., Greg Willmot, Sean Dinsmore, Anton Bennett, Sang-Chul Yoon, Sang-Ho Yoon, Louis-David Lord, Shawn Jolly, Kevin Han, Mr. Shields, Esq.

Front row: Dan von Diergardt, Adam Ford, Francis David-Corderre, Andrew Brankley, Darryl Stock, Tim Birkett, Billy Burke, Colin Lowe.

There are times in sport when things do not go well. This was certainly the story of the first half of our season. Tying Lakefield, a Tier 2 school, at the CAIS National Tournament, narrowly making the next round, playing a spectacular game against UCC, but then loosing in the finals by 3 points in a cold sloppy slugfest - was not what we had in mind. Even worse was that we were our own toughest opponent. Too often distracted by the little things in life we seemed to spend more time complaining about things like referee's calls than achieving the great potential we knew we had. We did end up second in the league - loosing just one league game by a convert to Ridley in a cold rainy match that was played with - as coach Shields observed - a less than ideal line-up. In the semi-finals we faced UCC in the closest imaginable match tying 29-29 - thanks to a penalty goal from UCC with time expired - ...but we made it through to the finals in a soccer style kick-off.

And so we travelled to Ridley.

And for the first time in the season the team came together to play the style of rugby we knew we were capable of. And in not having to beat ourselves, we became unbeatable. The game plan was to earn quick ruck ball and let our backs attack the weaker Ridley outsiders. Ridley's main game was their excellent kicking and strong pack so we focused on counterattacking and defending the ruck and maul.

From the opening kick-off Ridley was put under pressure by unrelenting waves of red & white tacklers executing beautiful flat line defence. 5 minutes in T-Birk hoisted a perfect up and under which stuck on the goal line, as Nick Laveau dived over the sprawling defender for the touch down. Somehow Adam managed to hit the top of the uprights in the only aspect of our game that did not go perfectly - 8 missed points from converts. The pressure continued and 5 minutes later Mike Greco cut inside beautifully for the game winner. 5 minutes later Billy Burke blocked an attempted kick out of goal and pounced on it. 5 minutes later Anton Bennett, fed by Billy and Mike, went for a run of his own to crash for another try. Ridley had rarely got clean possession of the ball, and when they did were under huge pressure from our rampaging backs. In the forwards things were looking even better than planned. Our pack consistently out-rucked Ridley winning all our own ball and stealing a few. The same happened in the scrums. But it was the lineouts that were truly spectacular. Knowing that Ridley had decent jumpers and a big strong pack the idea was to neutralise them using the amazing lifting skills of Andrew Brankley and Francis Coderre in the one-man lift. Despite Ridley having four men (two jumpers, a receiver and "hooker") participating in each line out to our three, they simply could not execute a one man lift and were forced to try to catch Darryl before he could pass it. The ball was so perfectly delivered by Francis & Darryl that Ridley did not catch him even once. The ball then went either to Tim to run lipper or some other piece of ball handling mastery - or to our 2-Pac forwards who would alternately crash and ruck until the defence was so scattered that the ball could be spun wide. It was a shock and awe experience that was a pleasure to watch, and which earned a 20-0 half time lead.

The second half saw Ridley try to use their larger pack to punch the ball forwards. Surprisingly, our smaller pack held their own and, with patient defence, always managed to take Ridley out of bounds or steal the ball. Ridley did get on the scoreboard from a quick tap penalty about 7 minutes into the second half, but the convert was just wide. Still, there was lots of time left and with their superior kicking ability were only 3 tries away from victory. It was not to be however as some lovely counterattacking and open field running from Colin Lowe, Tim Birkett and Nick Laveau quickly turned the ball back into Ridley's half where Francis Coderre picked up the ball from a ruck, managed a fair copy of a T-Birk take, cut back inside and crashed the line for the final try of the game. Adam added the convert for a 27-5 lead... but there were still 25 minutes left! Great defense from your Saints, good counterattacking and tackling, and enough good offensive breaks held the ball in the midfield so that with 10 minutes left the bench managed to get on the field - the only time all season we've been able to do that.

A gracious Ridley team joined in the recognition that on this day, the boys from S.A.C. had played a spectacularly well executed game of rugby, and earned themselves another CISAA title.

Congratulations all!

**Back row:** Peter Gortanich, Michael Nowicki, Matthew Halloran, Cameron Tait, Madsie Lokshini, Trevor Jackson

**Front row:** Dean Hamann, Fernando DeTeresa, Nick Leslie, Taylor Campbell, Murray Kay, James McArthur, Paul Ross

**T**hirty boys tried out in the early going and we kept 25. Half were grade 9 boys with limited rugby experience, especially in the 15 a-side game. So, there was a steep learning curve required by the players in the essential skills, laws and patterns of play. Under 16 Rugby is a sport best learned through games played, and not drills repeated outside the context of a game. While many of the players made the grade, the season record was a modest but respectable four wins and three losses.

After easy early victories against Holy Trinity and Rosseau Lake, we failed in our game at Ridley, losing 12-5. We bounced back the next week with a key win against CDS in a very exciting game, 24-17, and a tournament win against Banting HS from Alliston, 21-0. But the end came quickly. In the last week we came short against Appleby - 12-6 in a must win game, and did not reach our playoff goal.

Players lacked continuous practice time together, and skill development suffered. In the forwards, we had limited carry over from last year-

**Murray Kay and Taylor Campbell, the captains** - and they were able

lead the way in winning first phase ball and gain forward momentum. Other notable contributions came from **Nick Leslie** in the lineouts, and **James McArthur** and **Adrian Bruno** at the breakdowns. In the backs, **Dean Hamann** and **Paul Ross** carried over from last year, and the play revolved around their positions.

I look forward to next year, with half of the team eligible. A March Break tour planned to either Australia or the U.K. will make next year's story much more interesting.

The MIP award this year was a contest between **Iker Lanzagorta**, who learned the game as a starter at the all-important scrum-half position, **Cameron Tait**, a strong running and solid tackling full back, and **James McArthur**, a promising flanker who covered the field courageously and was effective in the tackle and around loose ball. The award went to **Iker**.

Deciding the MVP award was between our two captains, **Murray Kay** and **Taylor Campbell**. Both showed dedication to the team, and were forwards committed to leading by example. Mr. te Bokkel and I chose a player who was capable of dominating games in his support of the ball going forward and in his coverage, cleaning up and tackling in defence – MVP, **Taylor Campbell**.

MIP - Iker Lanzagorta  
MVP - Taylor Irving

THE TEAM

105

We once again started our season by working out in the very comfortable confines of the Pickering College School rink. We are fortunate to have the opportunity to use this facility immediately following the ice removal, which just happens to coincide with our return to school after the March Break. We continued our early season development during our early April mini-tour, which was an outstanding 3 day trip to an independent school in suburban Cleveland. There we were hosted by University School, who very graciously allowed us to use their Field House and practice fields (a multi purpose Field House, with a 6 lane, 300 meter indoor track existing in the space above the roughly 6 full gym floor space), and in addition they gave us our first taste of lacrosse for the season. Our less experienced players played together against their Junior Varsity squad, and the Varsity unit played against their Varsity. These two exhibition games were well played matches that helped set the tone for the season. In addition we played a game against a local high school team. Thanks to Coach Reid for organizing the pre-season trip, and thanks to both Mr. Dawson for accompanying us to film the games, and to Mr. Cowell for taking the time to travel with us and assist with practice and instruction.

In the CISAA regular season we enjoyed great success, finishing in second place with a 4-2 won loss record. Very early in the season we established a high standard of play, clearly placing us in the thick of things in a highly competitive league. Defensively we enjoyed an outstanding season; in fact, in regular season play, we lead the league in limiting our opponents to the lowest Goals Against average. This has a great deal to do with our solid defensive corps, lead by seniors like Anthony Greco and David "I'm smarter than 50% of the world" Del Zotto, and also by the fine play of defensive mid field specialists like

David Oram and Craig Sherry. In addition, smart play by both our Attack unit, lead by veteran Jordan Cyr, and the offensive midfield helped to support our defensive efforts. Our success throughout the year was the result of a total team effort.

Due to our best finish ever, we were in position to host the semi final game against the third place club, our long term rivals from Ridley. In what was easily our best game of the season, we earned the right to be in the Championship game with a solid 13-9 victory. We later learned that the upstarts from Upper Canada College had executed a surprise upset in the other semi final game, so for the first time ever, not only would the Saints be in the final, but we would also have the chance to host the game.

As most of you know the Championship game did not work out exactly as we had planned, and we were forced to give full credit to the UCC squad for coming back and winning an oh-so-close 9-8 game. Unforced errors cost us dearly in this game; for the first time this season we spent more time in the penalty area than our opponent, which proved to be the difference in the game. This was a particularly tough way to learn a lesson, especially for a key group of seniors, but I certainly expect that the rest of the team will apply this lesson next year and in the years to come.

## 9-8 LOSS FINALS VS. UCC

This year's 1<sup>st</sup> badminton team had only two returning players from last year's squad, but a lot of experience with most players having played at the U14 and U16 levels in the past. Rumours about other school's nationally ranked "club" players filter back to SAC and turned out to be true, which tempered our goals and expectations to the realm of cautiously realistic. Modest success at the York Regionals with only Vincent Wong advancing past round 2 of the stage for what can only be described as an average season, compiling a 1-2 record prior to the end of the year tournament. We were ranked 4<sup>th</sup> going into it, but our player order was still up in the air the day before the competition. Every match, our singles took turns shining or disappointing and playing style was the deciding factor to play Vince at 1<sup>st</sup>, Calvin Lam at 2<sup>nd</sup> and Simon Lau at 3<sup>rd</sup> single. While Vince and Calvin struggled with those damn "club" players, Simon work very hard and finished 2<sup>nd</sup> in his flight, winning the Consolation Final.

The doubles teams were a more difficult decision as no combination seemed to work effectively, with inconsistent and unfocused play throughout the season. The final pairings weren't decided until moments before the tournament started - but the results were surprising, in spite of members having little sleep finishing major assignments into the wee hours of the night before. Our first team of Stanley Hon and JJ Lee finished 3<sup>rd</sup>, but had a realistic shot at getting to the final and our 2<sup>nd</sup> Double team of George Si and Aldis Sung surprised everyone taking 1<sup>st</sup> place in their flight. Over all, the team finished in 3<sup>rd</sup> place, and realistically, that was as good a result as we could have expected.

This young team returns more or less intact next year and should have a solid shot at medaling.

I'd like to thank the other members of the squad who showed dedication and hard work all season - John Chen, Wally Lau, Kent Fu, Tomi Jun and our manager - Sam Kuit.

It was suggested after looking at the academic averages of this team - that they might not have been the most skilful squad - but they were the smartest...with some exceptions of course! A special thanks to Vince and Calvin....who worked hard, never missed a practice and were by enlarge co-captains.

MVP - Simon Lau

MIP - Tomi Jun

(Absent: David Miklas)

The range of competition this year was extreme. On one hand we have schools with first time players who hit the shuttle everywhere but in the court and on the other hand national or potentially national team club players who, at will, can pick the lines and smash and drop with pin point accuracy. It was a season of give and take. Give experience to those first learning the game lessons from the best. We made this an integral part of our team philosophy by combining practices with the U14 and 1<sup>st</sup> teams. I thank Miss Monahan and Mr. Kummerer for their willing participation. With that in mind our objective was clear - to be the best 'non-club' school in our league.

Our final tournament played out much like our season. We met our season objective and finished third behind club schools Crescent and UCC defeating RSGC, SJK, DLS, YS & PC. Our number 2 singles players Jeff Lui finished 4<sup>th</sup>; 3<sup>rd</sup> place finishes from our number one singles player Sean Eng and our second doubles team Justin Oh and Henry Liu and 2<sup>nd</sup> place finishes for our number 3 singles player Emerson Wai and our number 1 doubles team David Jang and Daniel Kim.

Honorable mention to the other members of our team - Wesley Tiller, David Miklas, Adam Yates and Jerry Guo.

MIP: This player lost only 1 match all season and proved to be the most coachable player on the team (Sammy Lam watch out!): Emerson Wai

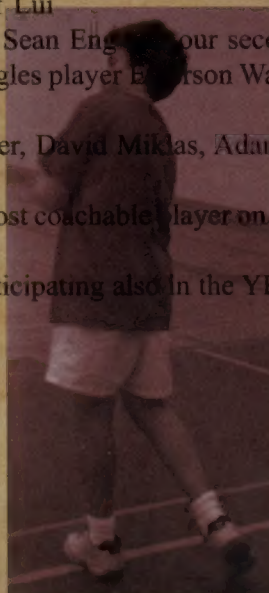

MVP: The player who set a standard for all others to emulate—participating also in the YRSAA Badminton tournament: Sean Eng

MIP - Alex Kayptn

The free spirit Adam Bucci - "I will return and run for every shot that I am faced with, regardless of how much I annoy my opponent or the amount of sweat dripping from my salon styled haircut". The sarcastic Alex Kayptn - "Can someone please come tell me a joke, I'm starting to lose and take this match and take it way too seriously". The Mischievous Bryn Fell - "Hey guys, I can't believe I finally made first tennis... but that won't stop me from cheating in cards". Our lovely leader Levin Maaskant - "I love this team. This is the funniest team EVER. Man I love this team". The mysterious and all knowing Darrin Henein - what is he thinking, can someone tell me??? The talented, but oh so casual Alex Bacardi - "I will not run to the ball or show any exertion on this court whatsoever, I will simply stretch my arm as far as it will go and hope for the best".

The MIP of this year is Alex Kayptn.

There are several player who improved this year but there was one who earned his title as one of the top players on the team without a question. First of all, his dedication to improving his physical condition in the weight room this year made him an intimidating presence on the court. This player also became a leader in psyching out his opponent. He would pretend to dive to one side of the court, end up doing a fancy turn, only to be standing in the very place he started, always leaving his opponent thoroughly confused. He started the year as a good player, but finished as a great player.

The MVP / co-coach and captain for this year's team is Levin Maaskant. The MVP for this year was an obvious choice. I first met the student when he was a timid grade 7 student. I feel fortunate to have had the opportunity to work with him, and to know him again as a young man on this team. He is incredibly skilled in this sport with... unbelievable reaction time, incredible speed and agility, ground strokes that were as fast as bullets, and a soft touch and placement that kept the ball out of his opponents reach. More than a great player, this student was at every practice, even though he played at his home club every night after our team practices. He was respected by all his teammates, and helped them at every opportunity to be better.

Back Row: Andrew Lam, Alvaro Castillo, Robbie Kaptyn, Joseph Ng, Urreesino Palacios.

Middle Row: Adrian Martinez, Devon Mok, Phil Oram, This Maaskant, Jose Cernicchiaro, Tyler Ehler, Mr. T. Paolini.

Front Row: Eric Cumming, Nirushan Thambirajah, Devon Bean, Diego Cotina, Christopher Simpson.

We play in league with 9 teams. We played 6 matches over the course of the season, winning 5 and losing 1. One match was cancelled due to rain. Our season results were good enough to earn us a 1<sup>st</sup> place ranking in our division for the end-of-season tournament.

The final tournament is organized into two divisions, where teams of three Singles players and two Doubles teams play in a round-robin format. The top two teams from each division then play in the finals to determine the Champions and the silver medalists.

MIP - Deigo Cortina, MVP - Jose Cernicchiaro

In the first round we beat Lakefield 5-0, TCS 5-0, but lost to TFS 3-2. However we earned enough points to finish in second place and advance to the finals. Here we had to play the first-placed team from the other division, which was Crescent, and they eliminated us.

Despite the loss we have a lot to be proud of. Unlike some of teams from the other schools, we don't have any OTF ranked-players on our team, and not many of

our players play huge amounts of tennis over the winter. Most pick-up the racquet again for the first time after the March Break. I was very pleased with how much we improved over the season.

This was the second year for the St. Andrew's Varsity Baseball program. As the season approached, the expectations for this year's team were not overly high as 8 out of 9 starting position players graduated last year. Although we did not make the Y.R. playoffs, there were at least 4 hi-lites during the season:

- 1) Playing at the Skydome was an awesome experience for the players and coaches. We lost 6-3 to a provincial baseball power, King City S.S.
- 2) Winning our first game and advancing to the playoff round at a tournament in Woodbridge.
- 3) Scotty Johnstone's grand slam home run versus King City in league play.
- 4) Playing our best game of the season to defeat Malvern Collegiate 11-4 at a tournament at UCC. Our tournament final against UCC is still to be played.

The future looks bright for S.A.C. baseball:

- 1) 7 out of 9 starters return next year
- 2) Our team will play in the newly formed CIS 1<sup>st</sup> Baseball league next year.
- 3) Plans are in the works for a new baseball field to be built on the upper fields.

I would like to thank Mr. MacDonald for assisting with the coaching this year. Initially, he was somewhat apprehensive about coaching ball. Mr. MacDonald quickly realized that there was no point to practicing face-offs, fore-checking patterns or neutral-zone traps in baseball. By the end of the season, Mr. M could talk the talk and walk the walk with the best of them. He was always upbeat and made coaching fun.

Our award winners are both school leaders. The MIP for the team is a truly versatile player who played both infield and outfield. He even did some pitching (he sure isn't be awarded the MIP for pitching. Come to think of it, I must mention our other rookie pitcher, Ryan Bucci. Ryan was quite good at trash talking while on the mound. Unfortunately, there was no substance to this trash talking as Ryan only threw the ball 30 mph. He did have one strikeout though!). Back to our MIP, he is a phenomenal athlete who will be an outstanding baseball player for St. Andrew's again next year. Our MIP is Jared Leslie.

I must say that I was somewhat worried about our MVP at the start of the season. You see, this is an intensely competitive athlete. Everything that he participates in is at the highest of levels. This person has all of the physical ability in the world and showed tremendous maturity in the mental aspect of the game throughout the season. He became a player-coach who took the initiative to work in practices with players who did not possess the same kind of talent. We all know that a star quarterback must be mentally tough. So too, must a star pitcher. In one game, this pitcher struck out 11 out of the 12 outs in the 4 innings he worked. And yes, he returns next season. Congratulations Rob Mackay.

The First Cricket program is alive and kicking. 28 boys tried-out for this seasons program. 14 boys were selected from grades 7,8,9,10,11 and 12. The team captain was Zoheb Saleem and the assistant Captain was Mark Ryan. Along with the help of Steven Brooks, the boys lead this inexperienced group of players through practices and games...

The team worked hard during their practices, working both in the school gym and on plots of wet, muddy and even snowy grass at different locations around campus. After many hours of practice, the team competed against U.C.C and Trinity. The results of these games were 4 disappointing defeats. After each match, we were able to see huge improvements in our batting, bowling and fielding. The younger members of the team gained experience and learned from their mistakes. After coaching the first soccer team for the last 6 years this has been a new and challenging experience for me. Working and sharing time with 14 young men who love the sport as much as I do has been a pleasure. We grew as individuals, developed as a team and gave 100% in some challenging weather conditions.

MVP - Zoheb Saleem

MIP - Nameer Rizva

I would like to thank all the players for their dedication and hard work in this cricket program. MM

In some respects this year has been our Phil Mickleson year. Last October, the senior golf team won the West Division York Regional Qualifier at Cardinal golf course which allowed us to qualify for the York Region championship. Later, at Angus Glen, we tied St Robert's for first place. Unfortunately a regression tie breaker was used which resulted in St. Andrew's coming second when all but the lowest score for each team had been eliminated.

This spring in the CISSA league which is made up of 14, five man teams who compete head to head in 5 tournaments, St. Andrew's came second in the first 3 tournaments before finally winning the fourth tournament. This resulted in our

team being in second place going into the final tournament. This final event hosted at Station Creek pitted the top five teams against each other. Once again, the team finished in second place. When all the points for the season were tallied, we captured the silver medal, second place. Our team's average score in this final tournament was 78.5, which shows just how strong the competition was.

One of the great things about this season was the depth of our team. Over the course of the seven tournaments we played this year, nine different players were called upon to represent the school. Our average team score for all tournaments was 80.

I would like to thank, Erik Bornstein, Richard Colton, Rob Ferguson, Sandy MacKay, Chris Bromley, Taylor Irving, and Richard Reininger, all who are graduating this year and Matt Suddaby, who is moving to California, as well as Ryan Bryce and Adam Zorrato who are returning next year.

The most improved player for this year, is a player who rejoined the senior team this year and over the course of five tournaments had a stroke average of 80, Rob Ferguson.

The most valuable player for this year, our captain, who played in every tournament, and scored the lowest competitive round, 71, in memory at the school, with a stroke average of 77, Richard Colton.

Mr. Giel Esq., Rob Ferguson, Sandy MacKay, Richard Colton, Taylor Irving, Matt Suddaby.

Mr. Finlay, Esq., Tyler King, Andy Dalrymple, Thomas Tripodi, Alex Tang.

With only two players returning from our championship team of a year ago, the junior golfers still managed to place in the top 5 in a field of 10 teams, in all 5 tournaments. The league convener mentioned that he had never seen such parity in the junior division. This was most clearly evident in the 4<sup>th</sup> event, where only 7 strokes separated the 2<sup>nd</sup> and 5<sup>th</sup> place teams. In a somewhat confusing season personnel wise, there were seven members on the team. It's no secret that in the 3 years he graced my music class, Paul Ross has never failed to confuse me. Paul began the season undecided between playing golf or rugby - even managed to play both sports at the same time for a while. Ultimately, conflicting schedules saw Paul go to rugby, but not before turning in simply dazzling performances in our first 2 tournaments. Andy Dalrymple enjoyed his first full season with the team, gained valuable tournament experience and spent many Friday afternoons working with a private instructor. Tyler King is another newcomer and gets my vote for the most gentlemanly player in the league. Tyler is a skilled player who is getting used to the fact that he can hit the ball twice as far as he could a year ago! Thomas Tripodi earned his way into the action for the final three events, playing steady golf. Truly a class act, Thomas is always nattily attired, including really cool sunglasses. James Seymour was the model of consistency in the 1<sup>st</sup> 3 events, scoring in the low 80's. Unbeknownst to us all, James was moonlighting as a WWF wrestler and will likely be in traction for the next 4 to 6 weeks. It was fun to get to know Alex Tang's sense of humour this year. Following tournament #4 Alex was upset with the number of golf balls he had lost that day. When I asked him what the damage was, he recounted, "well, a Maxfli on #3, an Ultra on 6, another Ultra on #12... and on 13 then, on 17, my Titliest, (pause) and my Noodle. Nonetheless, Alex managed to improve his scores each week of the season, and is this year's junior golf M.I.P. The teams MVP, as well as being one of the finest individual players in the league, finished the season with a round stroke average of 76.8 - featuring a dazzling round of 70 at Granite Ridge. An intense competitor and our team captain...Pierce Cassidy.

This year, instead of having numerous events, we combined them to form the inaugural Clan Fest. This event combined May Fest; a fun day was had by all. There were also many inflatable things that were both fun and challenging. Memorial House won the Track and Field Day events with well over 100 points. Luckily the weather held up for most of the event; some rain followed in the afternoon but the showers could not dampen our spirits.

**Nicknames:** Abbott, Abby, Chuck, Rabbit. **Activities:** 1<sup>st</sup> Football, 1<sup>st</sup> Hockey (2a), Weight Training, Battlefields Tour 2003, Team NAH. I'll never forget my first day at SAC. Putting on the uniform, waiting in line for breakfast, and asking about eight people where room C22 was. Not once did I think of the coming experiences that this place had in store for me. Through this place I've learned and experienced so much that I wouldn't have otherwise. To try and explain this is almost impossible given the space provided here, but any graduate will tell you the same. The feeling when being piped onto the First Football field at homecoming is something I will never feel again, but something I will never forget feeling. That's one of the hundreds if not thousands of feelings that I've accumulated over the years at this place, and I will cherish them forever. Rob, we've definitely came up with some genius ideas over the years, but who couldn't if they talked until 3am on a regular basis? Arnold, Nick, Dumani, Matt and Andrew, thanks. It wouldn't have been the same without you. Thank you Mr. Butcher, for introducing me the sport of football, and to Mr. Shrimpton and Mr. Shields for the hours of devotion and the wealth of knowledge that you both provided me at the First level. Thank you Mr. Myrans, who spurred on my interest in history and gave me the opportunity to travel to Europe and visit the battlefields of France. Thank you Mrs. Auger, you've lent a helping hand on many occasions and for that I am forever grateful. Finally, thank you to my parents. Without your hard work and dedication I would not have had the opportunity to attend a school of this caliber and for that I am in your debt. You've raised me to be the inquisitive, self-assured, ethical and impulsive rodent that I am. I hope I've made you proud.

Well, its that time of year again, and then its another school year over. But wait! Something's different this year... something special...Oh yeah! This is my last year of high school. Wow. Let me say that again. Wow. One more time? No? Alright. Looking back, its been an incredible 6 years here, and the people I've met and the memories I've had will last me a hundred lifetimes. Long after graduation when we've all gone our separate ways, I'll look back on this place, and it's people with a smile and a chuckle, and remember the happy times we've all had here. There's not many of us left of the old Grade 7 gang, which is sad, but those who were late comers have also done their bit to make this years graduating class one of the most diverse and interesting classes yet. There is a long, yet distinguished list of those I wish to thank for making my time here a memorable one. I'd like to thank all those who originally came here in grade 7. I'd like to thank those teachers who've shown extreme patience with my jokes over the years. In particular, I would like to bestow extra-special thanks upon the following teachers. Mr. Halstead for unwavering support and understanding, and for always having a witty crack. I'd like to thank the long-suffering Mr. Josselyn, who has had to suffer through having me for four years of various SPED math courses. And last, but certainly not least, I'd like to thank my housemaster, Mr. Shields, for always graciously accepting my excuses for missing chapel, and for piling on the E.Bs' when an excuse didn't happen to materialize. And of course, I'd like to thank just all-around great guys from: Jeremy Springer, Justin Wong, Rob Ferguson, Adam Buccì, and the countless others of Grade 12 whose name I'm too lazy to try to spell.

I don't quite remember my first day at SAC, it was so long ago. Four years ago I was completely different, emotionally, than I am now. From grade 9 to my graduating year, my life has been the tale of a boy becoming a man, enduring experiences that tested his strength and spirit. But, experiences are only as good as the people you share them with. The boys who will forever be by my side: My "stepbrother" Matt, my Jacked roommate Chewsky, my favourite guitarist and nudist Hussey, my only best friend I've ever had who has an obsession with fish; Bornstein, the crew; Shawn and Zam, Colin (oooh so gangsta) Beel (B-Buurke), Franny (Egotistical forever), and the rest of the boys. My teachers have given me a whirlwind of challenges, and lessons on life. I thank them for shaping me into a young man ready for the real world. To my mother and father I would just like to say that through all the grief, bad tests, report cards, arguments, university applications, and everything I thank you for all the advice and wisdom that come from you. To my girlfriend, I love you Zoe: 02/09/03, I'll never let you go. If anything St. Andrew's College has been a test rather than a school. The best year of my life was made at this school, and to all the younger grades cherish these moments you have and make the most of them. Goodbye to all, and may your lifelong journey be a long walk through the most enlightening places on Earth.

Thank you for everything you have done for me, I love you. Mom, you are the one who wanted to send Wahid and I to SAC since we were toddlers and for that we both will be eternally thankful, I love you. Wahid...well, you're a funny guy I guess...yeah...(No just kidding, you single handily turned me into a man that can't stress out about anything anymore because you taught me how to relax, take it easy, and a pass is still a pass!!) I remember looking around and seeing guys that I have known since 12 years old with tears in their eyes at our last Carol Service as students. Finally to Mr. Scouler - I will always remember what you taught me about the values of integrity, honesty, hard work, and an appreciation of living a well balanced life. Thank-you for everything. I will always love this school.

most retarded cheerleaders S.A.C has ever had but we did the job well. The NAH team, best group of guys I've ever met, thanks for the great times (no failure comedy)... just do it (a little).

Well it's almost the end of my S.A.C. career, so how did the time fly? Those long nights studying for Accounting tests? Or the long talks with Mr. Halstead or Mrs. Robson? Could these be the culprits? Or maybe the long nights chatting with my boy David Lau (a.k.a. D-Lau). Maybe it's a combination of all these factors, and so much more. Over my three years here, I've grown exponentially as a student, and as an individual. I honestly think I've done almost each and every activity there is at S.A.C. (House Captain, President, Officer, Co-head, Chief Editor, House Leadership \*honorary\*, participant, you name it...I've done it). I'd like to take this moment to thank the only teacher that seriously believed in me in grade 10, Mr. Inglis. Without your care and concern sir, I wouldn't be able to attend a prestigious institution like the Richard Ivey School of Business. Because of your help, I moved from being a 60% student to a 90% student, I am eternally grateful for your help. Special thanks are in order for my loving family who have supported me through my many ups and downs, especially my parents who never gave up on me. I hope all my classmates will be able to attend the university of their choice, and I wish everyone who has contributed to my success here at S.A.C. all the best.

The education received at a place like this extends far beyond the classroom and is one that all grads will carry with them forever. Everything from the tremendous pride experienced when wearing a Saints jersey to the enormous spirit exemplified at MacPherson or even to the great times had during double spares (you boys know who you are). My time spent at SAC has been truly unique and not one that could be easily matched. I would like to thank all the teachers and coaches who have guided and influenced me over the years. I would like to thank all the guys at SAC who changed this from a place I had to be to a place I wanted to be. Finally, I would like to thank my parents for not only funding such a journey, but for sacrificing so much to be there to support me every step of the way. To graduate. It's difficult to sum up years in a short paragraph, and even harder to write about how I've felt about St. Andrew. These years have seemed short. I've sat in a locomotive and cruised obliviously through four years of my life. The days at St. Andrew's felt like seconds and the months like hours – in only a few days, my time was almost up. It's no wonder I feel a slight nostalgia as we get closer to prize day. I'm an 18-year-old boy becoming an 18-year-old man; I'm not sure if I'm the only one feeling like I'm walking on wooden stilts. It's awkward and confusing, and many things are cloudy. There are days when I wonder what I've achieved. I've done many things for myself and the school, and benefited from the unique experiences St. Andrew's has offered. I've had some of the best times of my life here but, the sun didn't always shine bright. This is the big red machine: it'll suck you in, chew you up and spit you out at the end. Accept it, enjoy it. I'm glad I came here and I really mean that. This place was my home, it brought more to my life then I could imagine. Thank you. Boys who have yet to graduate, take all you can from this place! I mean why wouldn't you take all you could? Take all you can and be strong, or take nothing and stay weak. When times are good it is easy to live here but when stress starts

**Activities:** U15 Soccer Champions, U16 Football Finalists, U16 Hockey early bird Champions, U16 Golf Champions, U16 Golf MIP, JV Hockey Finalists, UCC. Tournament Champions and MVP, Stanstead 1<sup>st</sup> Hockey Champions, and more. I came to St. Andrews College the second week of grade 10, yes the second week. I had already spent a week at Aurora High School and was not expecting the call I received September 10<sup>th</sup>. My dad received a call from the admissions office and I was having an interview with Mr. Foy 2 hours later. I was told I could enter St. Andrews that day, and of course I did not turn down the offer. I really did not know what to expect, was the school going to be a lot harder then the one I was already attending, were the guys already going to the school be friendly? I had no idea, but within the first few days I could see that my new school was not a school I was use to. St. Andrews, I learnt, is more then a school, it is a community of boys who work together to win championships, produce plays, and have fun. I am very thankful I came to SAC, although there have been obstacles that seemed impossible to overcome, I stuck to them and achieved my goals. I would like to thank Mr. Kimmerer who has been my advisor and housemaster for my three years at SAC. I would also like to thank my parents, Mom, Dad, thank you very much for giving me the opportunity to attend such a great school and giving me the support I needed to conquer my goals. I also can not forget my sister, Nicole, even though you have been at University doing your work you can still always find time to talk to me and give advice when I need it the most. Thank you. Thank you Class of 2004, I will never forget the memories.

I'd grow wings!" You know that saying, "you never really appreciate what you've got until it's gone"? Well, I'm sure that I'll look back at these years when I'm just another old boy and realize that these were some of the greatest years of my life. St. Andrews has given me so much, and I'm sure that my experiences here will stay with me forever. I just hope that I can be the inspiration for the next white boy to walk into chapel with a fro, or the next cadet who has to show all his hair underneath his glen for the Annual Cadet Inspection. Special thanks go to the Judicious Goombas – we took the stage back with Stairway, boys. The solo made up for all those times we would look at each other on stage with that look of confusion that said "What the hell's going on?" Also to the members of the Hacky Sack Circle - Kaptyn Oram, Lyons, Bryn and Kalev to name a few – classic way to spend the breaks and spares! Daly, we're counting on you to carry on the tradition of the Hack! To the faculty of St. Andrews: Mr. Myrans, Mr. Service, Mr. Shrimpton and Mr. Ryan just to name a few – I am forever indebted to you guys for your everlasting trust in me and helping me to reach my full potential. Finally, Mom and Dad: there is no doubt in my mind that I wouldn't have been able to get through these past four years without your bad humour and general pep talk "you-could-do-whatever-you-put-your-mind-to" kind of stuff. And no Dad, they're called kilts, not skirts and sporrans, not purses. To my fellow Andreans: my only words of advice are GET INVOLVED because you won't come across another St. Andrews. And finally to my fellow grads, peers, classmates, and friends: I'm at a loss for words. I think that Johnny Depp said it the best, so I'll quote him and go out strong: "May the wind always be at your back, and the sun always upon your face, and the winds of destiny to carry you aloft, to dance with the stars."

There is no doubt that this school has changed immensely since I came here in grade 9. However, this is still a place that has changed my life for the better and I can honestly say I have no regrets about my time here. Also, I know that no matter how much this place changes, it's the people that make the place, and because of this I would like to thank all of my friends, especially Jalil, Bacardi, Boileau, and Ricky. You four guys have been a big part of making this a great four years. I can't put it into words how much your friendships have meant. I also want to thank all of my teachers for their support and guidance throughout my career here, and it will no doubt pay off huge in the future. Lastly, I would like to thank my parents and my sisters. The sacrifices you have all made to allow me to come to this school are ones that I am extremely grateful for. In your allowing me to come to SAC you have made sure that I will have a bright future. Thank you so much. I'll leave by saying this;

Life at S.A.C. has been hectic at times, disappointing at times, encouraging at times... I could go on. This school has always felt like a community to me, and I've learned many things from it. I've always felt the need to contribute to it as much as I get from it. However, I've gotten so much from this place that it's hard to do that! From the front gates to the upper fields, and everything in between, there will always be a part of me that will never want to leave. Unfortunately, since I will be leaving regardless, I'm going to seize this opportunity to send a message to those who still have a few years left before graduation: Go out on a limb, and take every chance you get to do something you want to do at S.A.C. If there's one thing that I'll never regret, it's taking advantage of the amazing opportunities that the school provided me with. Whether or not you realize it, everything you do at S.A.C. turns you into a greater individual in one way or another, and that's something you'll never regret looking back on either. It's been a great six years at S.A.C., and I know the other lifers feel the same way. We've had our fun, and had our share of misery too, but in the end we know that there's no place we would have rather been than here. I wish you all the best of luck for the future. Later!

So much that comes to mind, work and more work and freezing cold, cant forget the cold, late nights no sleep, chillin with the guys after lights out even when you should get to bed so that you can actually get sleep. Artem Dudin after lights out lol, that was a night to remember, CS with high ping with those crazy friends of mine, late night study sessions with my neighbour, the distance. Been a great time really. Being here for two years has really changed my life. The school has hopefully taught me one thing, time management, but on the brighter side of things I've met many great people who I will remember for a lifetime and you all know who you are. At the start of the year I feared that my final year would have been incomplete without Mr. Bedard but it's been a blast. Thanks to all the people here who have helped me along the way especially, Mr. Bedard, Mr. Butcher and Mr. Inglis. You will all be remembered. Good luck to all you guys into grade 12 next year and all the guys in university next year. Thanks for the memorable 2 years... of no sleep lol. Nah it was well worth the lost hours in more ways than one. I will be forever grateful for the my time here.

It has been a long and hard two years, but this place has opened my eyes up to a whole new perspective on things. I'm convinced that there's nowhere else in the world where you can find such a large amount of amazing people in such a small place. To all the guys: Tim (thanks for the hospitality), Colton, Ford, Beel, Chi, DVD, Stock, Bey, Jarvis, G Flow, Z, Brooks, all hands and to anyone else I haven't included, you guys have been great friends and its been nothing but good times. I've only got to know most of you guys over such a short period of time and now it coming to an end. For having left and sacrificed so much at home, I think I gained and matured more than I ever could have conceived. Mr. and Mrs. P, you people are truly remarkable, I don't know how you do so much for everyone. Mr. Roy, thanks for being there. Nat and Joe, thanks for the support and everything you've done for me. And last my parents, you believed in me, no more could I ask of you. Despite me wanting to get out of here so much, I wish I could stay longer. I'd do it all over again if I had the chance.

As a new boy in grade 9, I was not a big fan of this place. I wanted to leave. A wise man told me, however, that in the middle of difficulty lies opportunity. He was right. I fought through my first year, and have taken advantage of the opportunity to go to the best high school in Canada ever since. For giving me this opportunity, and for all the sacrifices they have made, I would like to thank my parents, and my brothers. Without your support, I would be nothing, and I don't thank you enough. Thanks, I appreciate it. Mr. Service, Mr. Dunford, Mr. Scoular, Mrs. Perrier, Mr. MacDonald, Coach K, Mr. Walder thank you for your guidance. Sandy, Greco, Gnyp, Brody, Beel, Stock, Peter, Colton, Irving, Ford, Del Zotto, and the rest of the boys, thanks for the memories. From poker to physics and East Side Mario's to hockey games, St. Andrew's has given me many memories, memories which I will cherish forever. I want to say thank-you to all my friends with whom I've spent these many days, and many hours. Some of you I will see beyond this year, some of you I won't, but I will still have memories of all of you. Most importantly I would like to thank my parents, for all their love and care, and for their help in times of need. You will never know how much I appreciate all the time and money you have put into me, and hopefully one day I can repay you for your troubles. I love you both. Finally, to my brother. My social life, confidence, attitude, determination, and good looks were as pathetically miniscule as Zam's "A" game. Now however, they're jacked like Chewsky. Shawn, you were my first real friend, and you will always be my best friend. Zam, you eat air, but you were the only person to stand up for me when I was with the Abominable. Jer, we made it through St. Matt's, we've made it through SAC, now lets make it through Guelph. Nick, you may be a fridge, and as emotional as a jealous girlfriend, but you're the most sincere friend I've ever had. Arnold, you may not be gelato, but you've been like a brother to me. On this note, the five of you are no longer my friends. You've become family. Do not knock anymore, the door will be open as often as I am guapo (always). Also, one last thank you to Junyan for getting me through chemistry, producing my focus play, and always providing an argument. To everyone else, especially: Rummy, Carnie, Jalil, Hoose, Hammer and Rahim, you have shaped me into who I am today. Mom, thank you for giving me the space to find myself. I work hard to make you proud, and you have taught me to work hard to make myself proud. Dad, you have given me so much more than a good nose and charm. You work everyday to keep me at SAC. You're truly the most unselfish man I have ever met, and I am more proud than I can ever be to call you not only my father, but my hero. I now know that no matter how far I go, your arms will reach far enough to catch me if I fall.

Well my SAC career has finally come to an end. I don't really know what to say here mainly because the things I have experienced at this school are hard to write down. Middi, kalev, kap, lyons and kev. You guys have been my comedy brothers, and all though you need some work on your humour and get some new material, and actually try and make people laugh, you have done a pretty good job at making me laugh. Its been a wild ride and we gotta continue this ride once we leave. Mrs. P, my advisor and my good friend, I want to thank you for everything you have done for me. You have made my time at SAC better than I ever would have hoped for. Dunf, you tried to tell me that the sens are better than the leafs, funny guy. I think I got more hockey information out of you than math. Thanks for giving me knowledge on both. My parents, I have put you through a lot and you have put me through school, what more can I possibly ask for. Both of you are amazing and I could not imagine what my life would be like without you. I have done my 5 years at SAC, lots of money has been spent, I didn't scholar until this final year. Your probably asking was it worth it? You Bet!!

Well I've been here for 2 years now. I can't say I enjoyed my 2 years to the fullest and I honestly can't say I partied hard (enough) but I will always remember this place for it's great teachers, it's jam packed schedule, it's great location in nowhereville and ofcourse some of it's great students. I've made some friendships that will last a lifetime some that will last until the day I graduate and some which I never quite made but nevertheless they were all worth it and will always remain special to me. Mrs. K, Mr. Butcher and heck even Mr. Te-bokkel (who I personally loved annoying ☺) you are some of the few people that had a great impact on my life. I thank you sincerely for this. Mrs. K for your continued guidance and constant care I hope you realize that you made my life at SAC possible and even occasionally prevented me from ultimate death. To my friends and family, who are most important to me, BIG Rice...lol...No seriously you guys make me who I am and I hope you will always remember Fern. Good luck, we all are gonna need it!! (Pat keeping touch and never forget RICE)

**Sayings:** Lets get serious, The summer of grade 10 I had a incredibly hard choice to make, whether or not to pick up and leave everything I had at home and come to an unknown place. If I had known it would be like this I wouldn't had hesitated to come here in the least. Although I have only experienced two years of life as an Andrean it has been the most enjoyable. To all my friends Tim, Billy, Dan, Francis, Darryl, Matt, Colton, Brett, Crane, Blake, Arnold, Jarvis and everyone I have respected and loved while I have been here. Thank you for making this experience one I will treasure for the rest of my life. To my brothers Taylor and Laveau, you guys made boarding an experience to remember. Thaine you're my brother, through the thick and thin we will always be brothers. Mrs. Mix thank you for all you have done for me. I would have never been able to make it trough my tough academic schedule with out you. Mr. Shrimpton, I have respected you so much since day one. You have leadership skills I can only dream of having. Thank you for making my athletic life at St. Andrews College the best it could be. Finally to my Family . Thank you for the things you have taught me in life. Mom, I have never been so proud to be your son. Dad, Thank you for teaching

First of all, I would like to take this opportunity to express my gratitude to my dearest parents for sending me to this expensive school. I really "enjoyed" the atmosphere in SAC. I was expecting this school to be demanding when I came to SAC. This school has provided me with many new opportunities and allowed me to do better where it would be impossible if I stayed in my previous school in Hong Kong. I would like to thank Dr. Wenk (especially with the push ups when I am late for class) and Mr. Te bokkel for expanding my knowledge in mathematics and taking different approaches to solve questions; Mr. Jones, thanks for teaching me what "self-study" is; Mr. Giel, for showing me how to apply accounting in real life; Ms. Thorne, for allowing me to skip practices as often as possible; Mr. McCue, my dearest housemaster, for our constant battling to put me to bed; Ms. Carpenter, Mr. and Mrs. Robson, thanks for your help with my greatest obstacle, English; Mr. Swan and the Guidance Counseling Office members, thank you for

More than three years have passed since I first stepped onto the St. Andrew's campus for my first visit. I am now a graduating student heading off to university next year. I can still remember walking into Mr. Shrimpton's office in August 2002, I could barely speak a word of English, and now I assume I am able to speak it quite well. My journey at SAC made me go through so many experiences, challenges, that it totally changed the person I am today. Football season was just wonderful... undefeated, beating UCC in the finals, the Golden Horseshoe Bowl (Skydome), the red leathers and the rings... Coach S, I admire your incredible knowledge of the game of football and will always remember you as one of the best coaches I ever had. Those two years spent at SAC were the most important of my life, that decided about my career and are responsible for what I have become. The memories I keep from this school are unique, so were the friendships I developed. Finally, I will be grateful to my parents for the rest of my life who made remarkable sacrifices to allow me to study here and go through this superb experience.

I hated this school the first time I walked through the doors as a Grade 7 student. Now, as I prepare to graduate, I think back on all the incredible experiences I have had here, and can't imagine being anywhere else. It's been a hell of a journey, one which will remain etched in my memory for the rest of my life. T-Birk, Franchai, Beel, Darrulla, DVD, 98/04, it's been the greatest time of my life. To the rest of my boys: Bey, Jarvis, Greco, Cyr, Wyn, Crane, Colton, as well as all my other peers. I can't describe how special all of our friendships have been to me. Never will I forget the amazing times we had throughout the years. Birkfest, road trips to SMLS, 4:00 curfews, cottages, boys' nights, and much more that will just get edited out of here if I put it in. To my teachers, thank you for keeping me in line throughout my time at S.A.C. Mr. Service, Mr. Shrimpton and Mr. McCue - thank you for your leadership as teachers, coaches and as friends. To my parents, thank you for being there for me whenever I needed you. Thank you for making the sacrifice and creating this opportunity for me. Without your

help and guidance I would never have become who I am today; you are the ones I have strived to impress my entire life. I hope you are as proud of me as I am to be your son. Goodbye St. Andrew's College. I will never forget all of the memories, both in and outside of your gates. My future success will always be related back to the experiences I have had here. Forever Andrew.

When I first found out that I got accepted to S.A.C. three years ago I didn't know whether to be happy or sad considering I didn't really want to go in the first place. Little did I know that I was entering a place that would change my life. This school has taught me so much about life and has made me who I am today. I have so many memories at this school that will remain with me forever. Thanks to all the guys, you made my life at S.A.C. what it is. I'll miss the late nights and big parties. The gambling nights, weekends at the cottage, and blitzing for lunch but most of all, the laughs we had at school. To my Mom and Dad, thank you for being there for me when I needed you. Thank you for giving me the opportunity to be a part of the S.A.C. community. You are the ones I try to impress day in and day out and I hope you are proud of what I have accomplished. Thank you to all of my teachers for putting up with me through the years even though I know it was a pleasure. You have all taught me so much whether it be in the classroom or on the playing field and there is no doubt in my mind that I will remember everything you have done and take it with me into the future.

These past four years have changed my life. From eight classes in grade 9 to the occasional class in grade 12, from going out for lunch 3 times a week to sleeping life away in the gallery, we've had some good times. This school has helped me grow as a person, and I would like to thank a few people. First, thanks to all my teachers who, in most cases, made getting through high school less of a struggle than it had to be. To all my boys: you guys are what have made my time here a truly unforgettable experience.

## Darrin Henein

Thanks for the memories. Mom and dad, I couldn't have made it through without you. Over 4 years, I have become part of St. Andrew's, but St. Andrew's has become a part of me forever.

**Activities:** Volleyball, Basketball, Weight training, Focus, Duke of Ed. **Comment:** When I first came to SAC, I was definitely not about Saturday classes, all guys and having to wear a kilt for cadets. But the more and more time I spent on the school grounds, the more and more I began to appreciate the unique things that make SAC such a special place. It's been so much more than just a place to go to school, but a place of brotherhood and learning how to be a man. When I was dropped on the first day of school in grade 9, I had no idea what an impact the heart, pride, tradition, and spirit of St. Andrew's would leave on me. Looking back on the past 4 years of my life at SAC and knowing that I won't be back in September really lets me fully appreciate everything. I'd like to thank my parents for making this amazing experience possible for me. To my boys Kev, Kap, Middleton, Bryn, Lyons, and Colin, it's definitely been fun and you will never be forgotten. For those of you who'll be here

next year... take advantage of everything this amazing place has to offer because tomorrow comes sooner than you think.

A strong feeling is always felt when you enter and leave a place that you dwelt in for 6 years. As one of the few remainders of the Grade 7 centennial class, seeing this school change in size, faculty, classes, to even classmates changing, it can be said that I know this whole place inside-out. Back in Grade 7, the graduating year seemed so long. Cadets and sport requirements were so boring and hard, totally despised those times. Looking now at the Cadet Inspection, it is the last day that I will ever be proudly wearing that red tunic and kilt which I once hated. Without a firm knowledge of where I might be heading for in the coming years, this school has helped me a lot in my many aspects of life, both physically and mentally. These few years really "brainwashed" me to be a strong Andean. I wish the best to all my colleagues and the ones that will follow my footsteps.

I graduated from Gr. 8 with about a 90% average from my public school and came to SAC in Gr. 9. It all went downhill from there. I had a fun time at SAC though, and the education I got here will help me later in life. That's, all I have to say. No comment.

Although being guided in what I believe was the wrong direction on many accounts and having many ideals imposed on me that I really didn't need, the past four years have nonetheless been the best I've experienced so far and I owe it all to the people who I shared those years with. Thank you to all the people who have helped me with personal issues, without you, the past two years would have been impossible. Thank you to all my friends who I've bled with in sports, who brought me up when I was down, and who I partied with maybe a little too hard sometimes, you've shown me a whole new way to look at the world, we'll never lose touch. Thank you to my entire family who have always believed in me even when I make a mess of things, which is quite a lot! And especially, thank you Oma for giving me this opportunity where I've met so many people and had so many experiences I otherwise never would have had that have changed my life for the better. Even though I have only been at St. Andrew's for two years, I can honestly say I have no regrets about changing schools part way through my high school career. It has changed me for the best and allowed me to experience many things that I wouldn't have, had I stayed at my previous school. Over my time at St. Andrew's I met many great people and friends, which have made this such an enjoyable place. I would also like to thank the teachers for the countless hours they have spent with me to allow me to reach my goals. Lastly, I would like to thank my parents and family. I am extremely appreciative for the sacrifices you have made to allow me to become apart of this community. You have given me hope for a bright future by allowing me to come to SAC. Thank you so much. Before I finish.

I have been at S.A.C. for 6 years and I have come a long way from the round brown boy who couldn't run, received mediocre marks, and was allergic to girls. Throughout my career at the school I have had exceptional opportunities and I have met people who I will remember forever. I would like to say thanks to all my boys for the great times but especially my brown boys and my guapo brothers Donko and Zam. You guys have always been true to me and you know how we do: We ride together, We die together, Bad Boys For Life. There have been so many unforgettable times and between all of us there has been more comedy than I probably will ever see again. If we were to put all our comedy into a jar...it would be a very big jar. But on a more serious note, I would like to thank EVERYONE who has made my time at S.A.C. both enjoyable and memorable. To my family, I am grateful for everything you have done for me and your unconditional support will never be forgotten. Similarly, the devotion and care that my teachers and advisors have shown for me has truly made a difference. S.A.C. has been a second home for me since Grade 7. I have never felt such a sense of belonging, nor have I ever been so proud to be a part of something. I will miss you. St. Andrew's.

## Alex Kaptyn

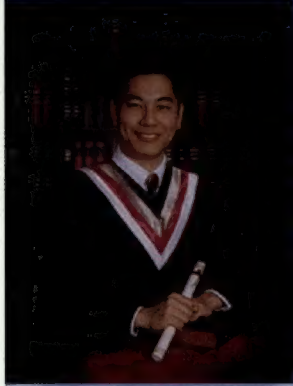

Nicknames: Kiz. Activities: First Badminton (recreational player), Track and Field, Chilling. Well, it's finally done. I'm happy with the whole St Andrew's experience. Having to listen to how people thought that I was as fast as a cheetah simply because of my wonderful chocolate skin and my African descent. (Quote: "Lawrence, you wanna run 10,000 meters today, you are from Kenya, right? No, I'm Ugandan, and NOT UGANDIAN PLEASE!") Watching one teacher ignore me for about ten minutes even as I was standing right next to her, and have her (oops, let that out!) say that she hadn't seen me. She of course blamed it on my dark skin complexion. Also, my classmates always looked at me when pencils, pens or even backpacks went missing! I can definitely tell you that it is one hell of an experience to be unique in this society. Of course, when Patrick Garneau had friends from Montreal, the first thing he showed them was "the black guy from some country". But it is hasn't all been bad. I mean, watching L-D and Matt Middleton walk randomly into guys' rooms, turn the lights out and just fall asleep in their beds was a classic comical moment. But I guess the people that I will miss the most are the Perriers. You guys are the bomb! I can't thank you enough and I don't think any of the boys who have been through your caring hands, can either. Merci Bucket.

# Lawrence Kiiza

Living in SAC for 4 years, maybe slept for 2 years (thanks for all the teachers, who allowed me to take naps during the class for a sleepy guy), was an unique experience for me. There are many things I learned in this school. I learned to be a responsible young man, a leader and a great friend. Also, I figured out the best posture to sleep comfortably without getting caught by the teachers. After I leave this school, I will miss many things that I reluctantly participated, such as chapel, assemblies and the cadet program. It is because they all became valuable experience for me. Once again, thanks to my housemasters (Mr. Perier and Mrs. Perier), my advisor (Mr. Dunford), teachers, co-curricular teachers (Mr. Service and Mrs. Pries), University Council staffs (It seems that I bother them everyday in Gr. 12) and Nancy (for cleaning my dirty room). I guess every staffs and faculty members in SAC. It's been four years since I first came to SAC. Special thanks to my science teachers. Mr. Shields(Gr.9 Science, Gr.11 Biology)- In Gr.11, I lied to you when you asked me how much weight I can lift. I said, I could lift 200 pounds more than 15 times. That was a ridiculous joke. Ms. Thorne(Gr.10 Science, Gr.11 Chemistry)- Your class was one of the best and easiest classes in my life. In Gr.10, I was a scholar because I got such a high mark in your class. I still miss your mama Thorne cookies. Although I only had one, that was the best cookie in my life. Mr. Inglis(Gr.11 Physics)- Sir, you never called my name when you checked the attendance. You should have not done that to your students !!! Mr. Butcher(Gr.12 Physics)- The first chapter test, I got 20/100. That was the scariest thing in my high school life. I know it was my mistake for not getting extra help, but your questions were also too hard. I am quite confident with studying in university because I am used to the high expectation from your class. I really appreciate you for this. Mr. Jones(Gr.12 Chemistry)- Dear, Mr. Jones, it seems that I studied Gr.12 Chemistry by myself throughout the whole year. Your class was amazingly fun, but was ARDUOUS (You know this word). I am a bit worried about next year, since I am going to pursue my study in Chemistry(haha). One more thing, when you had a lecture on balancing equation, you distributed your coins to the class. To be honest, I put \$11 in my pocket as Sang-Ho, Jason and many other guys did. After the class, I had Chinese food for dinner. Sorry. However, if you sell your silver bottles, you will get some money as Del Zotto said.

Well... what do you think? We are graduating. Really... The three years I have spent at SAC have flown by. My time at SAC was short-lived, but was a memorable and life learning experience. First, I need to thank my parents for their sacrifice and dedication they gave me throughout my entire high school career. My last year at SAC is probably the worst year of SAC years. I am not quite sure why. Although it was a tough year this year, there are many good memorable moments and vital people to thank at this point. All the teachers who taught me, I strongly believe that I learned at least one important thing from you. I would like to thank you so much for that. Special thanks to: Mr. Shrimpton, Mr. Scouler and Mr. TEEEEEEEEEEEE. I also would like to thank Mr. and Mrs. Perrier for their care and love. You guys are unbelievably nice people. Mr. Swan, Mrs. Marsh, and Mrs. Piazza, thanks for helping me to get into a good university. And most importantly, to all my boys through the years: James, Jinho, Eugene, Patrick, Sang-ho, Jason, David, Football team, Alex, McCall, Jeremy Springer, Christopher Attard, George Si. You guys are amazing and I will not forget you guys. Do not forget that. It is time for us to leave SAC and go on with our own lives. SAC will be all turning into my memories that I will cherish for the rest of my life. Thank you to all.

Kaptyn you are probably one of the wittiest, funniest guys I have ever met. I'll miss yah buddy. Jalil and Bacardi I'll miss chillin in your room, good times. Bornstein, you're good friend I hope to keep in touch with you over the years. Hussey, your fascination with streaking at every party amazes me... ha-ha. There have been so many memories SAC has given me, its difficult recalling them all. Whether it was such amazing trips as the U rugby trip, or the unforgettable Cancun grad trip, being part of the painted idiots (painting ourselves for the Golden Horseshoe B and McPherson), or just chillin during spare, it has always been that much better because of the company. I thank all you guys for that. This school is definitely different then most others and it's because of this I believe I am better prepared for life. Thanks to my parents for guiding me through these high school years. Mom and Dad, your extra push has helped me immensely over the last 4 years. For this I am forever in your debt. I appreciate it with all my heart.

I can hardly believe that I've spent three years in SAC, looking back now, everything seemed to have happened so fast. It has been a tremendous experience for me here and I sincerely thank all the teachers and staff here at St. Andrew's for guiding and preparing me for the real world. Most importantly, I have to thank my parents for sacrificing so much to send me here to SAC, and also my brother whom shared my experiences here at SAC with me. There are so many memorable moments that I will never forget hanging in the residences, honba nights, muddy walks to IGA, doing random stupid things, "charson" teasing. I'll miss all the fun I've had with my friends, good luck to the graduating class on your future endeavours. For those future SAC graduates, hang it there and make yourself proud. Thank you to all of my friends, you know who you are, for being there with me through my SAC experience.

## Desmond Kiu

This is my third and final year at St. Andrew's College. I have experienced and survived the lifestyle of a boarding student and am damn proud of it. Though the road ahead seems blurry and unknown, I can honestly say St. Andrew's College is a unique place that can well prepare you for your future. I have learned a lot during my time here and also made some good friends who shared all these moments with me. It is going to be an awkward transition as I have been doing the same thing for the last three years here and find it like a routine thing. Also, I must thank my parents for sacrificing so much to be there for me and my brother, I know we couldn't be here today without them. Lastly, I'll definitely miss this place, and will always remember the time I had here. I wish the best of luck to the graduating class and the future Andreans. Thanks to all my friends who made this last year a memorable one, you know who you are, going to miss you guys as we part ways...keep in touch. Thanks to those friends back at home, hope to see you guys soon.

My two years of SAC life has almost came to an end. I still remember when I was counting down the days left until prize day with my roommate Patrick, I truthfully thank him for he is the best roommate ever. Also, I like to thank my parents especially my dad, I know he sacrificed a lot to send me here. For the time being, I hope my brother will get used to this place next year and I really wish him luck to spend his 4 years of high school here!!!! I won't forget what I have learned and achieved in this great place, the most important lesson that I have in this school is not something from the book, but the friendship that I have with everyone. Terry, Matt, Zarn, Burton, LD, Fish, Yoons, Kims, Chiang, the English Law Firm Class and all my Korean and Chinese brothers in this school. (I am sure I missed a lot of you) I miss this school but certainly I am grateful to leave this place because SAC is not an ordinary place. And I promise Cadet Sung that I am coming back to see him as LCol Sung in three years!!!!

## David Lau

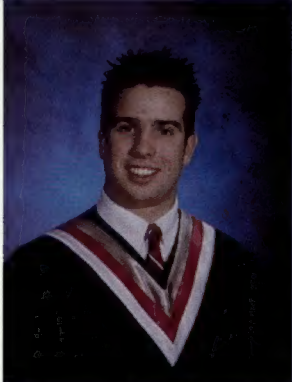

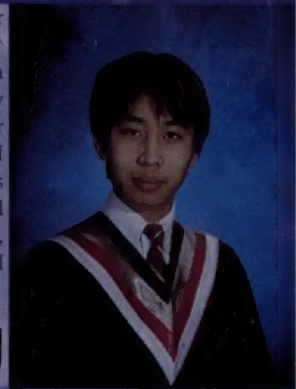

Nick Names: AzN Speedster, Lau Memorable Activities: 1st Badminton; 1st Swimming; JV,U16,U15 Soccer, Henry V; Advisor Period at Star Bucks Coffee; Making Friends; Training for Badminton at Lee's. My years at St. Andrew's College has impacted my life immensely, and I would like to thank my parents for their unstinting financial, physical, and spiritual support. An opportunity itself, my stay at S.A.C. has led to my development into a well rounded individual in all aspects of school life. My attitude towards school, especially in regards to academics, has changed for the better. An easily satisfied individual at first, I have come to, under the influence of my parents, friends, and teachers demand nothing but my best. To sum up, I would also like to thank my teachers for their generous extra help sessions, my advisors for their care and friendship, my university counselor for his enthusiasm and encouragement, and my friends for their support, motivation, comradeship, and optimism. You have all made, parents, teachers, advisors, counselor, and friends alike, my experience at St. Andrew's College a memorable one

Activities: First U16 badminton, intramural basketball, weight training, DECA, drama (Henry V producer + focus techy), Duke of Ed, Sergeant of Training company and two year participation in CS community ^^ What I like to say: IKU ZE!! na ni??, nan da to, SUPS XANDY!! followed by Xander's speech 'WALLY \*@\$\$@#%', o re no kono ma kai mo e ru...u know the rest :P... Three years has gone by like three minutes, moments of CS continue to float in my mind. Especially when I head shot Xander :P. During these three years, SAC has taught me loads, firstly SAC showed me there are always people better than me, I learned to challenge my limits, continue to pursue high standards and gained unlimited pride in ANDREANS!! Although I suffered much here, mainly under our evil housemasters Mr. Inglis and Mr. Ramon, I thank them for their guidance, also many thanks to Mr. Bedard the first person I met in SAC. Lastly thanks to Mrs. Robson who kept me on track during my early years in SAC. And finally to my friends: Terry (thanks for the movies :P + AvdPlcm party member), Xandy (my CS target and AvdPlcm party member), Julian (gl with Jesus Corp...j/k), Sham (gotta love our DA trip hehe), My roommate Chalz (stop playing games when I study and keep ur hands off that math book), John Chen (gangigi.hehe...my best badminton partner!), twins (force me play games :P), dlau & slau (may the fau family prevail!). Best of luck to all of u in uni and hope to see u all again.

## Wallace Lau

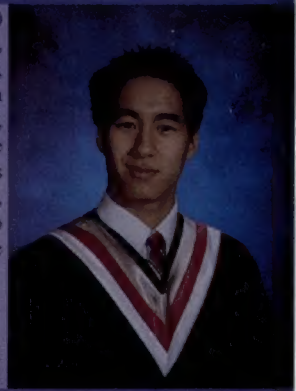

Sports: 1st Football, First Weight Training, 1st Rugby Nickname: Bear. It has been yet another year of St. Andrew's College and each year goes by quicker and quicker. I started off in Grade 9 at St. Andrew's and can say I am proud of being an Andrian. I began my journey in grade 9 entering the gates being frightened that everyone would hate me and not like me. I was a residence of MacDonald house for grade 9 and experienced boarding life for the first time. This is where I made life long friendships with Maura, Bacard Jongsma, Jalil, Du Ro and good old Arnold or A train. Making friends was easier then I expected since I was on many sports teams. Sports at this school has been probably been the most rewarding experience of my life. Winning back to back titles with rugby and winning the GOLDEN HORSESHOE BOWL. The school has made me a great football player and I have made priceless friends on the field. Playing side by side to the Greatest Linebackers in Canada Adam and Thaine. Meeting Nick Chewy has changed my life because behind all that muscle there is a living person. Knowing Erik Bornstein a great golfer and a be friend, Alex Kaptyn the funniest and smartest kid I know, Hussey or Hammer master of guitar, Brian Daly you will never be as strong as me, Colin Andre Lowe my brother from another mother, Matt Whiteland and Alex Maura my Bahamian brothers have changed my life forever. Being in Memorial house has been a very rewarding place living being side by side The Perrier's. Having brothers Taylor, Adam, Chiang, and Lawrence has been very fun. Pulling pranks back and forth between my closest idiot brothe Taylor and Adam has been something that nobody can st they have done. Coming to St. Andrew's was the greate choice of my life with memories which are priceless.

## Nicholas Laveau

Nicknames: Morgasm (that's about it. The rest are inappropriate) Sayings: "I'm Morgan", "Cowabunga dude", "ruff" (that's how I say roof) Activities: choir, coffee house (many, many times), carol service vocal soloist, focus, the play (Oklahoma, Henry V), national star qualified, lieutenant in cadets (I still think "Captain Morgan" sounds better), sports (far too many to mention) After being surrounded by girls for six years, something hasn't changed - I still don't know where I'm heading (besides Hollywood). So, I'm gonna stick to plan A and coast through life on good looks. What has changed, though, is my outlook on work. I walked in this place six years ago intending to work really, really, really hard, achieving everything and enjoying nothing. Now that I'm walking out of this place, I've achieved nothing and enjoyed everything. Alright, maybe did achieve a lot, but nobody likes a bragger, so we'll skip straight to the shout outs. Doing shout outs is very risky business. Everybody always forgets somebody - it could be anybody and nobody knows whom they forgot to mention. That being said, I will now do the shout outs. Mike, your own shining example has always given me something to look up to. Justin Nozuka, on all those long play practices, it was great having you to chat with. J Wong, Attard, Hoose, DuRoss, Springe, Shawn, Fergs, and another thirty of you, you guys are the home team - I've known you since we all walked in this place together six years back. Jimbo, Boon, Jun, F-Rat, Jah, Jinho, and everyone else, I'm sorry but you're all still newboys to me. Mrs. Chasson, at first I was a bit cynical since you replaced Mr. Clements, but the more I got to know you, the more you became my favourite teacher. Hope I didn't forget anybody.

Advice for future players: Hitting people hard feels great. Try it, don't be afraid, you're a Saint! Be a psycho on the field (half-bad + flanker, I know what I'm talking about...) Special thanks to: Stuart Swan, Keith Ramon, Mr. Perrier, Mrs. Perrier, Mr. Butcher. You are the first faculty members that will come to my mind when I think about SAC years down the road. You people are truly unique! FINAL COMMENT: LIFE IS 10% WHAT HAPPENS TO YOU AND 90% HOW YOU REACT. ATTITUDE IS THE KEY

## Louis-David Lord

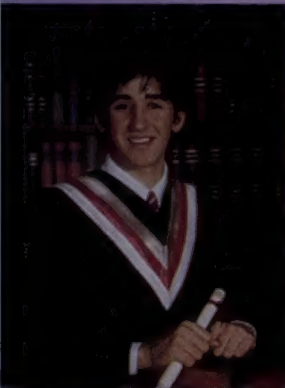

Nickname: C-Lowe. Sayings: You think that's weird, feel this nipple!!!. Well, time for me to be from the old, Dusty Trail. Yada yada yada... also pregnant. Shotgun no rolls... Just Give'er. I'll be there in 5 minutes. Mom, tell Robyn to go home. Common give kap some credit. Activities: 1<sup>st</sup> Football, 1<sup>st</sup> Squash, 1<sup>st</sup> Rugby, Its been quite the ride these past 5 years. Full of random exciting events that have made me the person I am today. I've had the time of my life and wish it didn't have to end. I came to St. Andrew's for the sports, and the sports only. After the first year I was overwhelmed with the amount of extra activities it had to offer. A quote from Mr. Scoular, "SAC is the best private school in Canada. In other schools you have sections; the jocks, the musicians, the theatre crew. St. Andrew's offers all that for each boy. They get a feeling of everything here." I couldn't agree with him more. I have experienced a bit of everything and achieved goals I didn't think I could reach. The most memorable event was playing football in the sky dome. It was such a great feeling receiving my OFSAA BOWL Champion ring. To my gf Robyn I care about you so much sweetie. May the wind be at your back and the sun always upon your face, and the winds of destiny carry you aloft, to dance with the stars. I will remember this year forever. Finally to my parents, who have been behind me all the way. They were always there for me for any event, pushing me when necessary and supporting me all the way. I cant thank you enough. If I can push, and I will, to all my friends who I have come close to over the years, thanks for always being there and hope we keep in touch. To the Hacki SAC group its been a short year but hopefully when we all meet up in 11 years for the reunion, Kap wont be such a hog and Bryn wont lack in leg muscle.

## Colin Lowe

Names: Luckster, Lucking, Luck-Luck, Luck...anything with "Luck" Activities: Alpine Ski Team, S.A.G.E., U16 Squash, Marksman team. Well there goes four years of my life. Might I add a very fun and memorable four years. It seems like just yesterday I went through the St. Andrew's gates for the first time. I think the fact that I spent a lot of time thinking about what I am going to say here says a lot in itself. It has been an incredible journey which has taught me many things along the way. I want to thank all of my friends for always being there for me, for the awesome times we shared, and for the incredible memories that will last a lifetime. Also all of the teachers and staff that truly make S.A.C. not an ordinary place. I also want to thank my parents for supporting me in everything I have done throughout my S.A.C. career. Without their help, I can't imagine how different my life would be. As my S.A.C. days come to an end, I cant help but think how much I am going to miss this place. Being a boarder has definitely been one of the greatest experiences in my life. The friendships I made as a boarder are unlike no other. The S.A.C. community is definitely a great place to live and become a man. Wherever life takes me, I know I will never forget any of you and will always be able to call St. Andrew's home.

## Eric Lucking

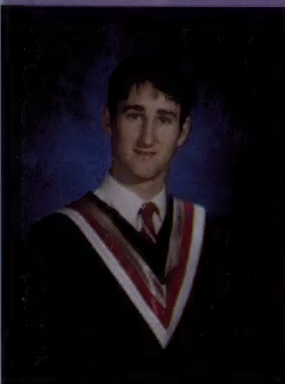

What a long strange trip its been. It was the best of times and it was the worst of times. (That's for you Kap) Kalev, Suxbridge, Oram, Kev, Kaptyn, and Bryn you have made my time here go by so fast and I have had some great times. Kalev the only thing I have to say to you is that you are still a big baby. Suxbridge, you know what I'm going to say to you and we both know that I am right. Oram, no one will be able to beat your math record. Kev, who knows why you left, maybe you got sick of sitting with me while everyone went and got their scholar ties but always good times. Kaptyn, you have always been a funny guy. You might say that you are...graduating from this level of comedy. And last but not least Bryn. Your constant attempts to make jokes always make things more enjoyable. Even when they weren't funny it didn't matter because we would just laugh at you instead. It was great times, but if only we had picked up hacky sac sooner. To the graduating original members: Bryn, Kap, Collin, King and Kalev. I just want to congratulate Mr. Galajda and Mr. Stewart by finally defeating St. Mikes. The two of them have been great coaches, teachers,

and most of all friends. I also have to say thank you to my parents who have paid so much money for my education and have helped me along the way. Finally I would like to thank you, John, for always being there even when he didn't have the time or the patience for me.

## Justin Lyons

Nicknames: Seagull, Lorax, Deco, Garth, Nicki (?), Hansel, Larry. Activities: 1<sup>st</sup> Tennis (3 years, MVP, Captain) Sayings: Caw! Oh, how could you see that? Hullaw? Suppose we made a wooden badger... I got spare, lets jam! "Would you choose, water over wine, hold the wheel and drive?" These are the immortal words from the Incubus song "Drive". These last five years have been drastically different from anything I've ever experienced. I've risen above a hostile environment and become the peaceful, serene person I was meant to be. The people I have met and the things I have done have shaped me into a very confident and happy individual. The negativity and falsehoods that I have encountered in my life have attempted to push me downward, but I have found my true morals and self-worth. The ideals of the society I've emerged from have made me consider what will truly make me happy and make my life worth living. So many individuals have helped me along the way, and I will be eternally grateful to them for their help in making me the man I am today. "Maybe we will meet again, further down the river..." The analogy of life as a river in "Aqueous Transmission" makes me trust that fate has taken me and pushed me in the right direction, and I know that I am not going to be going the same path as others. Hopefully they will find themselves where I am, further down the river, in a place where they can be truly happy as well. I feel confident that I am prepared for whatever curve balls life throws at me, and I know I will react in a way that is humble and self-fulfilling. I know now that regardless of what fate leads me into in the future I will hold the wheel and drive.

## Levin Maaskant

122 hours of Community service. Sandy MacKay's activities include senior golf, hockey, first football. Sandy is best known for his golfing abilities. He has worked his way up through the golf program at St. Andrew's, with excellence achievements of MVP on the junior golf team 2 years ago, and MIP of the senior team last season. His leadership and skill on the team will be missed for years to come.

Sandy plans to attend the University of Windsor

## Sandy MacKay

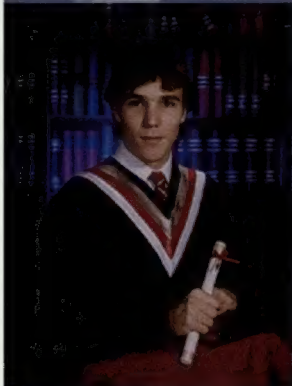

What better a way to start this deal off with a couple of quotes from the people who helped me get here. "Like a brother I think of you, but I must push on," or "Ladies, shut the hell up" or one of my personal favourites, "your generation..." Mr. Wilkin, Mr. Day you guys are awesome. And Mr. Myran's you've showed me what I'll be up against throughout my life. What got me through the days, months and years wasn't the school, but the people within the school. Nothing can beat Colin's parties even though he was clueless of them until we showed up, or the stories me, Hussey and Laveau would share with the French class, some maybe inappropriate, or round 12 for Donko's birthday. What else, well spent spares with Bacardi sleeping, the slushy run with the dual-cool with Jah, piggy back rides from Camie and a mission with Hussey that led to some trouble with Mr. Clements. Well, I believe some thanks is called for, mom, dad, wouldn't have been here without you, your stellar. To all the teachers who made a difference and made me who I am today, you know who you are. with a special thanks to Mr. Scoular and I agree with you... why IS time such a slut? On a final note I just want to say one more thing, what happened to us? we used to be so innocent... man, have things ever changed since grade 9

## Chris Marshall

Sayings: Well der bey, bey, going cod fishing bey, well der me son. Pack Fat chii. Chii der Bey. Shmag Bey. Nick Names: the bey, MBF, the fridge. Activities: First Golf, First Dart Team (co-Captin). Well der bey this year has been a great one. It all started when I was down on the rock der by the bay, fishing for dem cod fish der me son. I would like to thank Billy, Tim, Ford, Francis, Crane, Darryl, Matt, Dan, Colton, Zeebo, Brooks, Arnold and Dave for great times in my last year. My room mate Dave, thanks for all that late nights we stayed up doing absolutely nothing, just dicking around. Great memories we have together in room 105, also know as the chii room. Mr. Halstead my advisor and the man who has always been there for me to support me through thick and thin I greatly appreciate your support. Mom and Dad thank you for giving me the opportunity to come to this school and for your support you have given me through all the times here. In three years that I have been at this school it might seemed that I have learned nothing. The truth is I have learned more life skills and things that no one else knows unless you have gone to SAC. This is what makes this school so unique and I am proud to say I went here and am an Andrean.

weight training, assistant head of house and floor captain in Flavelle. Alex is an islander... likeable, quiet, gentle and relaxed.... likes to sit back and analyse life... time is not an issue. Alex has his sights set on Guelph or Acadia in the fall

## Alex Maura

What shall I do? I now said to myself, buttoning up my coat to the last button. What shall I do? what ought I to do? what does conscience say I should do with this man? - Melville. I came here confused, I leave here confused. But in between I can honestly say that I learned a great deal. Activities/Achievements: Builder of Forts and Bridges. Taker of Naps. Going for Percy's. Sender of the largest email. First one to take of his school during the cadet inspection. Never worn a kilt or tried the dining hall juice. Staying up till Robsons chickens crow with the boys of the 3<sup>rd</sup> floor (never was a more villainous crew assembled). Puller of missions and various magives. Dedicated member of the Furious Five and the unforgettable Montessori adventure. Neighbour to Jinho Park. Various other activities. Acknowledgments: I would like to thank the Perrier's, Mr. Myrans, Mr. Geil, Mr. Shrimpton and Mr. Wilkin. Mr. Staunton and Mr. Walden... Sorry for all the trouble. To my Family: Your support and sacrifice has been tremendous and I assure you it will not go unnoticed. I plan on putting all of you up in the finest retirement homes the third world has to offer. Words of Advice: It is a common experience that a problem difficult at night is resolved in the morning after the committee of sleep has worked on it. -Steinbeck. There is dignity in work only when it is work freely accepted. -Camus. Having been used and abused by the system, I have come to learn that justice and truth are often less desirable than what can be rationally perceived to be acceptable by the masses. -Unknown... to you.

## Brendan McCall

Activities: U14 Rugby, U14 Hockey, U15 Soccer, U16 Football, Rec. Golf, Weight Training (3a), Pipes and Drums (2a), Chess Club (3a), DECA (2a) Nicknames: Fish, Salmonfries, fishmonger. Sayings: Nah. Ok... You got owned, Excavate the room please!, I'm gonna have sho much... ok I wont say it, Lets get jacked The first thing that comes to mind when I look at my St. Andrew's career is how quickly it went by. You would think 5 years is a long time, but with all the activities, traditions and schoolwork that you're occupied by, time whizzes by. The second thing that comes to mind are all the good memories that I have had while being here. Unique events like the Carol Service, or the Cadet Inspection will forever be engraved in my mind. I have to say playing pipes in the band is probably one of my favourite things at the school simply because of the feeling I get from hearing them and playing them. These opportunities aren't available to people outside of the school in most cases, and I am truly grateful for the prospect of coming to this fine school for this reason. Not only have I learned a lot in the classroom from all the great teachers I've had over the years but I have also learned a lot about life. Another experience that I can say I have very much enjoyed and will cherish for years to come is the boarding life. I have had so many great times in both Macdonald and Flavelle, and I'd like to thank both Arnold and Charles for putting up with me. I'd also like to thank all the great teachers I've had, and my housemaster Mr. Giel, Mr. Shrimpton, and Mr. McCue. Finally, I would like to thank my parents for giving me the opportunity to come to St. Andrew's where I have truly made a difference in my life.

## Robert McKay

Activities: U16 Football, 1<sup>st</sup> Football (2 years) CISAA champs, O-SAA champs, 1<sup>st</sup> Lacrosse (2 years), 1<sup>st</sup> Pond Hockey and 1<sup>st</sup> Dart team (Co-Captain) Nicknames: Jarvis, Tough guy, McNobb, Veese. Quote: "Play every game like its your last" Throughout my 3 year career at S.A.C. I learned and experienced more than I ever thought possible. Being new in grade 10 wasn't easy, but with the help of my parents, friends and teachers to guide me, I made it through. First, I'd like to thank my parents for giving me the opportunity to attend school at S.A.C. and for supporting me all the way. I couldn't have done it without you. I wanna say thanks to all my boys for all the jokes and good times over my three years. Everything from crazy, late night animal protection meetings, chai sessions in 105, Olympic wrestling in t-birk's basement, Team nah-Cancun '04, and who can forget the no fly zone and the 2003 GHB CHAMPS! Whatever it was, it was all good times that I'll always remember, most of it anyways. To my roommate, Turbo- Thanks for all those nights doing absolutely nothing, great memories, Rm. 105 for life. g- you were always there for me and never let me down, thank you. Gordon, on Sunday

playin' football in 25 years, you know my kids gonna be runnin' around yours just like I ran around you, see ya out there..."Bey, shmag bey?"- Turbo... Thanks to all the boys... Iloouuyyedyouall, best of luck in the future... Life starts here

Nicknames: Middy, Bolbo, Bobby, Miltooth, White lighting, Male Model, Mids, Matticus, garbo, Momo, littlelon, Bobby ray, High Speed Ray. Activities: First Football, JV Hock. (3 year vet.), Senior Track & Field, Assistant Head of House, Captain of Sifton Company. I began my journey at SAC as a young, may I say lost child and I shall end my journey here at SAC as a lost young man. But it what I learned during my time here is has made me into what I am today. I will leave the gates of St. Andrew's in June, but I know I will return still as a true Andrean. This school will always be apart of me for as long as I live. May I say its truly been the greatest 5 years of my life, St. Andrew's provides us all with opportunities and its up to you to turn those opportunities into memories which will indeed last forever. In my final year here I have come to realize all the benefits in which this place really does offer. Whether it is on the sports field and standing on the field looking out to a sea of red and white or in the classroom listening to Mr. Scoular and one well crazy but yet inspirational speeches. I would like to thank all my close friends: Bryn, Lyons, Kalev, Kap, Kiiza, L-D, Garneau, my two brothers, my family, and most of all my mom and dad who allowed me to have this opportunity.

A excellent student of the sciences, Matt plans to pursue his studies at either Dalhousie or UBC.

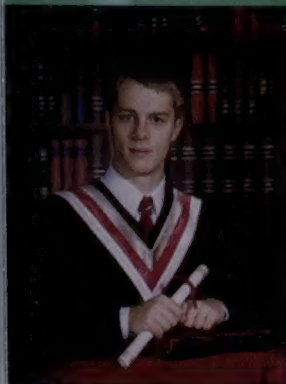

## Matthew Mitchell

Four years of dinning hall food, four years of cadets, four years of carol service, four years of 2 hours studies, four years of tests, four years of homework, four years of leaving and entering the school gates... Four years, can be long or short. Four years, students enter and leave this place. Four years, teachers come and leave this place. Four years, I had long reviewing nights. Four years, I finished all evolution of dynasty warriors. Four years, I still speak more Chinese than English. Four years, I had large variations in my marks. Four years, I am still like before. Four years, I am still searching for my purpose in life... Four years ago, I scored a SSAT score that is 1.5 standard deviations to the left from the true mean score of the test, yet Mr. Foy, Mr. Bedard saw potential in me. Four years ago, I had my first experience of wearing a suit to school. Four years ago, I found out someone else was like me in the school... Time passes, things change. Yet memories of friends and teachers will remain. As this unique four years come to an end, waiting ahead is another four years, one will move on in life.

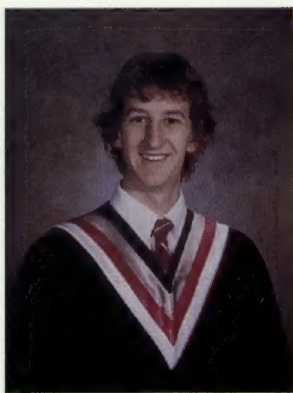

## Terry Ngai

Last two years have been a blast. From the fun in CIS class to scoular desk jumping, the memories will last a lifetime. Opportunities such as the CISMf and CAIS Soccer Tournament I would never have had elsewhere. Teachers and coaches the genuinely cared, and put extra time and effort into me have made all the difference. Friends to joke with and talk to have made long days seem that much shorter. I'll miss you all, but I will never forget.

## Malcolm O'Hare

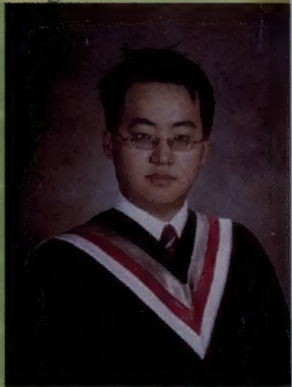

Activities: Student Life, hacky sack, Varsity lacrosse 2 years, Varsity Skiing 3 years MVP 2 years, Varsity Volleyball (yes, I play volleyball!) and hot chocolate math den. This school has given me a lot over the years. But after 6 years and \$200,000 latter I'd call it even. High school is not just about what you do, but who you share it with and the memories you have. Being a founding member of hacky sack, lunch runs to subway, and the stupid sh\*t we...ok, I say will always be priceless ("If you have a super ball", "where are the feet that go with that snowboard"). To math buddies Lyons and Kaptyn, you know -5+2 equals 6 don't argue. To the teachers who have influenced me along the way, Mr. Ryan, Mrs. P, Mrs. Mix, I will

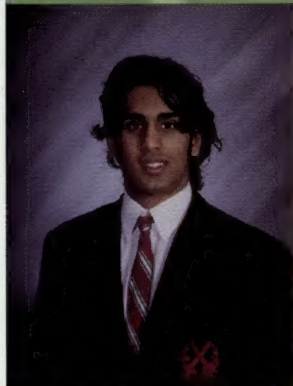

## David Oram

always cherish your advice and your faith in me. The people I would like to thank the most are my parents. I would be lost without you and your support over the years have kept me up through some bad times.

A Cadet Concert Band member, Jinho is a talented enigma, who engaged in music as a pastime. In fact much of what he did was usually exactly that – past time. However, we know he is an intelligent young man whom we wish well as he returns to Korea.

Next Year: Dartmouth College, Hanover, New Hampshire (Ivy League) The past four years at St. Andrews have been indescribable, and when I look back and reflect, I realise how incredible this journey has been. I can't imagine my life without St. Andrews. I've learned so much, experienced so much, grown so much...and I owe it all to my parents. Thanks for giving me the chance. Furthermore, I'd like to thank my friends and everyone who has accompanied me along this little ride. It's been fun. Thanks to everyone: The Frenchmen and the Islanders, team NAH and the all the other Goombas, the Ginos and the Cakes. Everyone I've met at SAC and everyone I've talked to I thank you. You've all enhanced and enriched my time here. Special thanks the guys that have been there throughout: Jah, Bacardi, Kaptyn, Clowe, Rat, Zam, Shawn, Matt, Carn, nah Rob, Euge, and finally my roommate Tomi Jun. I'd also like to congratulate the entire graduating class and wish them all the best in the future. Remember, "There is no limit to what a man can do, as long as he doesn't give a damn who gets the credit." We've created a great network, and I hope it will remain that way. There have been so many people that have guided me and advised me along this path, and I can't be more grateful. To Mr. Service (Greatest Advisor, and friend), Mr. Josselyn, Mr. Shrimpton, Mr. Inglis, and especially Mr. Bedard (Advisor, Housemaster, Inspiration, and friend), even though you left me...Thank You very, very much. To my brother, Adel, it's all you now, so do what you do best, and run the show. It's been a great ride, and as I move on in life, I will always have a piece of SAC with me. I am proud to be an Andrean. Peace...Nah...and Thank You St. Andrews.

It has gone by all too fast, I blinked and now I am graduating. Throughout my early years at SAC I was this little kid that had the loudest voice in the school. Now I am that same kid, just a little taller. I guess it is fitting that I got promoted to RSM. Thanks to all my teachers who only did what they could to help all of us, not just me, in achieving our goals. A big thank you goes out to Mrs. Perrier, my advisor, the only question is, who doesn't she advise? I spent the better part of my final year in a distant land, thankfully I woke up near the end. I realized that my friends were the most important thing and last term was for the boys. Most of the good times this year came from the double spare crew: Rahim, Cody, Darrin, Smitty. I just like to give a special shout out to my best friend, Little Carnie. You were always there for me bud, that has meant so much to me over the years: our friendship only begins at graduation. A great thanks to my good bud Rob Ferguson for providing the greatest SAC moment of my time....JESUSSSS. Oh ya, Mr. Walden, for all the times that you caught us sneaking out for lunch....we got out 200 more....

**Names:** Du-Ross, Manidu. **Recent Activities:** S.A.G.E, 1st Football, Focus, Pipes & Drums Sergeant, Henry V. My final year at St. Andrew's College. Wow these years went by too fast. I can actually still remember my first few classes and my first assignments not even thinking about graduating yet. I'd like to thank my parents for all that they've done. Without their support or money to keep me boarding here for 6 years I don't know where I would be. The friends I have made in my life at S.A.C. have helped me through the years and they are a big part of the St. Andrew's experience. There are lots of teachers on staff I'd like to thank as well for keeping the years enjoyable for the most part but there are others I hope I never hear from again. I wish all the best to my peers in their future. It has truly been an incredible 6 years but thankfully there are enough memories.

## Dumani Ross

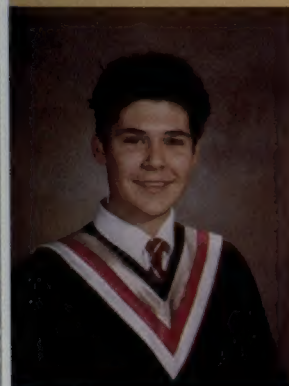

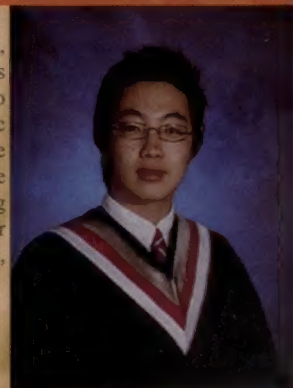

**Nicknames:** rucker, ruggs. **Activities:** cross-country skiing, squash, Jazz Band, Cadet Band, Wind Ensemble, ECOO programming team. I've been here since grade 9 and my time in high school has seen me change in more ways than I can mention. I had to get used to boarding life, the greater workload, and, not least, the lack of girls. The best piece of advice I have for younger students is that if you enjoy doing something but you aren't very good at it, don't give up, because in a relatively short time, even if it's a few years, your efforts will pay off and you'll be glad that you persevered. Thanks go out to my friends for being there for when I needed them, and thank you Mr. B for running experimental physics last year, among other things. It deserves mention because it is by far the most unique course I took in high school, although one of the more challenging. Other than that, I have nothing more to say because this yearbook will speak for itself.

**Activities:** Head of Sifton House, House Captain in Macdonald House, Pipe Sergeant, Peer Tutoring Coordinator, Soccer, Hockey, Swimming, Softball, Table Tennis, basketball. I still accurately remember the first day when I moved into Sifton House. Mr and Mrs. Bedard was welcoming me and I was all nervous and kind of worried. But now I see myself 4 years have been passed since then and ready to go to university. St. Andrew's is a place of full of opportunities, excitements and true friendships. I have experienced not only good academic prospects, but also variety kinds of extra-curricular activities where I unveiled my musical and physical skills. I met so many unforgettable friends from all around the world. My boarding life has been marvellous. I don't think I can list all the wonderful memories that I had while being a boarder. But I know I would never be able to forget the time when Faisal and I had to run down to the school gate at 2 in the morning to pick up our pizza during the exam time in 2003. Matt Mitchell, I truly appreciate your kind-heartedness for being my piping tutor for last 4 years for free!!!. I would also like to thank Mr. Bedard for being such an amazing teacher, housemaster and a friend. Hey Mr. Inglis, You better watch out! because I will rock you in arm wrestle soon! Haha. And thank you for all your supports, it has been a pleasure to work with you. Lastly, I would to thank and mention the class of 2004 for giving me superb memories, which I would never forget. Thank you very much again.

**Nicknames:** Chino, Sibag, Azn Bad Boi, Cyborg, **Saying:** “Hey, Dirtbag”, “Yo Guy”, “Own it”, “Peace” When I first entered the gates of St. Andrew’s in grade 7, I was rather uncertain of what to expect. S.A.C has offered me endless opportunities to excel and be come the person I am. There are many lessons that I learnt during my time at S.A.C; lessons that I will cherish forever. In retrospect, the last 6 years at S.A.C have been the most important and most precious. Although I may never wear a kilt or eat haggis again, I shall never forget the memories I have of S.A.C. I have spent countless hours sweating over Bi, Chem, Phy during all my sleepless nights and now I truly understand the realm of science =P. Firstly, I would like to thank my parents for giving me this opportunity and for supporting me both financially and emotionally. Mom and Dad, thank you for everything you have done for me. I know I am not easy to get along with, but, I love you very much. Although I cannot mention all my teachers, there are few that stand out in my mind whom I would like to express my deepest gratitude to: Mr. Walden, Mr. Perrier, Mr. Jones, Mr. Galajda, Ms. Chasson and Mr. Tsioros (CHEESE!!). Thank you for your wisdom, compassion, and encouragement. My time here wouldn’t have been the same without the help, support, mentorship and guidance of Mrs. Perrier. Thx Mrs. P for being the best advisor!! To my peeps, Chris, Justin, Springer, Simon, Jinho James and all the other ppl I left out, I would not have survived this crazy school life of ours with out you guys watching my back. I will definitely cherish the unique memories from this place. Thanks for the great times everyone. “Life is not measured by the number of breaths you take, but by how many moments take your breath away”

The past four years have flown by, but the memories will last forever. I have experienced so much throughout my years at St. Andrew’s, and each experienced has truly helped me to grow as a person. It took a while for me to realise the opportunity I had been granted to come to this school, and to realise how truly unique and unforgettable the traditions are. I am very thankful that I have not had to travel this journey alone. I would like to thank all of my teachers for their constant efforts to help me progress as a student. To all the boys, you are the ones who made the tough times seem better, thanks for all the laughs and friendships. Most of all, I would like to thank my family, who have made uncountable sacrifices to allow me to come to St. Andrew’s. (Thanks for dragging me out of bed every morning) I hope that I can continue to make you proud.

WOW, 6 years and it’s all over. It’s really hard to believe that after all this time it’s my turn to graduate, I feel very fortunate to have been able to attend St. Andrew’s College since grade 7. In the last 6 years I have been able to experience such amazing things, and meet some amazing people. Whether it be early Jazz Band rehearsals, Cadet training, sports practices, or the countless VERY late nights in Ketchum Auditorium preparing for upcoming shows. I have enjoyed every second I have spent here, and couldn’t begin to thank the many people who have helped me through. Of course the few of us that are left from grade 7: Hussien, Fergs, J Wong, Chris, Si, and the mysterious Adamson who I still know nothing about. Thanks for all the great times. And then there are the few teachers that have influenced not just my time at SAC but my life. Mr. Finlay, Mr. Tsioris, Mr. Jones, Mr. Clements and Mrs. Chasson thanks for the many great years, I’ve had a blast. Last but certainly not least I’d like to thank my family, for without them I would have never been able to enjoy my indescribable time at SAC. Over my time here I have accomplished things which I would have previously thought were impossible. I have met amazing people who could be life-long friends. There is no way to express how I have enjoyed every minute here and do not regret a thing. St. Andrew’s College is such a wonderful place and the saying once an Andean always an Andean, really has true meaning. I will never forget this place, and all the great times I have experienced here.

From the styles of Marsh, to the partying ability of Pig, McCullough and J. Ro, I've learned a lot from you boys and hopefully will continue to pass the your wisdom on to legends to come. To the boys that have come six unforgettable years with me, Beel, T-Birk, Franny, D.V.D., and G-Flow, I think we've seen, heard and done enough to make anyone's toes curl. We have had several key additions over the years, like the Coltrain, Wyn, Vees, and Bey that had jumped on our wagon and enjoyed the journey just as much. I know I am leaving the school in good hands, and have faith that you boys will keep on rocking. Galblatter balls, Calverto, Wilmont, Clitty, just to name a few, you boys have the school in your hands now, make the most of it. The Coronal, Service, Juice, Kimmerer, Shrimp, Butch, and Shields, you guys have help me tremendously along the way, and for this I thank you. To the two boys who I owe more then you'll ever know to, My bros. You guys have paved a golden road for me, and forced me to follow in very large footsteps, You're my best friends and I hope I've done you proud. To man who is my Idol along with my Dad who I've probably put through more stress then you ever deserved, I thank you for always keeping me on track and supporting me 100%, but I think will be bored next year when I am not around to hassle you. And finally to my mom. I don't know anyone else in the world who could of dealt with 3 meatballs for kids so well, and keep a smile on her face almost the whole time. Your everything a kid could ask for and I thank you and dad for everything again.

Time is short. And now I have to leave this place.

Well, no one has ever said that it is going to be the perfect heaven, but, out of true honesty, there is no place like this.

St. Andrew's is definitely my best moment.

I have lived a short but fruitful life here with all my heart and soul, and I have no regrets.

Farewell, Flavelle, the miraculous residence with 60 odd brothers.

Farewell, Simon, my best ever roommate.

Farewell, Class of 2004, the class of support and comradeship. Farewell, my SAC.

There are a lot of lessons I have learned here at SAC. I entered the college as a lean, unsuspecting child, with a lack of goals and aspirations and I leave now as a man, still rather lean but resolute in thought and action, and with thousands of life lessons and skills implanted inside me. My time here has been absolutely remarkable, I must say, thanks in whole to the people here. **Producer.** First of all, I must say thanks to my parents for giving me a chance to enjoy the high school life in SAC. I will never forget my past three years at SAC because of many valuable experiences. The primary experience in SAC is playing hard-rocking sports such as football and rugby. Playing final QFSAA football game in Skydome will indelible in my mind forever. Thanks to Mr. Shrimpton, Mr. Shields and Mr. Butcher for encouraging and teaching me to play hard-rocking sports. The next thing that I will remember is my ER life at SAC. With the competition of other lazy borders, I guess me and my roommate's (Jason Kim) ERs (Early Running) were always getting close to the top. Running around the quad with breathing fresh morning air..... I will NEVER forget. In the future, I will always wake up with the memory of running SAC quad..... Finally I want to say thanks to Mr. and Mrs. Perrier to take care of me about three years. Also, I want to say thanks to all the friends and teachers because I could not enjoy my life at SAC without them. GOOD LUCK to EVERYONE!!

**F**lavelle came into the 2003-2004 campaign under brand new leadership. Long time serving house master Courtney Shrimpton had moved on to director of Student Life, and assistant house master Mr. Brian McCue stepped into the top job, along with Mr. Mark Burton. I remember in our opening house meeting, Mr. McCue gave the speech to all the boys new and old that we are to abide by our HEALTHY moto; healthy living, healthy community, healthy studying, and healthy eating. "At the heart of building our Healthy Community was task of creating an atmosphere that boys feel comfortable in and look forward to coming to after a long day at school. Our 'home away from home' philosophy guided much of our decision making whether it was deciding what house events to do, detailing with house discipline, building relationships between one another, and treating each other with respect in all ways."

There's many things that make Flavelle a special place. Things that we will all remember for the rest of our lives. Flavelle was filled with diversity and character. We had a lot of great personalities in our house, Whether it be our mascot Ben Tang chopping up villains with his stellar samurai moves, the Korean contingent paying their respects to Godfather Patrick Kim, or Nick Sachewsky going around study with a bat ensuring that every Flavellian was in top academic standing. And who can forget our honorary Flavellian Matt Donko SHHH, don't tell McCue that he's sleeping over.

But in all seriousness a house is only as good as what people make of it, and the guys who lived in Flavelle this year made it one hell of a house. We brought back Bling Bling house. I don't think anyone has been prouder to be a Flavellian than myself, watching my house mates succeed in all aspects of St. Andrews life. From the Golden Horseshoe Bowl, the grads being super safety Dave McNabb, super jacked Nick Sachewsky, iron man Charles Abbott, afro man Dumani Ross, and I think I have game Francis David-Coderre. The grads confident that Thaine Carter, Robert Mackay, Robbie England, (all three of which are prefects next year), Malek Smith, Anton Bennett and the rest of our Flavellians who plan on representing us on the grid iron successfully. To the school play Henry V, which included lead actors I'm to sexy for the mirror Arnold Al-Aadhamhi, proud member of team NAH Zameer Pirani, and Mr. behind the scenes Kent Fu.

Despite the variety of interests, ages, and backgrounds, we were all able to put it aside to make everyone feel at home.

In the end, it all comes back to the family atmosphere so essential to boarding life. Flavelle has enjoyed a special warmth and this year was certainly no different: the hot cider by the fire, Howard the Rabbit, the movies in the theatre, or the special character that each person brought to the house. To the Flavellians my junior, to all the grads, Mr. McCue, and Mr. Burton thanks for making this year the best year of my life.

House Master - Jamie Inglis

Sifton house is the last of the original boarding houses at St. Andrew's College; for that reason, Sifton house has always been considered as just a extra small boarding house which is located between two other boarding houses. However, the year 2003~2004 has been the turning point for Sifton house to be one of the most outstanding houses. The members of Sifton house have excelled and contributed leadership not only in academics, but also plenty numbers of extra-curricular activities. Sifton achieved second highest overall average among other houses, which normally does not happen among boarding houses. Sifton house also turned out several talented athletes who participated in many CISAA championships, including varsity football winning the Golden Horseshoe Bowl championship. Having a new housemaster could have been a tough time for the house settling in; however, Mr. Jamie Inglis, who became a first time boarding housemaster after spending several years of being dayboy housemaster, he certainly has contributed a lot in Sifton house with incredible support from Mr. Keith "Razer" Ramon. It includes not only various social events such as barbeques, root beer chugging competitions, fear factors and pizza parties, but also administrative events where selected members from Sifton house gather around and suggest their inputs on any issues to create much more safe, comfortable and fun boarding environment. Further leadership and positive guidance came from 2 prefects - Faisal Ratansi, Tim Birkett as well as our Head of House Eugene Ryu supported by 3 assistant heads of house - Andre Fernandez, Tomi Jun and Matthew Middleton.

The 2003-04 academic year was very special and successful for those in Memorial House. From the beginning, the Perriers and the senior leadership knew that Memorial had all the necessary elements to make great things happen. We were a motivated and multi-talented group, all with unique personalities and perspectives, and this combined with a bunch of experienced seniors, sharing the common goal of making their last year at St. Andrew's a memorable one, had Memorial House rocking.

Throughout the year Memorial was humming with several activities and of course its fine after study cuisine. It didn't take too long for our newcomers to adjust to the fast-paced life and for the more experienced boys to get involved and make significant contributions while focusing on academics too.

From day one, everyone took great pride in being part of Memorial House. The boys understood that for our community to flourish, everyone had to bend for the common good. The fact that most applied this basic principle enabled us to have a positive and comfortable environment, commonly referred to as "home away from home", almost instantly.

## MEMORIAL HOUSE

## Outreach • Community Service • Debating • Christian Fellowship

Notable activities included the Mongolian Grill, The Keg, several House barbecues, table hockey and indoor soccer tournaments, and the "hunt" for Jinho. Boarding life, especially in Memorial House, is much more than trips and activities. This House is its traditions, its special environment and its spirit. Winning the "Best Company" award for the second straight year was a major accomplishment but is also a strong testimonial to our commitment and spirit. The leadership tandem of Captain Taylor Irving and Master Warrant Officer L-D Lord ensured that every cadet in the Memorial House ranks understood and respected the importance of representing the Company's reputation in front of the whole school. On the final training day, Memorial Company was the only squad dressed in kilted order with complete attendance. This extra-effort combined with our solid drill skills made the difference.

This year was indeed a success for Memorial. We respected each other, we took great pride in our community, and we lived unforgettable experiences together. When people share common goals, great things can happen, and they did happen in 2003-04.

Louis-David Lord

## BUCHANAN HOUSE

**T**his year, as usual, was a very successful year for Smith House. Our accomplishments included: Most Money Raised for the Terry Fox Run, 1st Overall in the Cross Country Run, Highest Academic Average and 2nd Over all in Clan Fest. As you can see we had many highlights this year. The only negative aspect of the year was learning that our beloved House Master, Mr. Kitagawa, will not be returning as our House Master next September. It is because of him that Smith House has become the envy of the other Houses. Next year we hope to gain another strong leader and continue our successful domination of school events.

**T**his year was a year of growth for Ramsey house, despite a rather poor showing in house events we always came out with a lot of heart. Under the leadership of Mr. Shields and our heads of house, Shawn Jolly and Hussein Amarshi we always came out in numbers and were one of the best Cadet Houses. We hope to experience the same sort of heart next year with hopefully better results.

The Prefects chose as the theme for this school year "Community" and with that in mind Laidlaw House created opportunities for its members to participate in activities that reflected this ideal. We encouraged our members to actively involve themselves in inter-house competitions, community building events and House functions. We hoped that by attending chapel, meeting extra-curricular activities and adhering to our standard of deportment that students would develop pride for their school and clan. On the whole the members of Laidlaw worked hard, played hard and enjoyed life at SAC. Lead by Andrew Carnovale and Jeremy King, our co-Heads of House, Robertson Clan made strides in the right direction finishing 3<sup>rd</sup> for the Housser Cup which goes to the House with the most Clan points. There is strong leadership in this group and we expect to make a realistic run for the Cup next year. Good luck next year Grads. - SK

This year, the Christian Fellowship strengthened itself through the reliance on God. With weekly gatherings on Monday nights consisting of bible studies, special speakers, prayer meetings, discussions, movie nights and sports nights, both the friendship within the fellowship and our relationship with God grew as the year progressed. Although we only presented a few bible lessons and plays this year in chapel, we will surely continue to entertain the SAC community next year. We want to thank Mr. Roffey for his encouragements and contributions towards the fellowship and as well the graduates for all their help and support this year and previous years. Good luck on your spiritual journeys in the future.

This year is the 10th year of St. Andrew's involvement in DECA. I am often asked what DECA is. The short answer is it is a co-curricular educational activity for students with interests in marketing, management and entrepreneurship. The club helps students develop skills and competencies for marketing and business careers, build self-confidence, and experience leadership. There are currently over 63 active chapters across the province with over 1500 members participating.

The cornerstone of DECA is its **Competitive Events Program**, which is available on local, regional, provincial and international conference levels. These competitions test competence in specific occupational skills, leadership development and management training. They also include basic scholastic and communication skills, human relations and employability skills testing.

At this year's Provincial competitions we had 12 students competing in individual events. We had a number of successes, winning 6 ribbons and 1 medal. Congratulations to Rahim Damji for his top ten finish in his category after completion of two oral and a written event. Special thanks to Justin Wong for his outstanding leadership and commitment as President of our DECA chapter.

The St. Andrew's Duke of Edinburgh's Award program had another active year in 2003-2004 with canoeing, backpacking, snowshoeing and scuba diving expeditions. Students from Grades 9-12 travelled throughout Ontario to find terrain, climate conditions and wilderness settings suitable to the level of challenge acceptable to each group. It is very much a program of challenge by choice. Thereby, the students themselves gauge the level of challenge they wish to undertake. Having said that, the students are well trained by a team of experienced and knowledgeable faculty facilitators. The program therefore provides a safe and comfortable environment for participants to extend personal boundaries and take risks. This year we had two Gold Level winners in Ryan Bryce ('05) and Jared Leslie ('05). This is a significant accomplishment which places these young men among an elite group of achievers around the world. We also had 5 Silver Award winners and 12 Bronze winners. All signs indicate a strong and healthy Duke of Ed. program for years to come.

**T**he Music department has had an exceptional year! From our prayer circle on Thanksgiving to Remembrance Day, the Music Ensembles were a “force to be reckoned with”. For the first time in a very long time our exceptional Carol service was moved to the Yorkminster Baptist Church where the sounds of the bands and massed school choir set the mood for the holiday season. From the Pep Band at the Skydome cheering on our Football team, the Middle School Pep Band cheering on our hockey team at MacPherson, music was there to inspire true SAC spirit. it seemed that every school event was supported by our Music. The highlight of course this year was the standing ovation as our Pipes and Drums opened the CISMF concert with a record number of boys performing with on the Roy Thompson Hall stage. A first this year and a new tradition at St. Andrew's is the Wind Ensemble performing on Prize day as a tribute to our Grads. Our motto in the Department is "Stay Tuned".

**PRIZE DAY**

Mr. Chairman; Aurora Mayor Tim Jones; Members of the Board of Governors; Trustees of the St. Andrew's College Foundation; Members of the Faculty and Staff; Members of the Graduating Class of 2004; Honoured Guests; Ladies & Gentlemen; It is my pleasure to welcome you to this 105<sup>th</sup> Prize Day at St. Andrew's College. Prize Day is the largest and most significant event of the school year and I am delighted to see that so many parents have "cleared" their schedules in order to be with their sons on this special occasion. I could make my remarks this afternoon extremely short, by simply saying, "This has been a great year. Have a nice summer." But I can't. If it truly has been a great year, I must explain why. In contrast to last year, there was no construction on campus. The four components that represent Phase I of the Campus Master Plan, Rogers Hall, The Yuill Family Gymnasium, the Wirth Art Centre, and the Gallery were finished on-time and on-budget. These dynamic new facilities have truly transformed the school, and made it an even more inspirational place in which to learn. The Middle School boys and their teachers acclimatized very quickly to beautiful Rogers Hall. We can say now that we do justice to the term: "school-within-a-school". Having a second double gymnasium allowed us to host more volleyball, basketball and badminton tournaments and provided much improved practice space for our fall, winter and intramural sports. The Gallery, initially an intimidating space without any furniture, has become, what we intended it to become, a new heart for the campus. We are all very appreciative of the generous donation from the SAC Ladies Guild that allowed us to purchase comfortable, leather furniture for the Gallery. It has become a place where Advisory sessions can take place, student meetings, or just a nice place to relax. Everyone who visits St. Andrew's comments positively on this magnificent new space. The Wirth Art Centre has allowed Mr. Paolini's, Mr. Kimmerer's and Ms. Berman's students to expand their artistic abilities. SAC is already known for its remarkable student artists, in particular, "The Group of Five" - Old boys from the classes of '87, '88 & '89 Gord Kemp, Paul Mantrop, Steve McDonald, Chris Roberts and Rob Saley, but this facility will attract and inspire future artists. Please take a moment today to view the amazing work of Tomi Jun, this year's Headmaster's Art Prize winner in the Gallery after this ceremony. For the past three years, the School has selected and purchased an outstanding art work by a graduating student. We are very proud of our permanent student art collection. We realize that these CMP Phase I projects were ambitious in scope. We do, however, want, in time, to improve the Drama, Music and Science facilities at the school. As well, the Campus Master Plan has identified numerous athletic facility improvements which could be made to the Upper Fields. SAC boys and their families deserve the best facilities possible, so, we will be working hard to bring the next phase of the CMP to reality.

Shifting focus slightly, I would like to speak briefly on the theme for this school year - "community". The New Oxford Dictionary defines the term as, "a body of people unified by common interests". Can you think of a better living example of this definition than the Andrean community? Our community is one that dedicates itself to a common mission, the development of the complete man, the well-rounded citizen. Our community has the largest number of Faculty living on campus than any other boarding school in Canada. Why? Our teachers live their work. They believe firmly in the concept of a residential community and this rubs off on everyone; our community is made up of mothers who contribute hundreds of volunteer hours improving the lives of SAC boys; the Andrean community is one that supports its members during trying times; ours is a community that develops life-long friendships. Our community is made up of many different nationalities, but we are all Andreans.

These are some of the reasons why the school continues to flourish 105 years after its founding in 1899.

As for this year: From the successful Student Leadership "Retreat" at Camp Borden in early September to the CAIS Student Leadership Conference hosted by S.A.C. in May, Faculty and students have worked together on school improvement initiatives and shared them with independent schools from across Canada. From the synthetic turf of Skydome, to the glistening ski slopes of Blue Mountain, to the lush grass of the First rugby field, S.A.C. coaches and their skilled athletes took home a ton of championship silverware this year. Watching Billy Burke gracefully shrug off defensive line-men, Adam Ford destroy opposing running backs, Jordan Cyr deftly deke defencemen, and Tim Birkett glide through massive rugby forwards was a great thrill.

First Football's second CISAA & Golden Horseshoe championship in the last three years got the year off to a fine start; then the Alpine skiers took over, winning their third CISAA championship in a row and following up with an OFSAA championship in both slalom and giant slalom. First rugby capped a fabulous year in athletics winning their second straight championship hammering Ridley College at Ridley 27-5. First basketball and Sr. Swimming shouldn't be overlooked for they were strong teams who deserved a better fate than second place finishes in CISAA. Other athletic successes this year included CISAA championships in squash at the U16 level; and hockey, badminton and lacrosse at the U14 level.

There was much achievement and excitement off the fields. From the spectacular stage of Roy Thompson Hall, to the cold concrete surface of Aurora CC Rink #2 our musicians impressed hundreds of onlookers. Our Pipers and Drummers, so distinctive in their magnificent attire, stirred the emotions of Old Boys who returned for the 99<sup>th</sup> Cadet Inspection, the Church Parade, Cadets in Concert and the D-Day Parade at Queen's Park. The boys worked harder than ever in the cadet program this year, now a provincially recognized high school credit. This extra effort will pay dividends next year when the Highland Cadet Corps celebrates its 100<sup>th</sup> anniversary. And dear old Ketchum Auditorium hosted another Scouler spectacular, Henry V and several entertaining Focus plays.

And lest I forget our primary purpose, academic preparation for university, let me highlight the academic accomplishments of the Class of 2004: The class is made up of 103 boys - 56 of them complete the year with averages of 80% or higher; collectively they received 489 university/college acceptances, 117 were outside of Ontario. On average, each boy received 4.75 acceptances. 99% of the class has been accepted to a university or college next year.

Tomi Jun has won one of the 37 National Scholarships offered by Brown University in Rhode Island - \$ 120,160 over the course of 4 years. Louis-David Lord has his pick of scholarships from Bowdoin College or Rensselaer Polytechnic Institute. Simon Lau has won a major entrance scholarship to UBC, Malcolm O'Hare has won the Nortel Networks Scholarship to Carleton University, Terry Belgrave, Jordan Cyr, David del Zotto and Justin Wong have won entrance scholarships to York University. Our Head Prefect, Faisal Ratansi has received a significant award from Dartmouth, as has Shawn Jolly and Charles Lai to Cornell. Due to their Piping and Academic prowess, Matt Mitchell & Eugene Ryu have received scholarships to Simon Fraser and Carnegie-Mellon. In total, the class has been awarded over \$1.1 million dollars to continue their studies at the post-secondary level. Gentlemen, well done!!

Other notable academic successes include, Simon Ruggier's & Tomi Jun's brilliant result on the Univ. of Waterloo's Sir Isaac Newton Physics Contest. They placed in the 99<sup>th</sup> and 98<sup>th</sup> percentile respectively that included 3478 top physics students from across Canada and around the world. Darrin Henein, 78<sup>th</sup> percentile, Rob McKay, 72<sup>nd</sup> and Alexey Altschuller, 65<sup>th</sup> also distinguished themselves on the SAC team. Bryn Fell has been awarded a prestigious CAIS Writing Prize in the Research category. His paper will be published in a journal which will be sent to all CAIS schools in September. Sang-Ho Yoon, Tomi Jun, Aldis Sung, Terry Ngai, Wallace Lau and Alexander Chin distinguished themselves on numerous Canadian Mathematics League contests while Kevin Chai in the grade 10 Cayley Math Contest finished 78<sup>th</sup> out of 20, 912 students. I think we have another Chris Chui here.

Today, we say goodbye to several members of the Faculty and Staff: Gregory Dominato - A key member of the Leadership Team for seven years, he will be leaving St. Andrew's at the end of this month to assume a teaching position at Bayview Glen. Having commuted from Toronto for over 10 years, and destroyed three cars in the process, Gregory felt it was time to find a job closer to where he lives. We will miss him immensely. His ability to solve complex logistical problems has been a valuable resource to the administration and faculty. He devised our Double Cohort enrollment strategy, planned the allocation of faculty and classrooms during this process, and single-handedly planned faculty and student timetables. When the school couldn't find a high quality administrative computer program to suit its needs, Gregory created one, the legendary SAC Central which we all depend on heavily. Gregory, thank you for your huge contribution to St. Andrew's College over the past 14 years. We wish you every success in the future.

Jeff McGee - Mike Hanson, the Director of Middle School paid tribute to Jeff McGee yesterday at the Middle School Closing. Jeff leaves the music department at St. Andrew's for a similar position at Holy Trinity School in Richmond Hill. I've known Jeff for over 20 years going back to our teaching days at T.C.S. His quick wit and great sense of humour have contributed to his popularity and success as a teacher. His ability to play a wide range of musical instruments and coach whatever and wherever has placed huge demands on his time, particularly during the months of February and May. Please join me in wishing Jeff McGee well in his new position.

Sandra Scott - retires this month after twenty years in the Alumni and Advancement Office. She has been the backbone of THE ANDREAN magazine, and has played a very important role in its development from an 8 page leaflet to the finest school publication anywhere. We wish Sandra and her husband Ian every good wish for their retirement.

Also leaving us this year are Tilda Robson, an inspiring Upper School English teacher, Christina Fogg who has been an enthusiastic and helpful Resident Don in Mac House this year and Marie Habib who has worked tirelessly at the Middle School computer "Help" desk. We thank them for their efforts on behalf of the boys.

On leave next year are:

Sabrina D'Angelo - maternity leave

Al Dunford - leave-of-absence

In early April, we welcomed Scott Bryk, Class of 1990 to the Advancement Office.

Scott was a Prefect and three First Team sports athlete before entering UBC where he obtained his Bachelor of Science degree. For the past six years he has been employed in the investment business with ScotiaMcLeod in Vancouver. He is wonderful addition to the SAC staff and I hope you will have the opportunity to meet him today.

David Galajda has been appointed Director of Residence. He will oversee the operation and functioning of the school's boarding community, work with housemasters to ensure the ideal functioning of residential life and support for the boys, establish a residential curriculum in all

houses and contribute to the leadership of the school through participation on the Leadership Team. In closing, I would like to thank Brian Armstrong and the rest of the Board of Governors for their tireless efforts on behalf of this wonderful institution; my colleagues on the Leadership Team for their initiative and support this year: Jim Herder, Beth McKay, Kevin McHenry, Gregory Dominato, Greg Reid, Courtenay Shrimpton, Michael Roy, Mike Hanson, Steve Rush and John Walden, and I would like John to come up to receive his 25 year distinguished service pin. Diane Austin, Terry Kerr and Tony Myrans, all of whom are not with us today, will be receiving their 25 year pins this year. Special thanks to Gayle Petri, my indispensable assistant, for keeping me on track throughout the year. To the Faculty & Staff, thank you for making this one of the best years in some time. Particular praise should go to Marie Pileci & Gregory Dominato, for their hard work over several weeks preparing for this event. Have a safe and enjoyable summer. I look forward to seeing you at the tea in the Gallery after this ceremony. - Ted Staunton

## SCHOOL AWARDS

# Middle School

2004

*Middle School*

I would like to take this opportunity to reflect upon some of the incredible activities that have kept the MS students quite busy over the past year at St. Andrew's. Certainly the highlight for all of us had to be our move to Rogers Hall for the opening of the school year. I had many nightmares last August of moving desks into the classrooms as part of the motion unit of the Grade 6 Science course or of painting the walls as the first unit of the Grade 7 Visual Arts course. However, my fears were unfounded as the building was ready for our first day and we were off to a successful start to the year. The construction of Rogers Hall and the Yuill Gymnasium was the result of a strategic initiative that recognized the unique needs of Middle School boys and the subsequent need for them to have their own space in which they could flourish. The sense of community amongst the boys and the Middle School faculty has improved dramatically and has allowed us to support your sons even more effectively. With this new facility our potential for developing the complete young man in mind, body, heart and spirit is unlimited. I would like to take this opportunity to thank our Board of Governors, Mr. Herder and our Headmaster for the initiative and energy that they put into making this dream a reality for the Middle School boys here today and for those in the future.

This year we welcomed over 94 new students to the Middle School as we grew to a total of 137 boys in 8 classes. This meant many, many, many questions to be answered about lunch routines, washrooms, daily schedules, breakfast, sports practice times, laptop rules, vending machines, outdoor rinks, gymnasium availability, snacks, casual dress days and the odd question about math, science and history.

The new laptop program was also introduced this past year and it was like Christmas in September watching the boys receive their machines on the opening day. They all had to pass a short test before they could have the password to their laptop and I had never seen them work so hard to be successful on that evaluation. Both the boys and faculty have learned much from the laptop experience and like any new initiative, we are excited by some of the refinements that we will be making to allow this teaching tool to become even more effective.

The school year was full of new opportunities for the boys as they became used to the routines and many threw themselves into the athletics program with much vigour. Our students were involved in a total of 20 school teams in 14 different sports and I was impressed by the high degree of skill and sportsmanship shown by all. We sent Under 13 teams to National Tournaments in both soccer and basketball and our Under 15 Soccer, Under 14 Hockey, Under 14 Badminton and Under 14 Lacrosse all secured CISAA championships during the past year. Congratulations to those boys who rose to the challenge and were met with success. Similarly much praise must go to our other teams where winning did not come easily. This is a real test of character as they learn to face situations where success had to be measured in other ways.

We continue to take pride in our Tuesday Arts program that ran from September to March. This program allows drama, music, debate and visual arts to have some prime time for the boys to engage in this very important part of the S.A.C. mission. I am most pleased that for the first time on a Prize Day that a Middle School band is performing the National Anthem and School Hymn. Similarly our piping and drumming program is developing young men at an earlier age than ever before which has allowed Mark Jenkins, only in his second year at the school to join the Upper School Pipes and Drum Band. Our Visual Arts programme continues to challenge the students in many different media and last month the boys were treated to an Arts afternoon to hone their skills in a large range of artistic endeavours. My thanks to our program leaders Mrs. Berman, Mrs. D'Angelo, Mr. Kyle, Mr. McGee and Mr. McGillivray for their initiative and organization of these invaluable programs.

On the academic front, the Middle School boys were actively engaged in representing their school in many competitions. All of our grade 8s wrote the Canadian Scholastic Achievement League contest which tests their understanding of general knowledge in many different disciplines. Every student wrote at least one mathematics contest during the school year with William Hyung securing the school prize in an unprecedented four contests in one year. Selected grade 7 and 8 students represented the school at the Independent Schools Junior Science Olympics at Haverhill College in April while on the same day two teams were busy at the Independent Schools Mathematics Olympiad hosted by St. Andrew's. We were also very active in the public speaking domain as Andrew Pitkin competed at the Junior School Public Speaking contest at Royal St. George's College while Omar Nelson and Nick Makos represented SAC at the Middle School Public Speaking contest at The Sterling Hall School.

Community service continues to make inroads as our boys are reaching out and offering their time and skills to those beyond our gates. Special thanks to Mr. Healy for offering a community service opportunity for the grade 6 boys this past December. Congratulations to Perry Thomson and Kent Leslie for their ongoing commitment and dedication to this program.

Our clan system was rejuvenated this year under the leadership of Mr. Inglis and we began to have weekly competitions in order to raise spirit amongst the boys. It was very encouraging to watch as over 85% of the boys applied for their clan colours. This is really the true indicator of how much the boys have become engaged in their school and all that it has to offer. To those wearing the bronze, silver and gold clan pins, you should be most proud of your efforts and continue on a path to even further success.

All of these programs are a testament to a very patient and conscientious group of educators that truly value this developmental age of your son's life. They continue to dialogue with each other to reassess and continually improve upon their classroom practice so as to offer your son the richest experience possible. This is a fascinating age group to work with, due to the large variety of backgrounds, abilities and behaviours. As you know their energy is endless and while this can drive any parent or teacher to distraction, I know that we have the opportunity to help them develop at a time when they are desperately seeking boundaries and limits. In a world that offers role models that sometimes seem to have forgotten the core values of humanity, schools like St. Andrew's can come to the rescue and allow your son to develop and reinforce these human values. Our faculty continue to support our students in their growth and deliver a program, which ensures that he is well prepared for success in the Upper School and beyond.

A special thanks to all of our friends from Mexico, Korea, Barbados, Japan, Hong Kong and Taiwan who add so much to the Andrean community. I shall not soon forget speaking to most of you about how cold it had become in late October only knowing that you had yet to even feel the worst of our unique Canadian climate. A special mention should be made of John Kim who worked with an entirely new language and has made tremendous progress in such a short time. Thank-you to Mr. Galajda, Mr. Stewart, Mr. Day and Ms. Fogg for their efforts to turn this "home away from home" into a safe and enjoyable environment for our Mac House boys.

At St. Andrew's College, we are fortunate that we still have an opportunity of watching the majority of our students continue to grow and mature after they leave the Middle School and I for one will watch with much hope and excitement for you in the years to come. However, I will miss the close bonds that were established with you through your advisory, chapel and in the classrooms. I hope that you will take fond memories of Middle School with you and I wish you much success in your future studies.

Boys, we did it! We completed the first ever Middle School section in the Review's history. Although the students enjoyed experimenting with Adobe Photoshop Elements, when it came down to actually completing a page for the yearbook and following guidelines and including all necessary information their enthusiasm died down. We encountered many obstacles, mainly slow computers and printers due to the entire class downloading all of the images at the same time or perhaps boys we had other programs running in the background? However with much support and the threat of losing marks in their Visual Arts course, many wonderfully creative pages were submitted. I would like to thank all of the grade 7 and 8 students for their hard work and perseverance. Their layouts were remarkable and it made the choice very difficult as to which pages to include. I have clearly given each of these boys credit for their work; their names appear at the bottom of their pages. I look forward to seeing their faces when they see the book in print next fall. Thanks for so many wonderful memories this past year!

**Front Row:** Kent Leslie, Timothy Asbury, Andre Goyo, Devesh Melwani, Nico Fattore, Devin Healy, Joshua Si, Mr. D. Kyle, Esq.

MIP stands for Most Improved Player: to Kent Leslie for his thoughtful and fearless defensive work. Our MVP award could also have gone to any one of a dozen players. However, in the 7 games we scored in, one player scored in 6 of them. Many of these were from free kicks well outside the opponents 18 yard box, where he stepped up to the ball and let go a laser guided rocket to the nether regions of the goalmouth. No goalie ever stood a chance. For his keen marksmanship, and overall effort, Vincent Pulla has been awarded our MVP. Thanks to all players from Coach Kyle for one terrific but all too short season!

**Front Row:** Clark Rabbitt, Elydon Calvert, Jacob Macdonald, Alex Culp, Michael Anderson, Mark Jenkins, Tyler Aron

The team's Most Improved Player award goes to a player who is one of the most coachable young players that I have ever encountered. He took pride in always looking to better his skills and placed high expectations upon himself so as to not let his teammates down. This year's Most Improved Player Award goes to Mark Jenkins.

The team's Most Valuable Player award goes to a player who continues to play with strength, finesse and composure at all times. He, more than any other player, allowed the rest of his teammates to take risks knowing that he would always be there to support and cover for them. For the second year in a row, the Most Valuable Player is awarded to Alex Culp.

The U14 soccer team was made up of a very diverse group of 19 boys. We had players from different grades and many different cultures. At the beginning of the season, we had ability levels ranging from beginner to experienced players with dazzling skills. All of these players though, were able to come together and play as a team. I believe they were able to do this for 3 main reasons; 1) they all loved the game, 2) they all respected each other and got along, and 3) they all seemed to share this wonderful sense of humour that allowed them to enjoy themselves no matter what the situation. We had a very successful season, finishing 12 and 2, and scoring more goals than any other team in the league except for Crescent School which eventually went on to win the championship. Finally, I want to say thank you to the boys for an exciting and fun season.

**Front Row:** Mr. J. McGee, Esq., Ryan Cole, Andrew Merkel, Zohair Rahman, William Hyung, Mr. A. Wenk, Esq.

The Junior Cross Country team worked exceedingly hard throughout the season. Although their podium finishes were few, the dedicated hard work that each member put forth during each training session and every race was truly outstanding. The team was comprised of a unique group of runners. The quiet hard working mid pack runners, William Hyung, Andrew Merkel, Mohammed Rahman and Jamie Symmes, improved at every race and ran their very best every time they laced up their shoes. The team leaders, Jeff Kay, Ryan Cole and Bryn Jones gave the team some great top ten results, but were never able to place on the podium. The true heart of the team were the turtles, Ted Ha and Hamilton Petropolous who never, I repeat never stopped and kept going until the finish line.

**MVP:** Jeff Kay

# U14 VOLLEYBALL

Our goal this year was not just to select a team of the most talent or athletic players but to provide an opportunity to those players who needed more than one season to develop their skills before entering into competitive play.

For this reason the U14 team this year was able to keep all those who tried out.

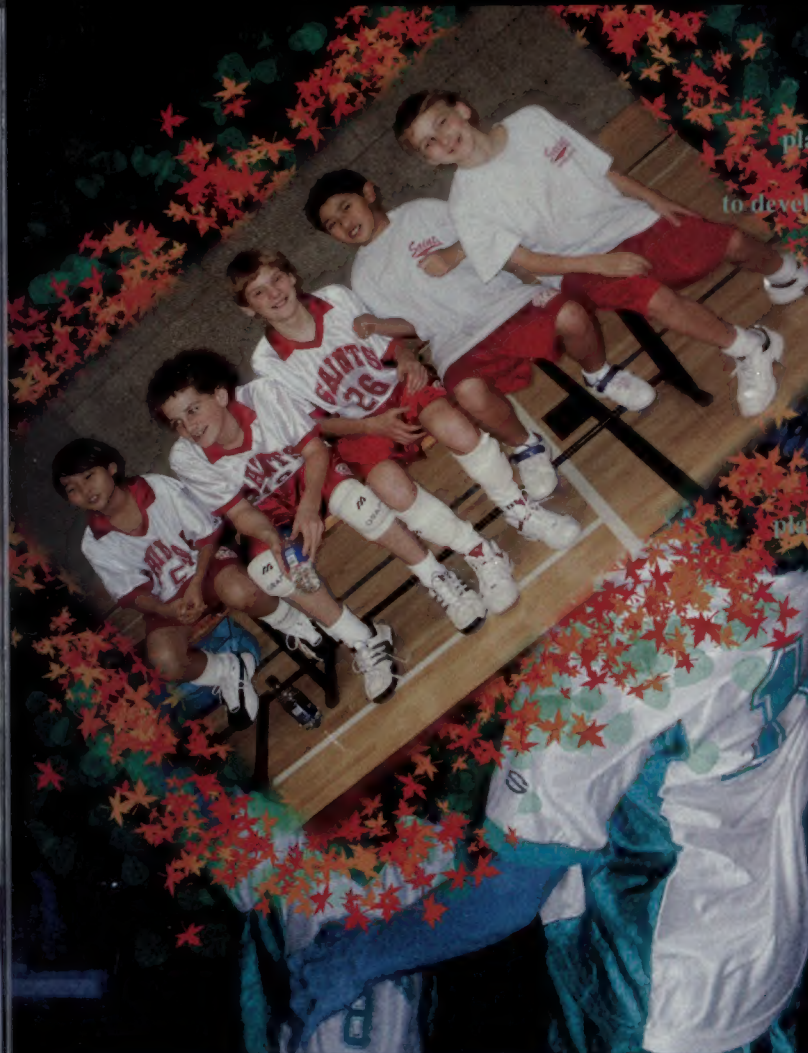

This year's team had talent, enthusiasm and determination.

Time after time they turned matches that were near losses into wins and ended up with a second place finish this season quite an accomplishment for a young, inexperienced team with only one returning player from last year. The MVP award goes to a player whose athleticism and talent made him a dominant force on our team.

He demonstrated strength and agility on the court and was able to play most positions well. This player certainly has a natural talent for volleyball.

The MVP award this year goes to Jake Carrick. The MIP award goes to a player who last year spent most of his game time on the bench but whose skill this year as our primary setter made him indispensable.

He was the leader of our team and mascot of all our games. This year's MIP goes to Praveer Melwani.

We started the season this year with about 4 players who had any real basketball experience. The other 10 guys were as new to playing basketball as I was to coaching it. But this actually made the season more interesting, because we were really able to watch each other improve. We developed into a strong team and finished with a respectable record of 8-11.

Our Most Improved Player came to us with a great set of skills – from hockey, but with limited experience in basketball. However, his coordination and aggression transferred nicely to basketball, and he became a force with his steals and rebounds. The MIP award goes to Mike Hergott.

Our Most Valuable Player came to us with a solid set of skills and became known for his strong dunks to the hoop. He led the team in scoring in almost all of our games and demonstrated the potential to be a leader on the court. The MVP award goes to Alex Moss.

Parents & fans often remarked on the teams' improvement throughout the season. Andrew, Taylor, and Jamie all made tremendous strides. However, one player waited until the last few games to show us what a keen student of the game he had become, as his new scoring touch fortunately propelled us into the play-offs. I'd like to congratulate Mike Goitanich for winning our MIP award. We can thank one boy who (for the first 2 months of the season) was the reason we won any of our games, as he so often scored more points than all other players combined. Later, as his teammates' skills improved, and as they expected more time with the ball, he found other ways to contribute, and became a most well-rounded leader on the court. Congratulations to Drake McCleave for being voted MVP.

I just wanted to take a moment and acknowledge all those who played U14 hockey over these past five years...many of you were the first to congratulate the current players and coaches after our Championship win... this victory was for 'all of us' and we thank all of you on your S.A.C. pride, spirit and enthusiasm!

Coaching U14 squash was certainly a rewarding and surprising experience. I was fortunate to witness the team fine-tune their skill level week after week, and to watch each member put their intelligent game plan into action on the court. Most importantly, though, were the meaningful friendships that developed and matured throughout the season. During every game, the boys came together in support and trust of one another. I am proud to say that this team consisting of Bryn Jones, Spiros Thomas, Sean Ennis, Andrew Chong, Thomas Tripodi, Will Harris, Scott Christopher, Carlo Caro, Devin Cassidy, Jacob MacDonald, and Praveer and Devesh Melwani came in a very close second in the overall CISAA Championships. Please congratulate Praveer Melwani, Most Valuable Player, and Spiros Thomas, Most Improved Player, as voted by their fellow teammates. Congratulations, boys, on a fabulous season!

The Jr. Swim team consisted of Dylan Baker (captain), Alistair Man, Seungwan Ha (better known as Ted), Joe Park, Nico Fattore, Hidetaka Ishi, Jeffery Chang, Paolo Griffen, Jon Balcom, Omar Nelson, Seungwan Ha, and Dan Eherli. These 12 swimmers worked together as a team both at practice as well as during meets. The MVP choice for this season is a swimmer who not only scored the most points for the team, but also knows the sport extremely well and helped out his fellow swimmers whenever the occasion called. Congratulations to the teams favourite anchor and MVP- Omar Nelson. The MIP for the season is a swimmer who improved more than any swimmer I have coached in a single season. He learned to dive, improved his skills and speed and by the end of the season he managed to make it to the bus on time, with all of his equipment. Congratulations to Joe Park – he truly deserves to the award of MIP.

The MVP could have went to any one of three or four players. The strong running of James Butler, the determined Taylor Browne, the hard nosed play of Jeff Kay. However, this years MVP goes to a player who at all levels, from U14 to Firsts, is the unsung hero for doing all the little things that make others look good, the scrum half... this years MVP Graydon Calvert.

The most exciting aspect of this year was the creation of a new team for the lacrosse program. Working with Middle School athletes held its own rewards for both Coach Roffey and myself and we were pleased with the level of commitment from most of the players. With only 3 teams from the independent league Mr Reid found a couple of outside community teams to fill out the schedule for us. Our first outing at UCC, having only had one formal practice, gave us our first two wins and a level of anticipation for the rest of the season. In the final game of the Tri-meet held at SAC we won our first championship in the dying seconds of the game against SMC, 8-7. Our MIP player is Jose Conde and our MVP is Jason Wilson. Congratulations to all players.

Congratulations, U14 Badminton team!! After an undefeated season, we brought the U14 championship title back to S.A.C. yesterday. The team consisted of 12 players, 6 grade 6 students: Jin Soo Lee, John C. Lee, Devesh Melwani, Vince Pulla, Chun Kei Tang, and Brett Wilson, and 6 grade 8 members: Gavin Chu, Adrian Eng, Will Hyung, Alex Leon, Praveer Melwani, and John Si.

Throughout the season, the boys worked extremely well as a team, cheering each other on and learning from one another. I'd like to give a very special thank you to Mr. Marke Jones, without whose skill, support, and humour, we could not have achieved this distinction. Thank you again Mr. Jones.

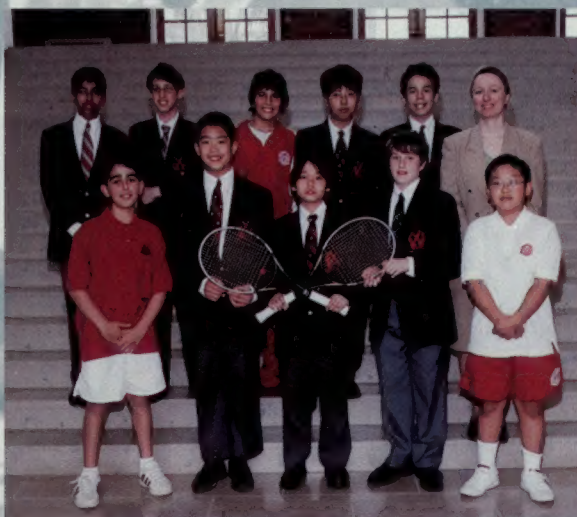

Yesterday, 7 team members represented the team at UCC. While each boy played skillfully and demonstrated true sportsmanship, the doubles team of Vince Pulla and Devesh Melwani, and singles player, John Si, each finished first in their categories. Without even knowing it, Adrian Eng won the winning point. Praveer Melwani, Will Hyung, and Alex Leon all played great yesterday. Well done boys!

Special mention must also be given to our Most Valuable Player, Adrian Eng (come up please, Adrian), and our Most Improved Player, Jin Soo Lee (come up, Jin Soo). Both of these boys are true 'powerhouses' on the court and demonstrate excellent strategy. Each of these 12 players have made me very proud and I am sad to see the end of this wonderful team and winning season!

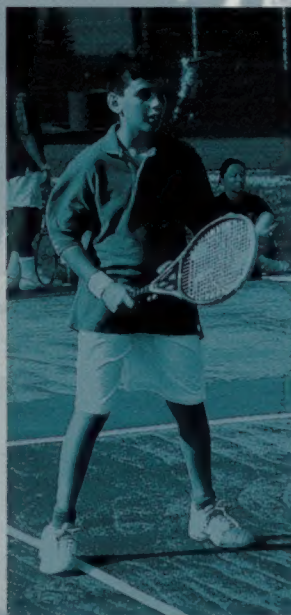

The U14 tennis season started out with some wet and disappointing weather which forced our first meet against Appleby to be cancelled. The following meet against the powerhouse, UCC, was held in semi-glacial temperatures. And yet the Saints persevered. In our final meet at Mayfair Lakeshore we had our best results yet. We came in fifth place out of eight teams and several team members met their personal goals. Coach Pelc would like to thank all the boys for a great season.

Wow! This was certainly another very busy year in Macdonald House as our 'Residential Life Curriculum' kept our staff and students busy and active in every aspect of House and school life. From our amazing guest list of speakers and 'Formal Room Inspectors', which included members of the Andean Community and community in Aurora & Newmarket, Olympic Gold Medalists, members of other C.A.I.S. schools and current N.H.L. players & coaches, Macdonald House students rolled out the red carpet and greeted our speakers & inspectors with enthusiasm and very clean rooms! Top that off with a wide variety of in-house competitions and clubs as part of our evening 'Residential Life Curriculum' and you can see how important these activities were in aiding the overall development of our students' moral, personal, social and character development. There is no question, Macdonald House was built around people and community and our students and House leaders played a huge role in ensuring that a home-away-from-home was established early in the school year. A big thanks to our Heads of House, many House Captains and Macdonald House Council members during the year for their efforts and caring nature in building a safe & vibrant community in Macdonald House.

## Macdonald House

At this time I would like to thank Assistant Housemasters Mr. Stewart and Mr. Day, our Resident Don Ms. Fogg and our team of Residential Duty Masters and their families who go above and beyond the call of professionalism and duty, day-in and day-out, to help guide and nurture many young lives in Macdonald House. In addition, Ladies Guild moms - Mrs. Noble, Mrs. Andrews and Mrs. Chinadi gave many hours of their time participating and ensuring that the needs of the boys were taken care of from medical appointments to our monthly Birthday Bashes. Their many thankless hours of personal and family sacrifice no doubt go a long way in creating a healthy and positive living environment for the students they serve.

Aubrey Foy had a profound impact on everyone: If I was to write his Grad comment for the school's Review it would read:

**Aubrey Foy:** (Aubs, Foymeister, Tuck, The Great Organ, organmeister, Housemaster supremus and other names, I'll let the old boys here fill in)

Activities: 1<sup>st</sup> Organ, S.A.C Jazzband, Head of Music, 1<sup>st</sup> football coach, Flavelle Housemaster (12 years?), Director of Admissions, Maestro of 27 (count 'em...Carol Services!), Pipes & Drums between McPherson & McGillivray, Saintly patron and passionate supporter of College 'Arts' and 1<sup>st</sup> team sports. Loving husband to Daphne. Super Dad to Christina, Andrea, Michael, Jason and hundreds of Flavellians, mentor to many, colleague, friend, Andrean.

I met Aubrey Foy shortly before the start of the school year in 1976. A prodigiously talented young musician, he had left an important position as organist at St. James Cathedral in Toronto to come to St. Andrew's. It was easy to strike up an immediate and strong bond with Aubrey. His love of life in all its vicissitudes and his love of laughter were evident and infectious. As the 'father figure' of the Clements, Foy, Treasure triumvirate - we all came to teach at S.A.C. in the same year - to my mind, Aubrey has always loomed large in the scheme of this place and in my friendship. It was Aubrey who introduced me to Thai food... we would flee the campus together whenever the opportunity arose and enjoy our time together, tasting the food, savoring the moment of good company, good conversation. Aubrey always held court with a twinkle in his eye and lightness in his heart...he had lots of jokes to tell. He was like that.

This was his place...here... at school, in the chapel- at the organ console at St. Andrew's. If you are an old boy you can see him like I can see him - clearly - in my mind's eye: slightly bemused and ruffled...just a touch...peering over his spectacles and keeping an eye on us, hitching his pants just a bit between hymns - taking it all in and ready afterward with an anecdote or wry and thoughtful comment provoked by our proceedings here. He was like that. He made you think about things.

You'll forgive me if I speak this way... It is with the authority of a warm & privileged friendship I enjoyed with Aubrey for over 27 years at St. Andrew's. I am proud to say I was among his best friends. We were housemasters. (In itself a kind of strange and special Andrean subcult or brotherhood to which, I note, a few of us now present belong.) I speak then, with the power of long and great affection and with tremendous respect.

Aubrey's life was here, on campus. Like many families living on campus it was a life not measured by school bells or the length of term. In essence, St. Andrew's really was home -24 /7, from season to season, year in and year out. Our children grew up here, families were neighbors. The Andrean community was about family. Sacrifice and service were exacting but building strong relationships with people was the reward. Getting to know Aubrey and Daphne and the Foy family was one of the perks...a gift!

Aubrey's passion in life was people. He took a genuine interest in your life. His love of life and laughter were what endeared you to him. Ever the glib raconteur, Aubrey had a fondness for mirth. With Aubrey, a joke or story was always at the ready. In Flavelle House, where he presided for some 12 years as surrogate father figure for countless boys, he held their complete trust and faith. He took great interest in each of his charges and they regarded his kind, caring and compassionate ministrations with great respect. On behalf of the boys Aubrey was tireless in the house. His study door was always open and he was omnipresent and accessible at all hours. Sometimes I would pop down from Memorial House at the far end of the hall and would see him, looking like a too much loved 'Teddy Bear', replete in rumpled disarray (his shirt was always slightly disheveled), wearing a pair of worn carpet slippers, perhaps holding a mug of tea in one hand and on the leash of the Foy dog 'Chloe' in the other, just shuffling down the hall to do a room check or to enjoy a chat about how things were going in the House with some of his senior Flavellians. Uncannily intuitive about House mischief, he had his finger on the pulse of boarding life and was ready to spring into action before the pranksters had time to put their malicious schemes into action. Although, more often than not, I suspect he was already in on the joke. He was like that.

Years later, when I came back to Flavelle as a duty master, I was always impressed by his House meetings. He presided, but didn't dictate - the boys always felt ownership of the House and responsible for their own actions and governance. Aubrey was simply there to offer guidance, wisdom, advice...ready like Solomon, to dispense justice, ready to sort out a petty squabble in an equal poised (should it be really necessary). Aubrey was like that.

Aubrey possessed the magic of the 'common touch'. He had time, advice or encouragement for everybody. For just about three decades, his wisdom served faculty, staff, several headmasters and members of the Board. As senior statesman in his role as Director of School Admissions, his vision and personal commitment to St. Andrew's steered a course that exemplified integrity and dedication. He was fiercely proud of our school... he loved the place and was a staunch supporter and passionate ambassador. He was like that.

My wife, Chris and I were lucky to have spent an idyllic few days at the Foy cottage on beautiful Grand Lake in the picturesque Gatineaus this summer. Aubrey was as happy as I have ever seen him. Driving his boat on the lake and saying hello to neighbours on their docks, barbecuing a gourmet feast and, talking with great pride about his children, their accomplishments and the important things in their lives. He talked about St. Andrew's: about coming back from retirement for the Carol Service. He looked forward to Homecoming. He was in top form. He and Daphne had just celebrated their 30<sup>th</sup> wedding anniversary. Chris and I had arrived on the day of our 25<sup>th</sup>. Aubrey uncorked a bottle of one of his finest vintages. We lingered over a marvelous dinner chatting until 2:30 in the morning. We had the happiest and most wonderful times imaginable.

There is an empty space that his friendship used to fill. The world is a smaller place without Aubrey. I'll miss him terribly. And yet I know that he would want me to be philosophical about it - not angry. He'd want me to take every precious minute given to me and squeeze yet more life out of it. He would be telling me to unburden my heart and cast away sorrow. He'd be encouraging me to be most resolute in the hours of darkness. To live up to my Andrean creed. Live the motto.

This was Aubrey. Just like him to give comfort and support by his wonderful example. Teach through kindly and encouraging mentorship. This was a part of his virtue; a part of his greatness.

And so in my memory and heart he will continue to cast the dark moments from my life and be my shining example. Like all of us here today I consider myself wonderfully fortunate and take comfort in having known him.

In this unfathomable darkness of death we seek the comfort of the glimmering of light. He shines today and always in our hearts. We have been fortunate and enriched to have had the experience and privilege of getting to know Aubrey Foy. Whether one traveled far today or simply walked across the quad; whether one came as a parent, an old boy, (in particular a Flavellian), a headmaster, a member of the board of governors, a colleague or co-worker, a choir member, a student or friend, it is certain that they came because their life was enriched in some way by Aubrey.

Husband, father, colleague, friend, Andrean. Aubrey Foy: one of life's rich blessings. **Stephen Treasure Esq.**
